Qué es la multiplicación?

Es una operación matemática que consiste en sumar varias veces el mismo número.

Por lo tanto la multiplicación es una suma reiterada.

Ejemplo $2 \times 3 = 6$

Es lo mismo que...

$$3 + 3 = 6$$

La multiplicación

y sus partes

9 **x** ← Multiplicando

2 ← Multiplicador

18 ← Producto

La multiplicación

Entonces la multiplicación es una suma abreviada.

Creo que ya entendí, pero necesito practicar...

Realicemos juntos algunos ejercicios!!!
