

DIVIRTIENDOME CON LAS MATEMATICAS

2

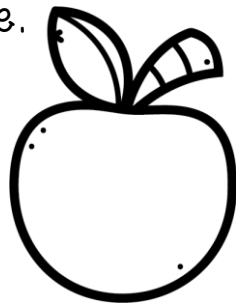

Mi Nombre _____

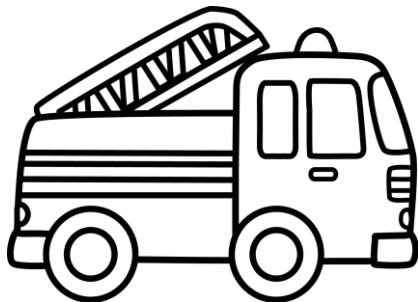

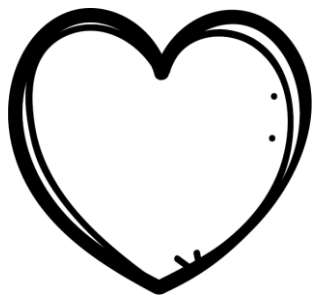

colores

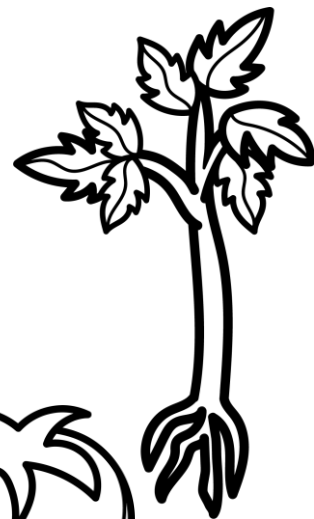

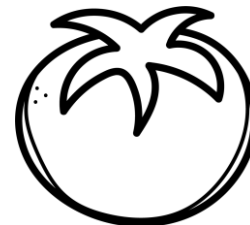

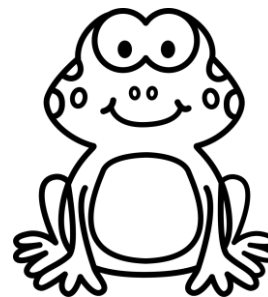

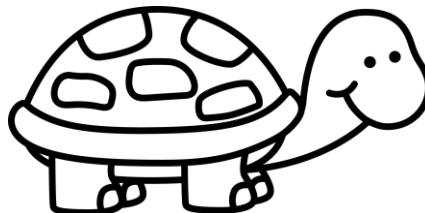

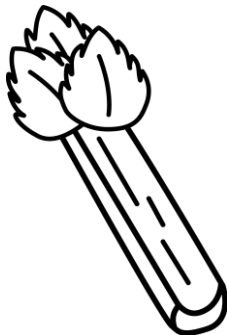

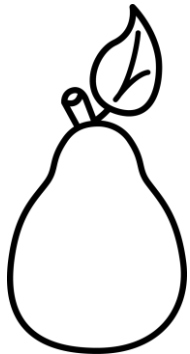

Colorea del color que se te pide.

rojo

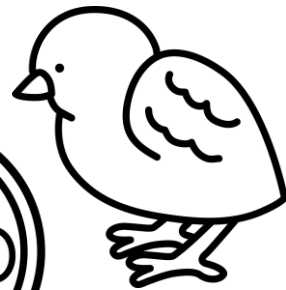

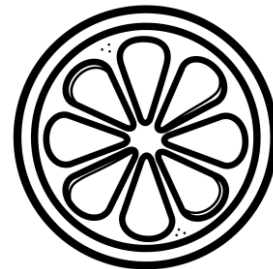

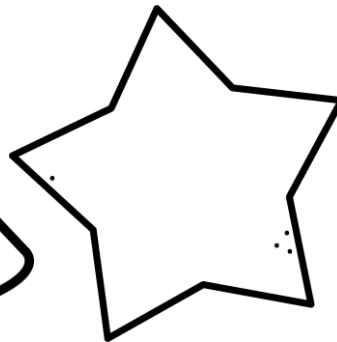

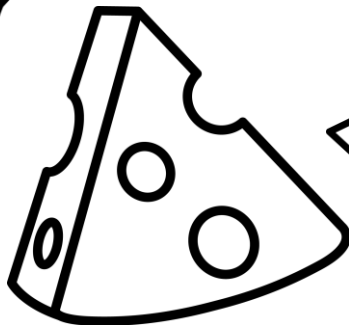

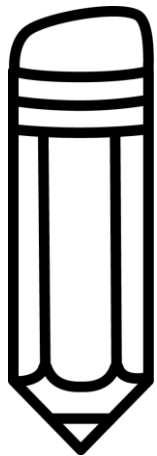

verde

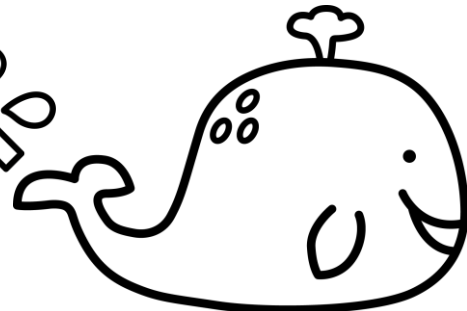

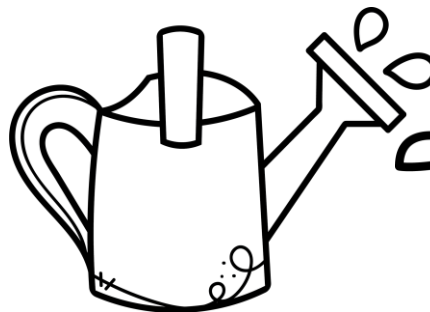

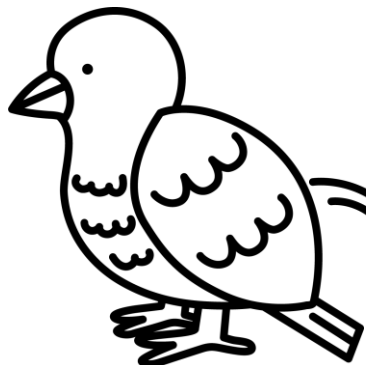

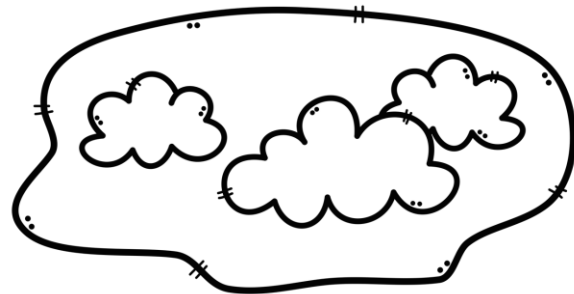

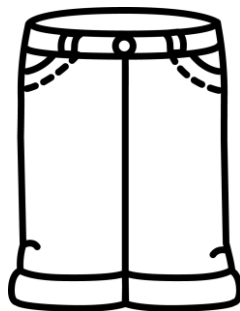

Colorea del color que se te pide.

amarillo

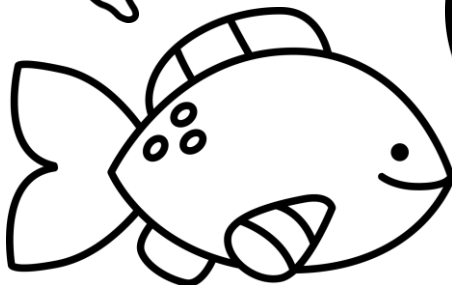

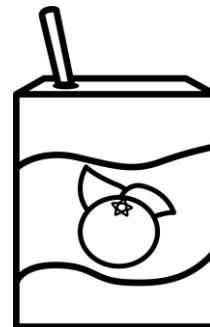

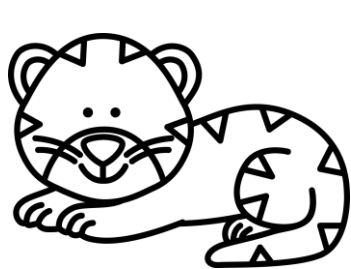

azul

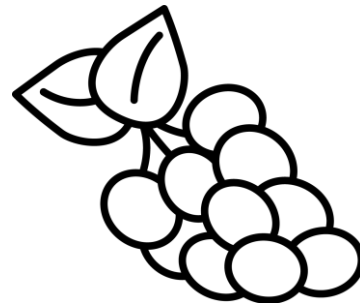

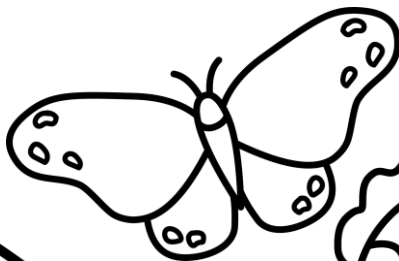

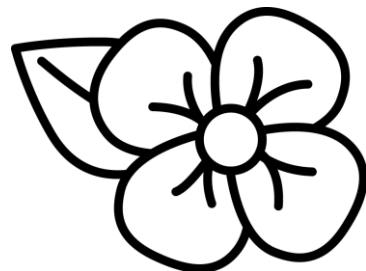

Colorea del color que se te pide.

naranja

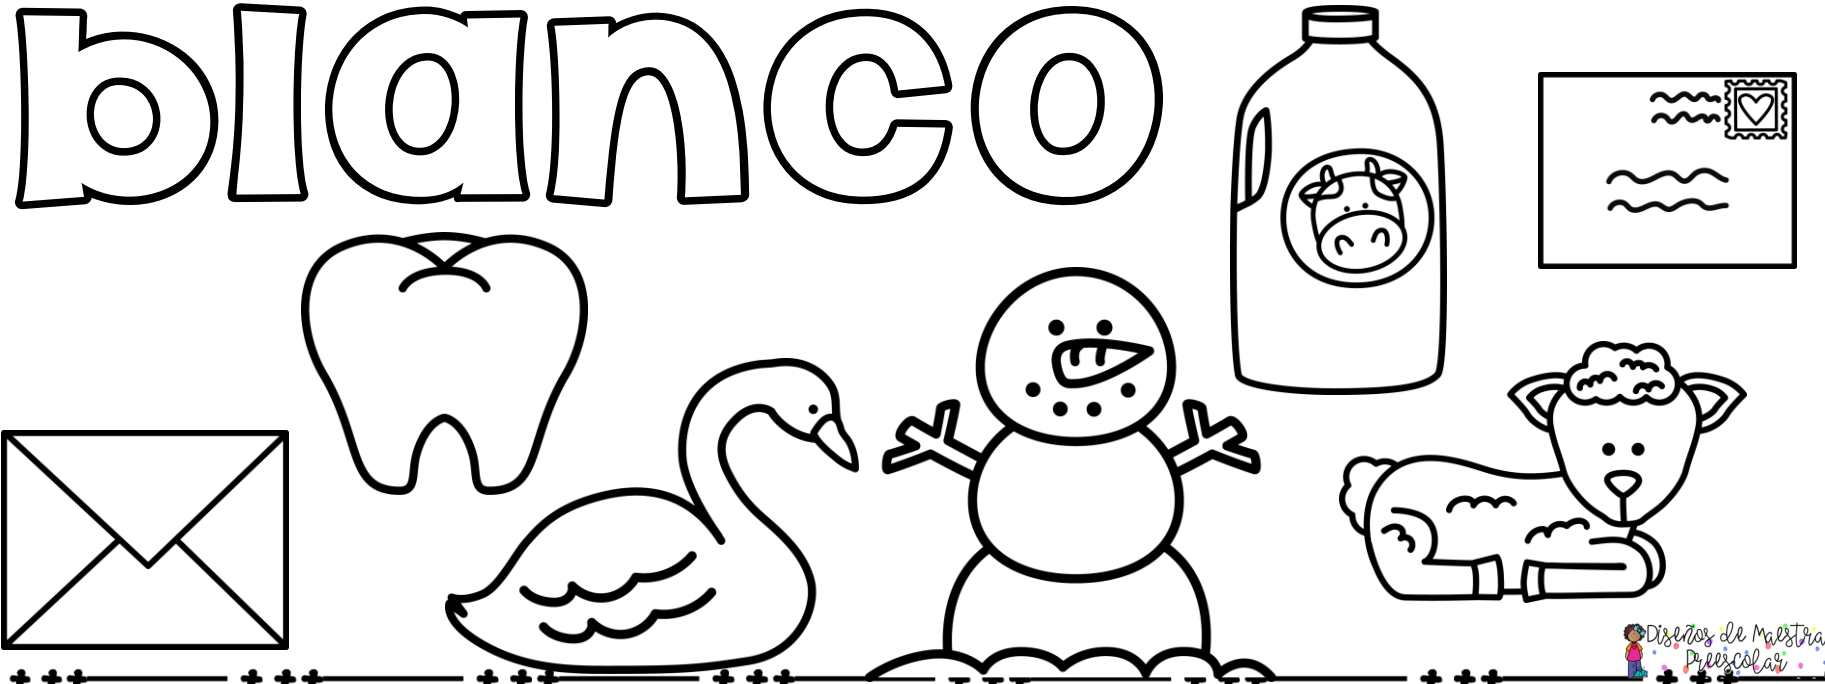

morado

Colorea del color que se te pide.

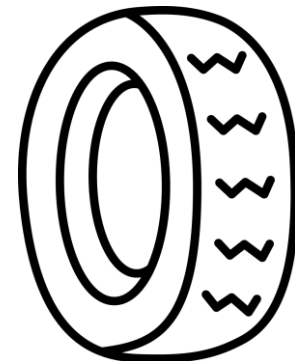

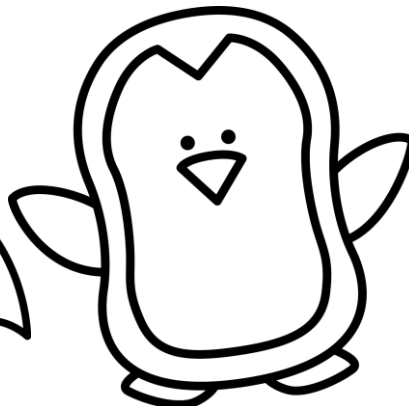

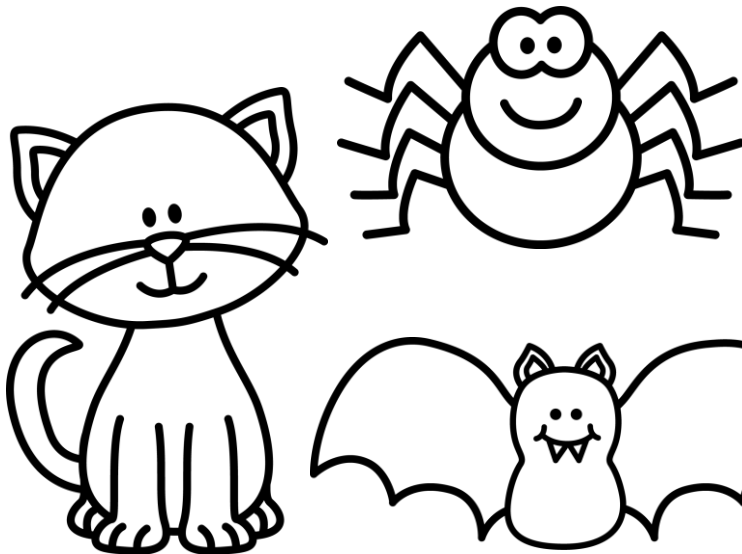

blanco

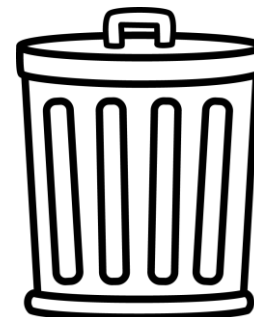

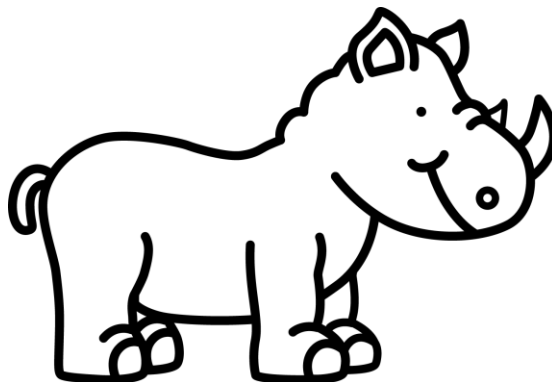

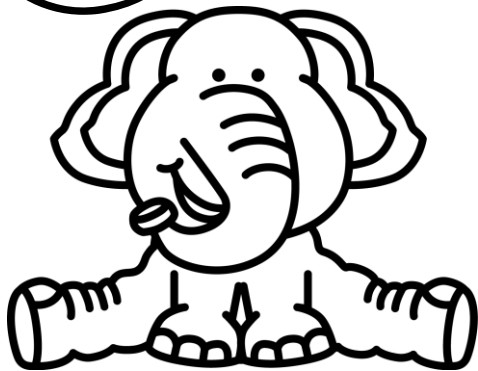

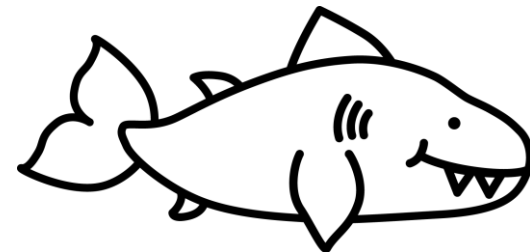

Colorea del color que se te pide.

negro

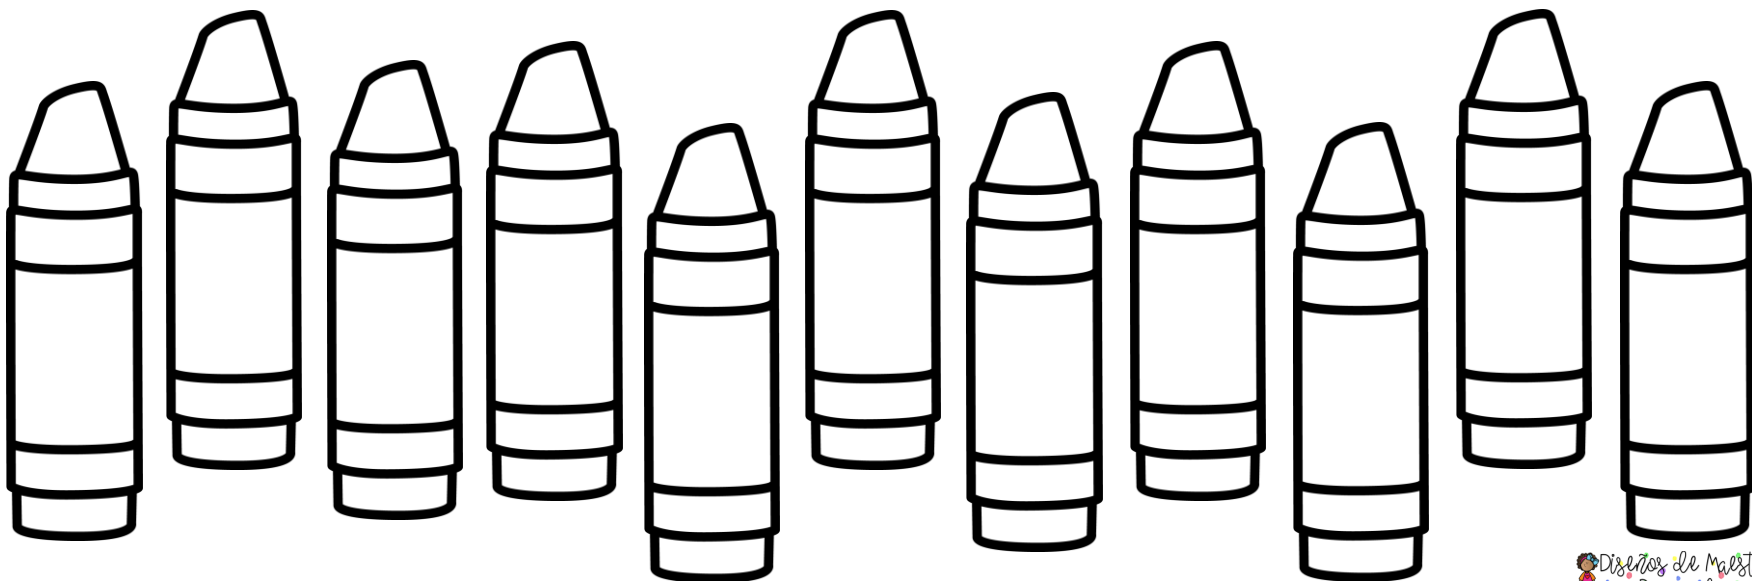

gris

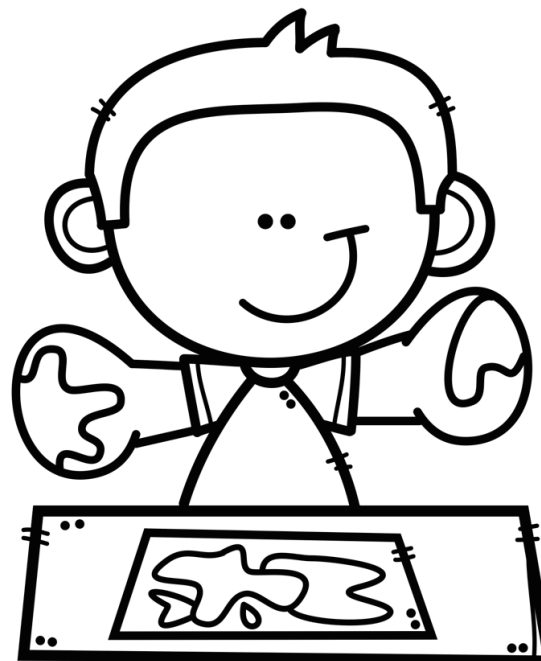

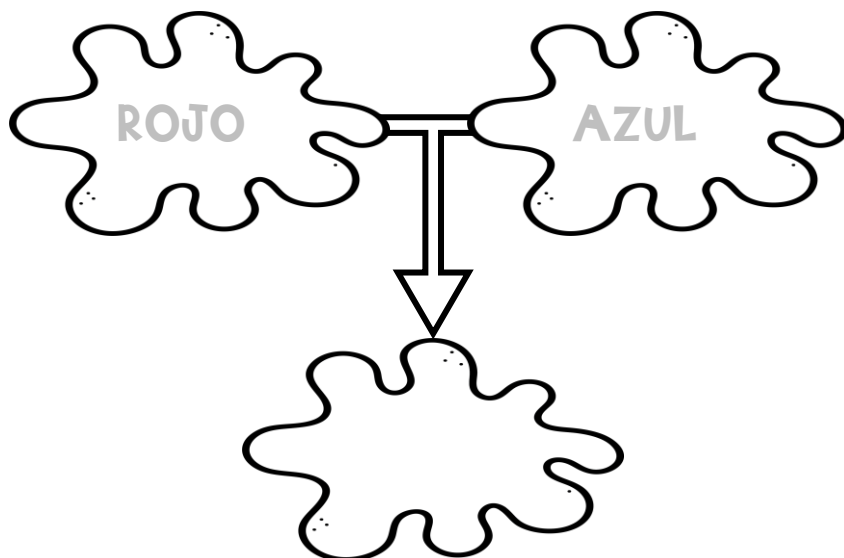

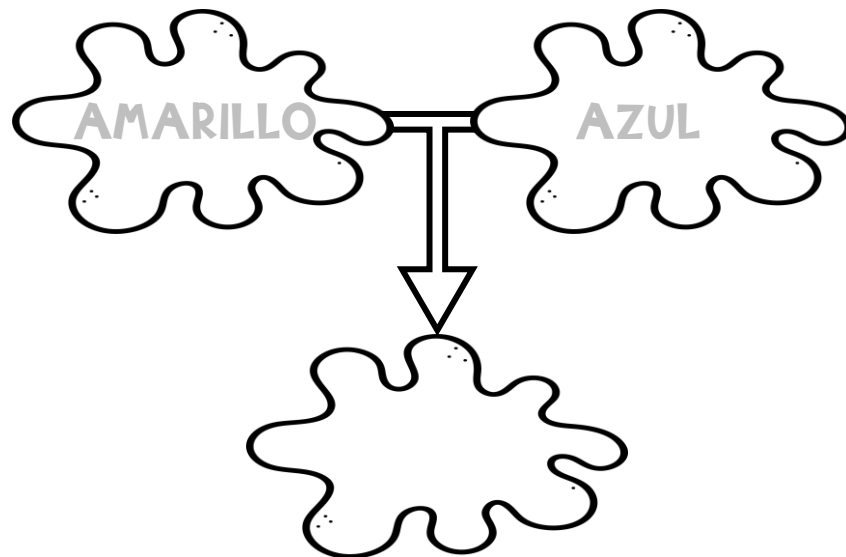

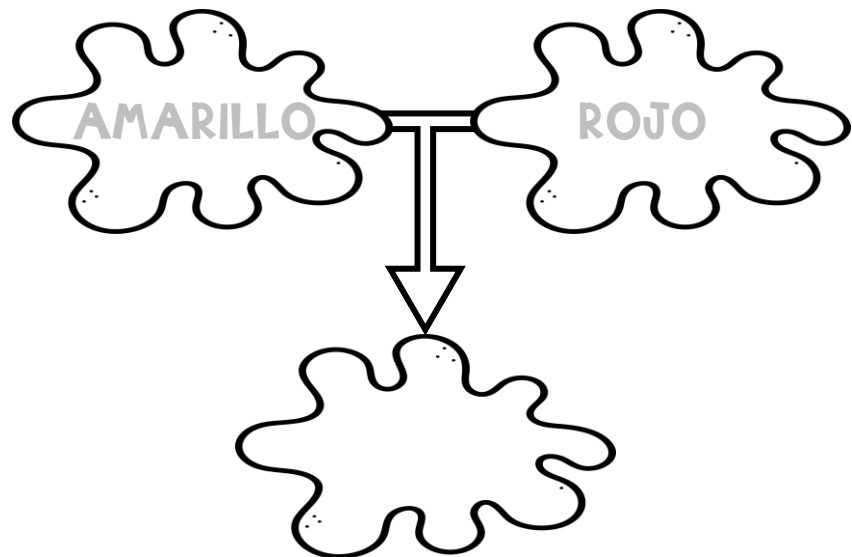

Colorea del color que se te pide.

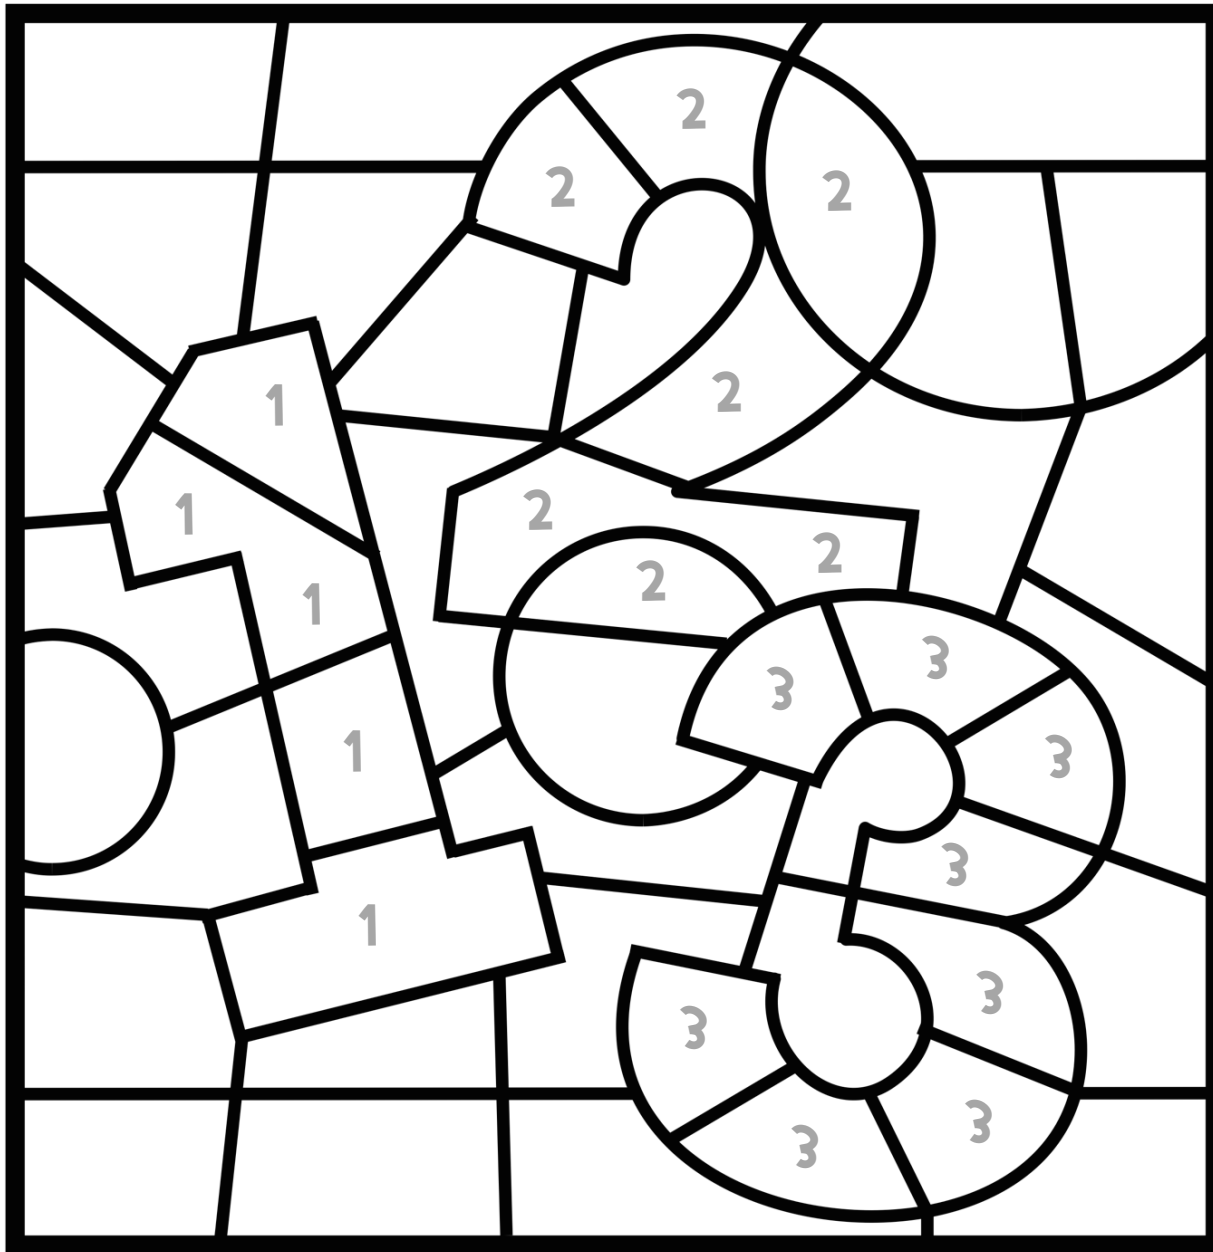

Colorea los crayones de los 11 colores antes aprendidos.

Mezcla los colores primarios para crear los colores secundarios. Coloréalos.

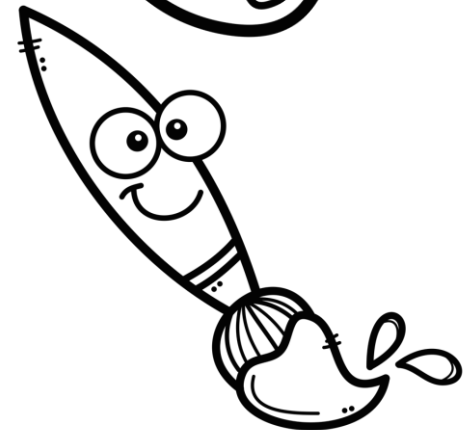

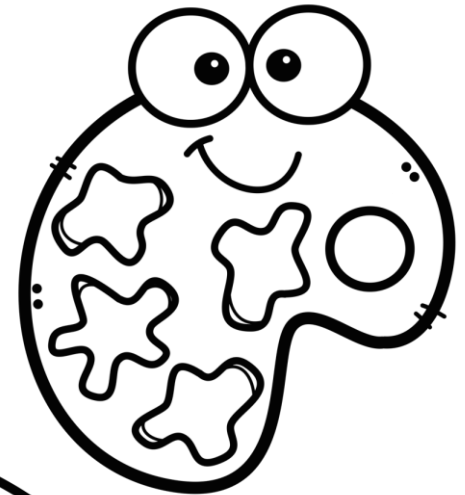

Combina los colores y colorea los espacios con el color del resultado.

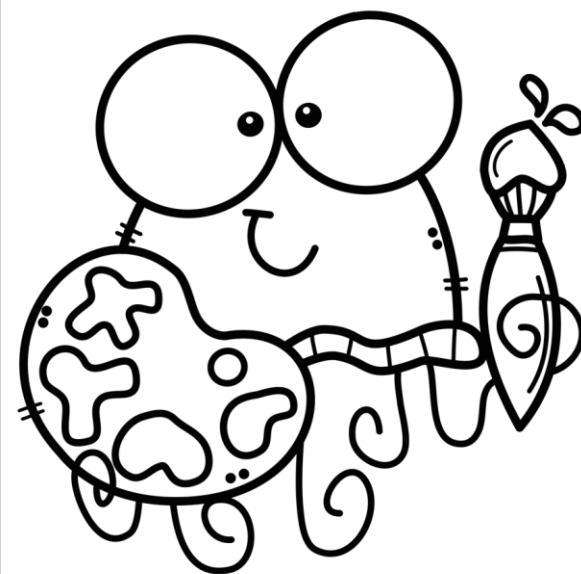

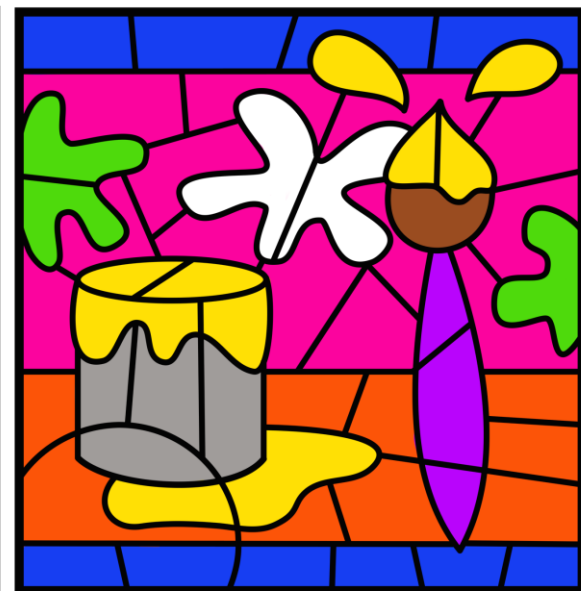

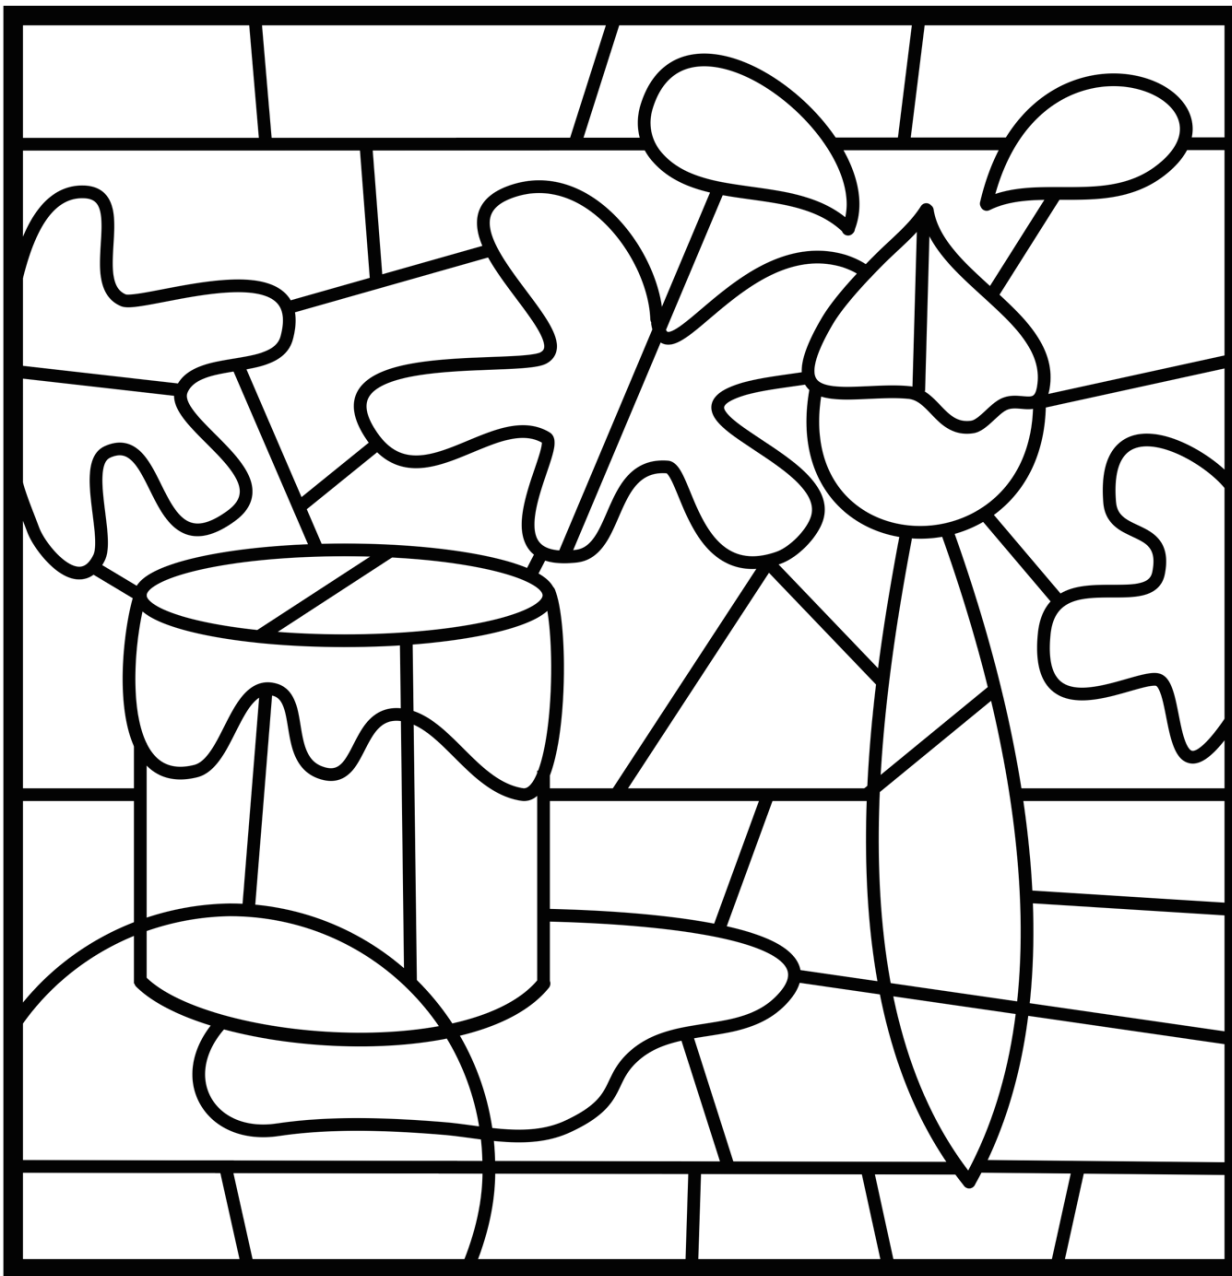

1. Amarillo + rojo

2. Azul + amarillo

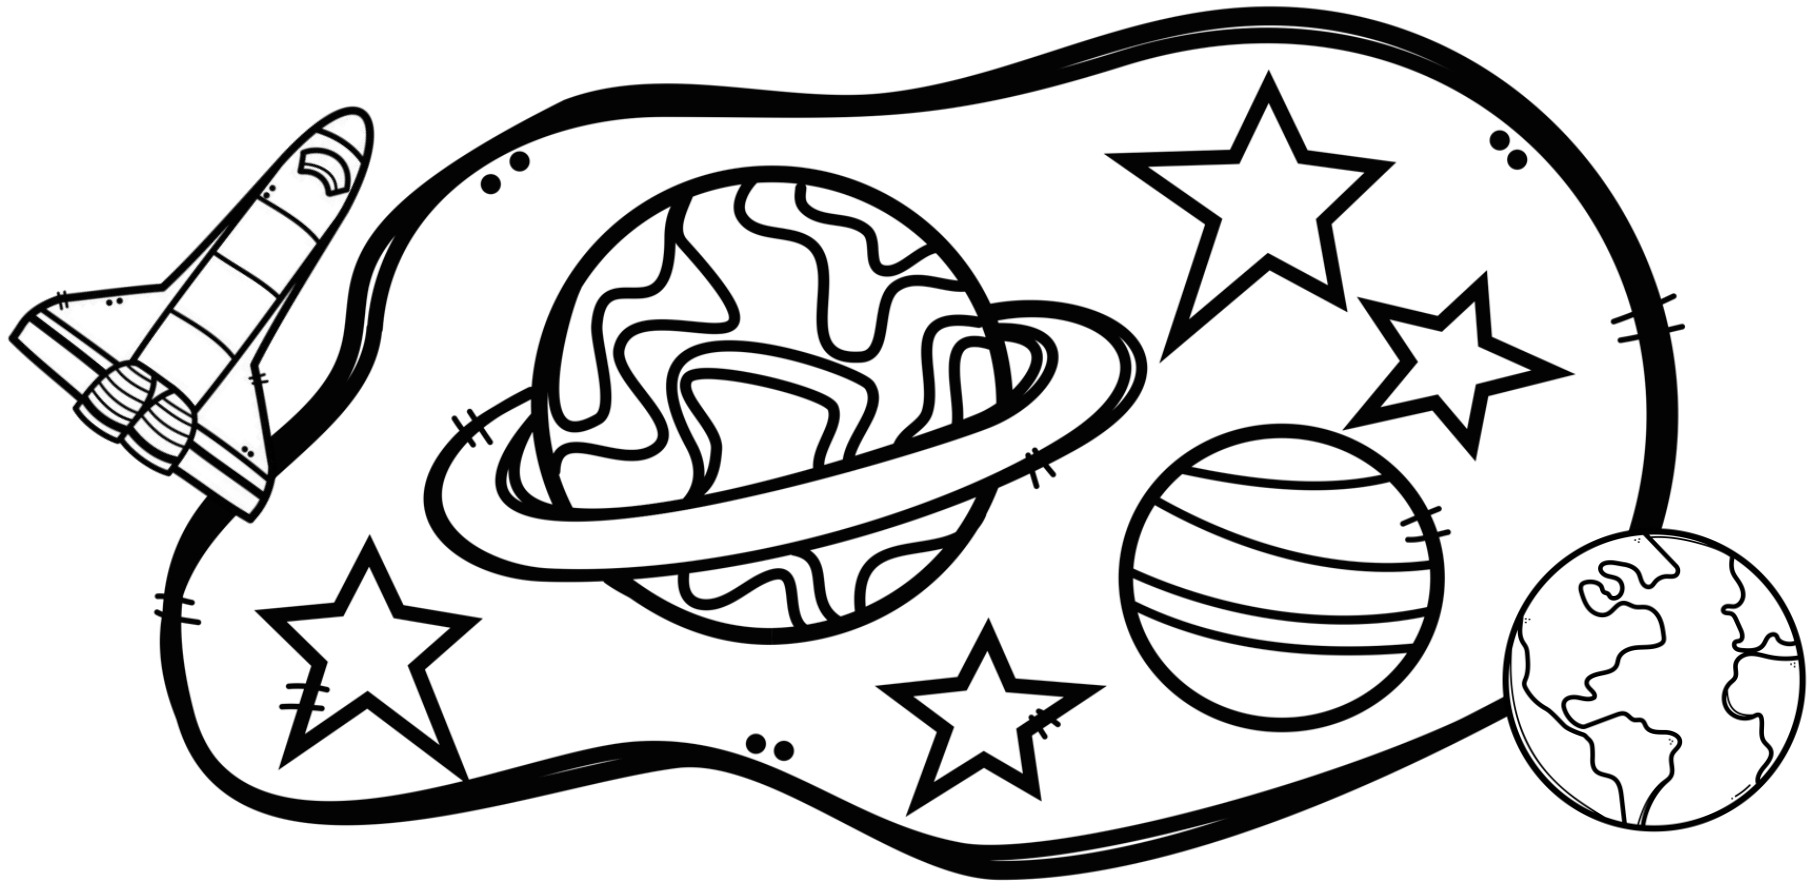

3. Rojo + azul

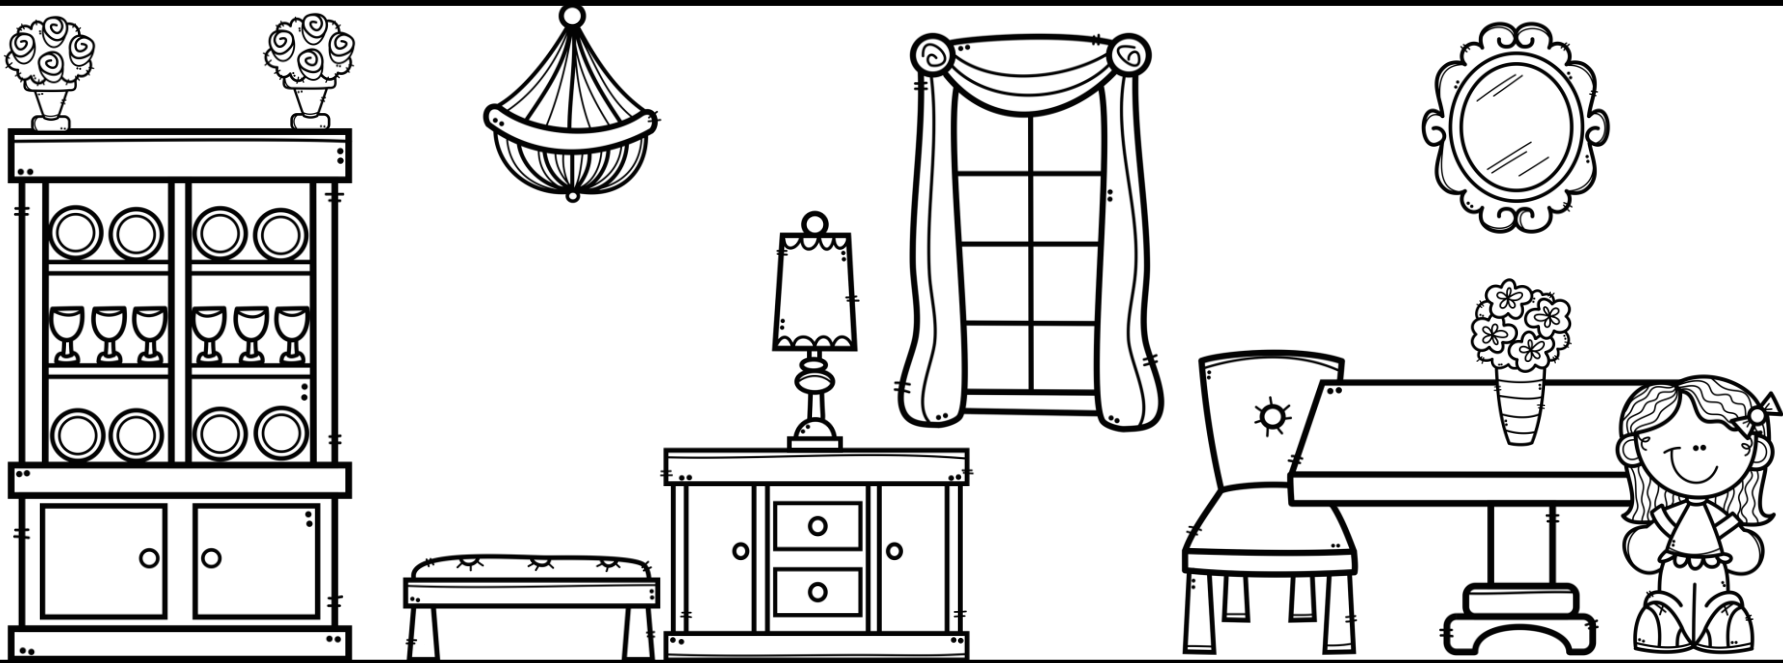

Colorea utilizando los colores del modelo.

Ubicación espacial

Une con una línea los dibujos en las oraciones que correspondan.

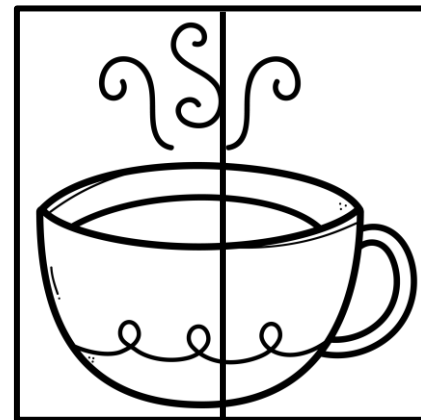

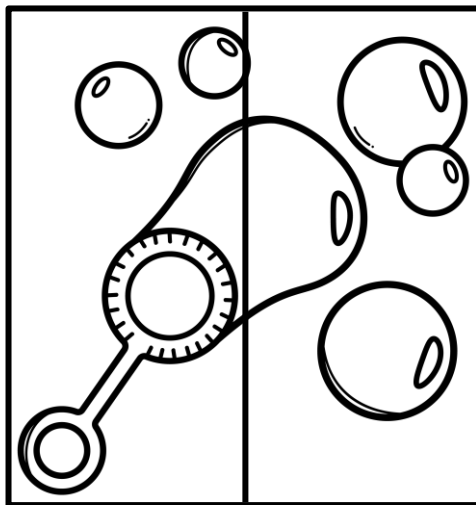

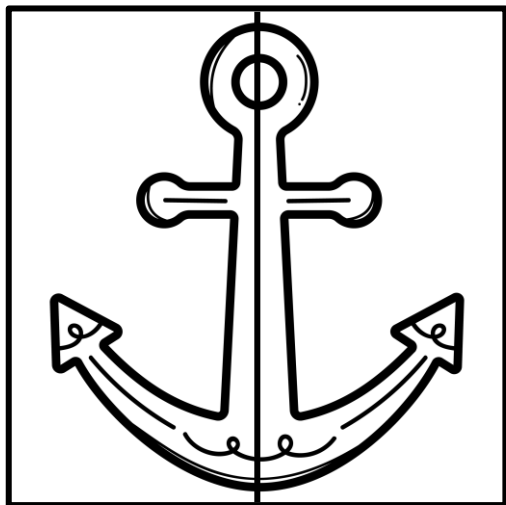

- ☐ Adentro de gabinete estan los
- ☐ Abajo del espejo esta el
- ☐ A la izquierda de la ventana esta la
- ☐ Atras de la mesa esta la
- ☐ A la derecha de la base con rosas esta el
- ☐ Arriba del florero esta el
- ☐ Delante de la mesa esta la

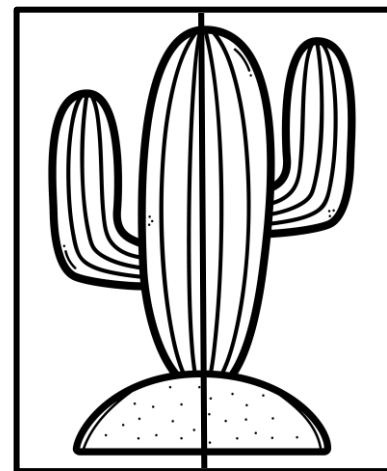

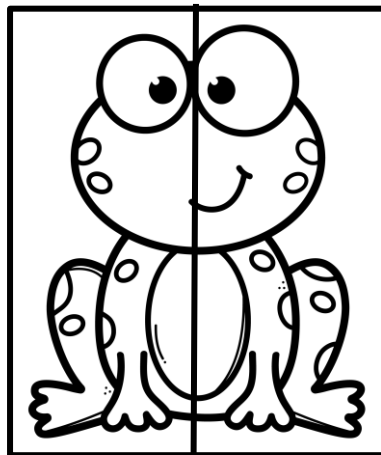

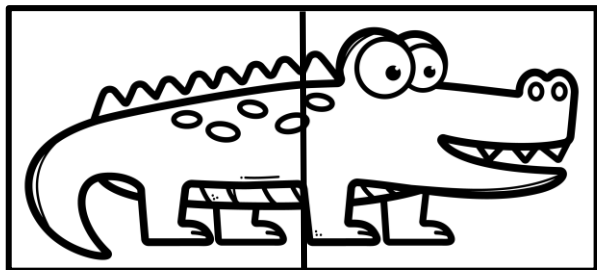

Colorea como se indica.

De azul la parte derecha

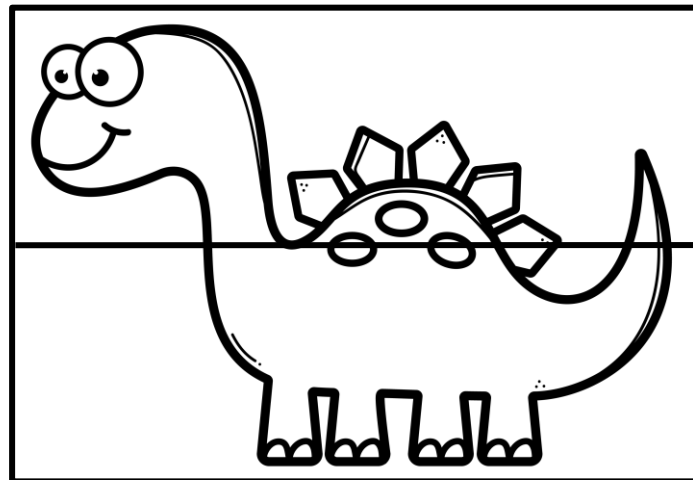

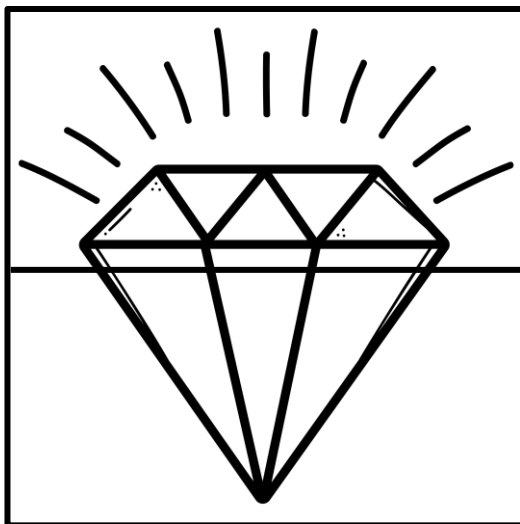

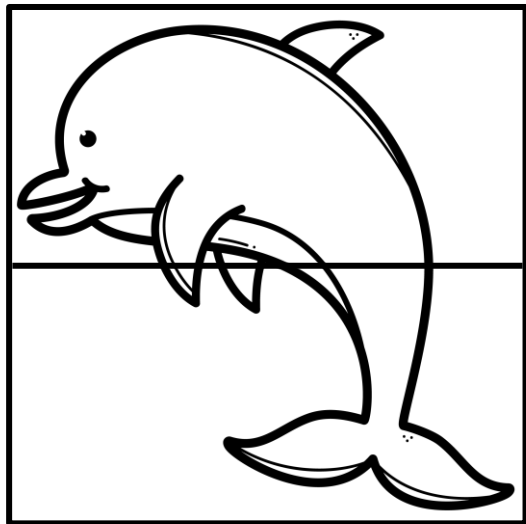

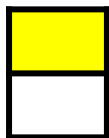

De verde la parte izquierda

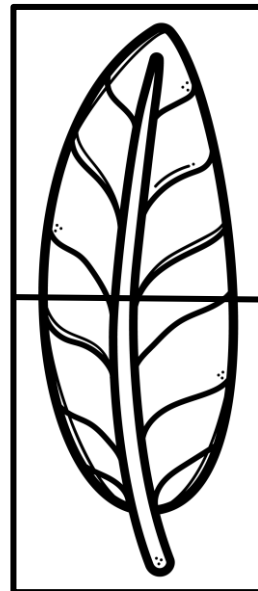

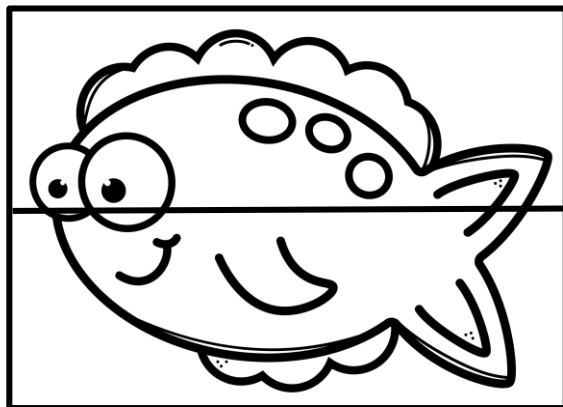

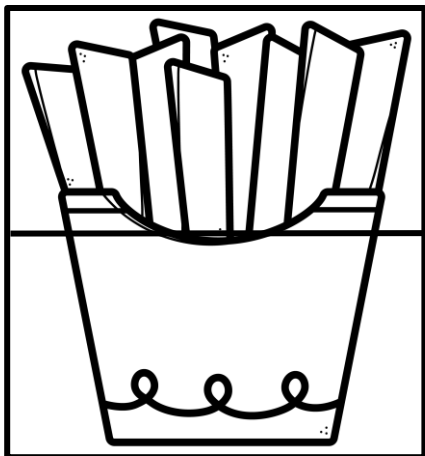

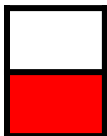

Colorea como se indica.

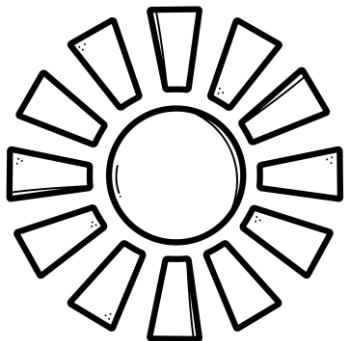

De amarillo la parte de arriba

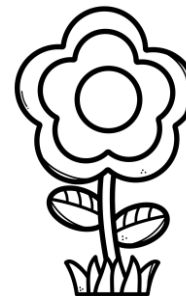

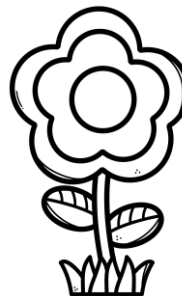

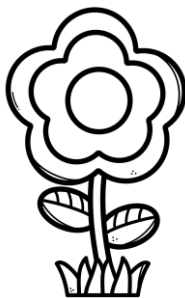

De rojo la parte de abajo

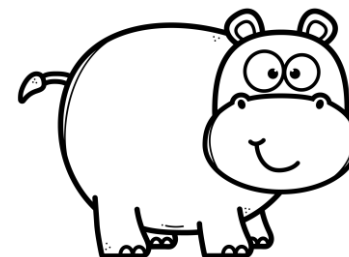

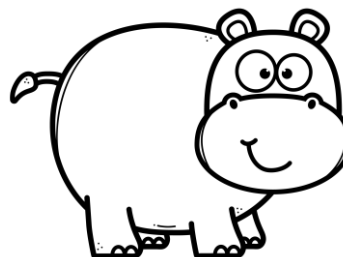

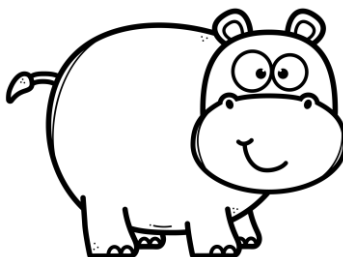

Colorea como se indica.

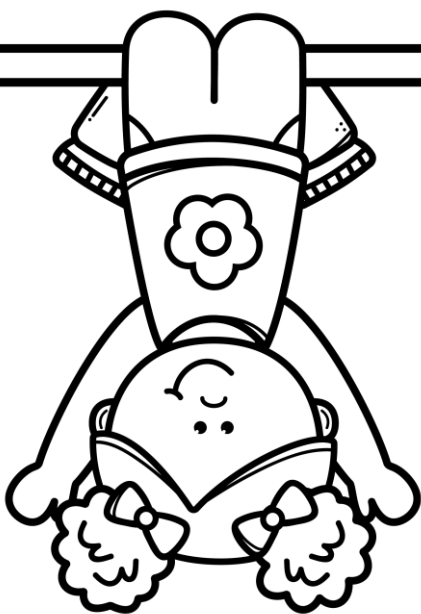

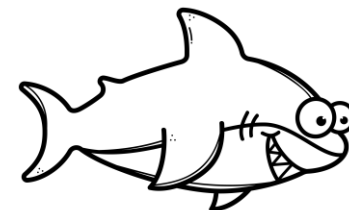

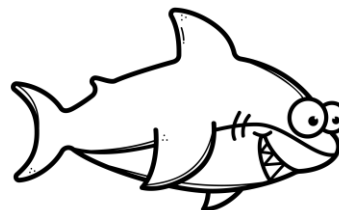

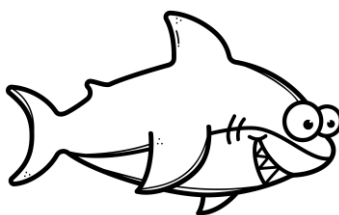

De rosa la flor de en medio.

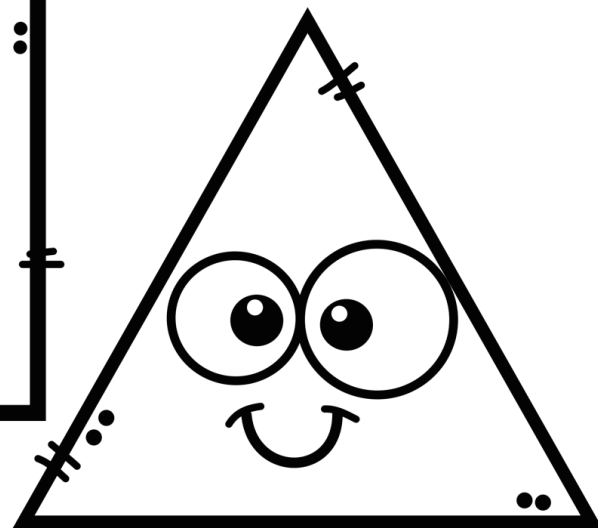

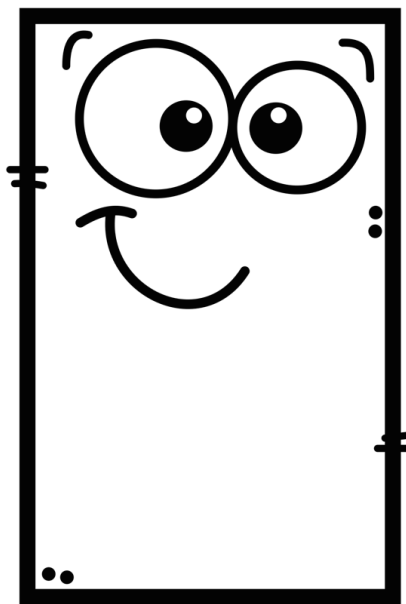

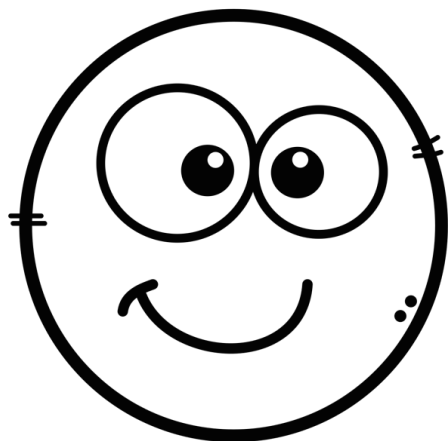

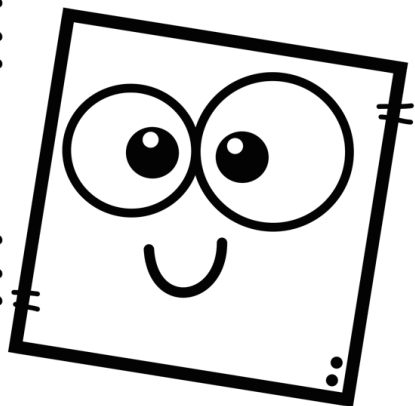

De naranja el hipopótamo de adelante.

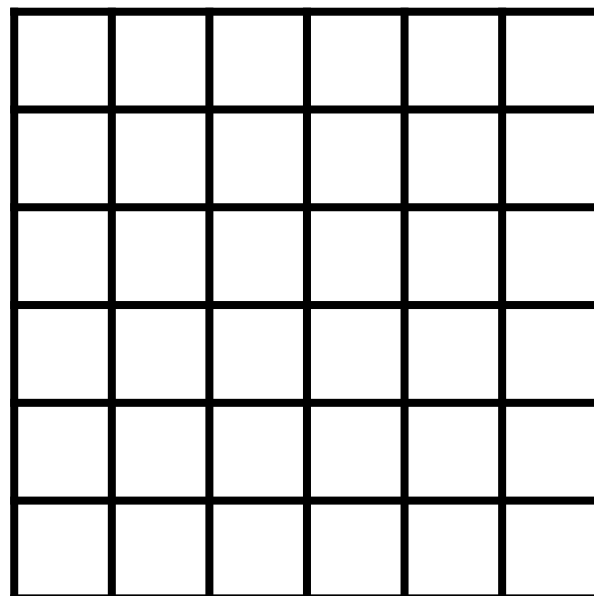

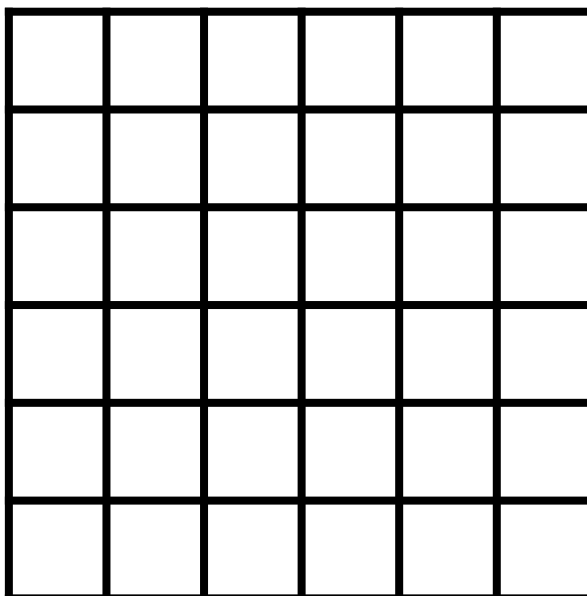

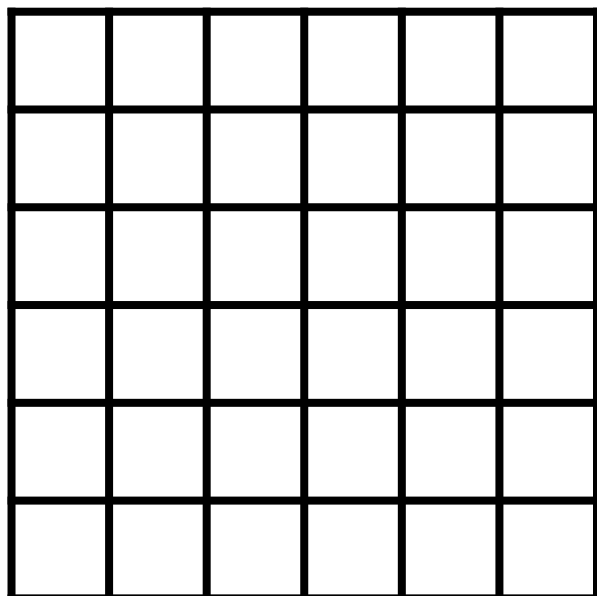

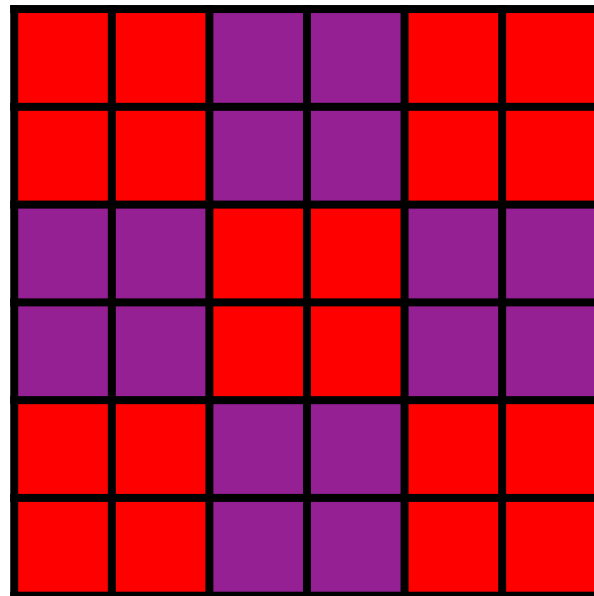

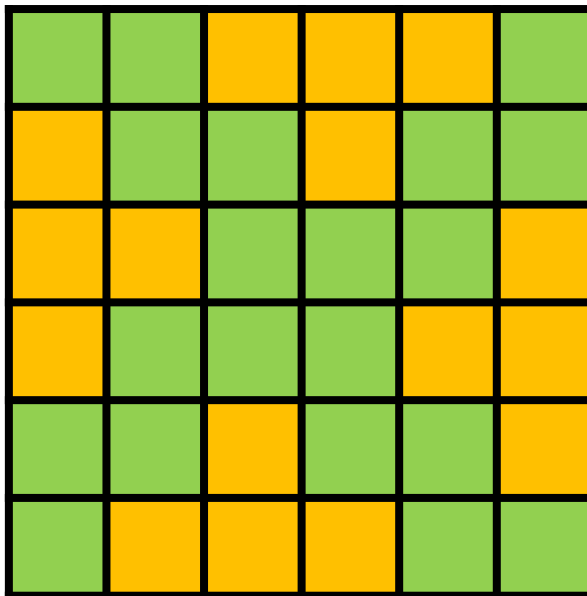

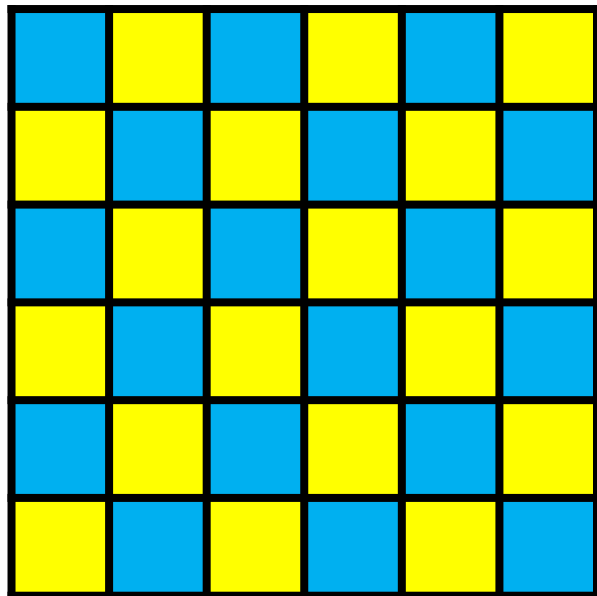

De morado al tiburón de atrás.

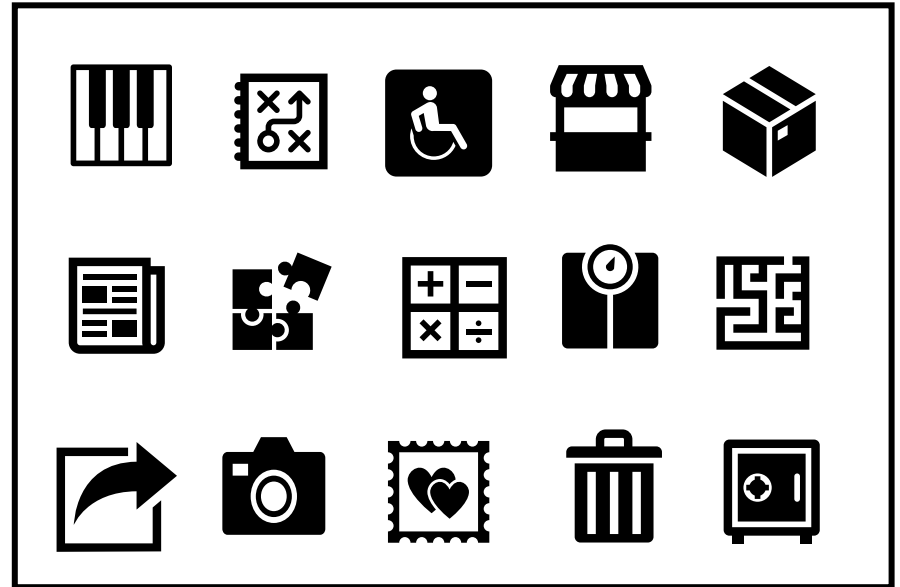

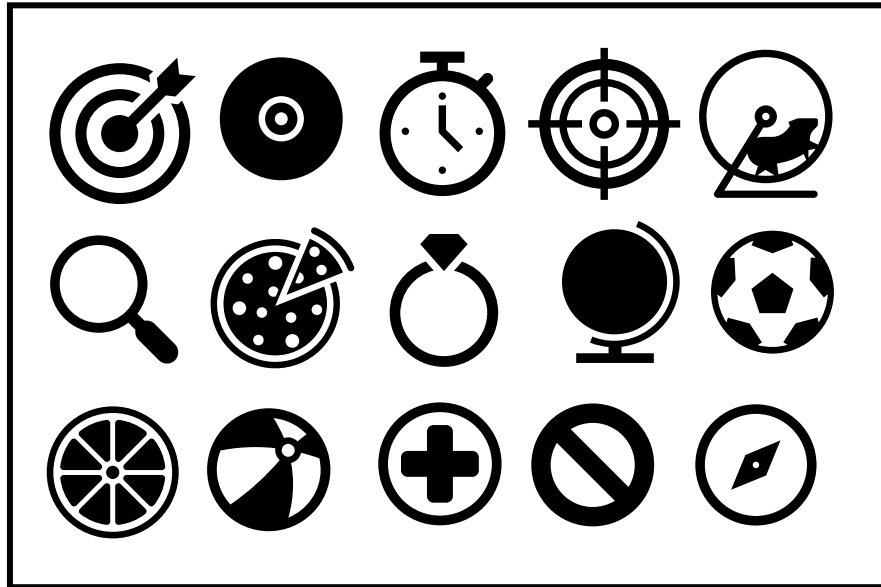

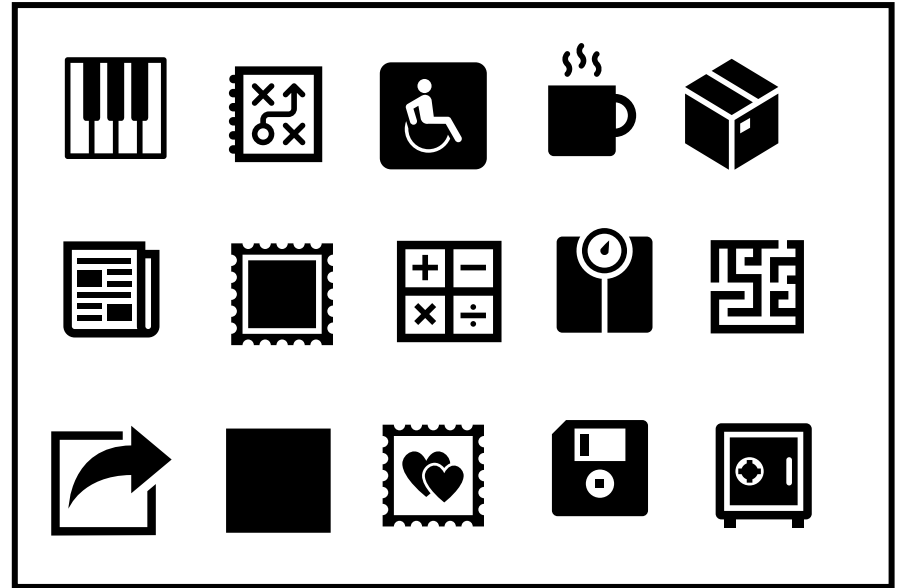

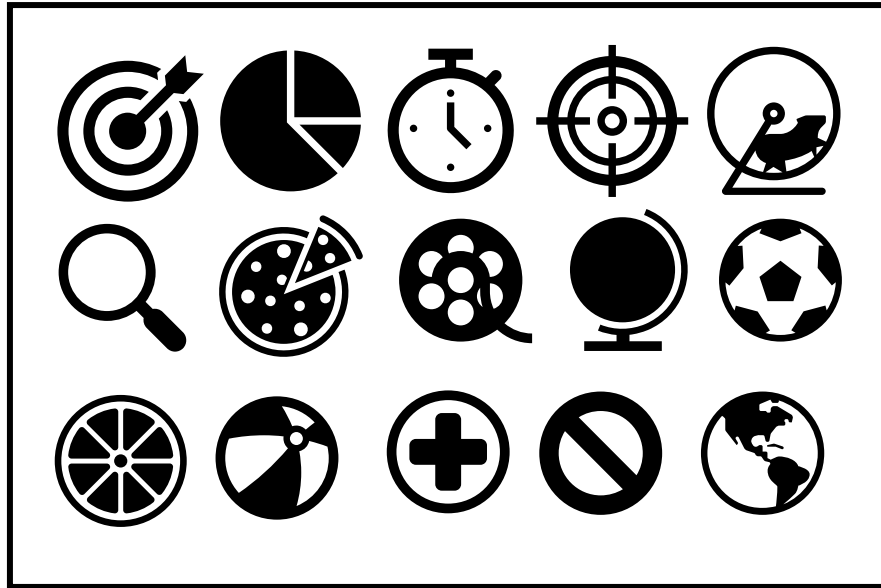

Figuras Geométricas

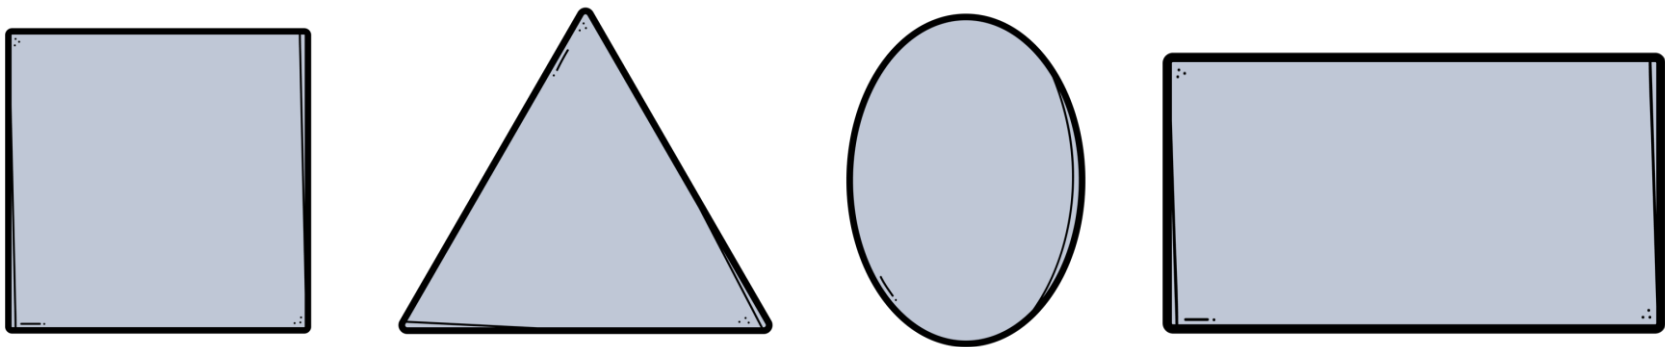

Reproduce los siguientes cuadros bicolores.

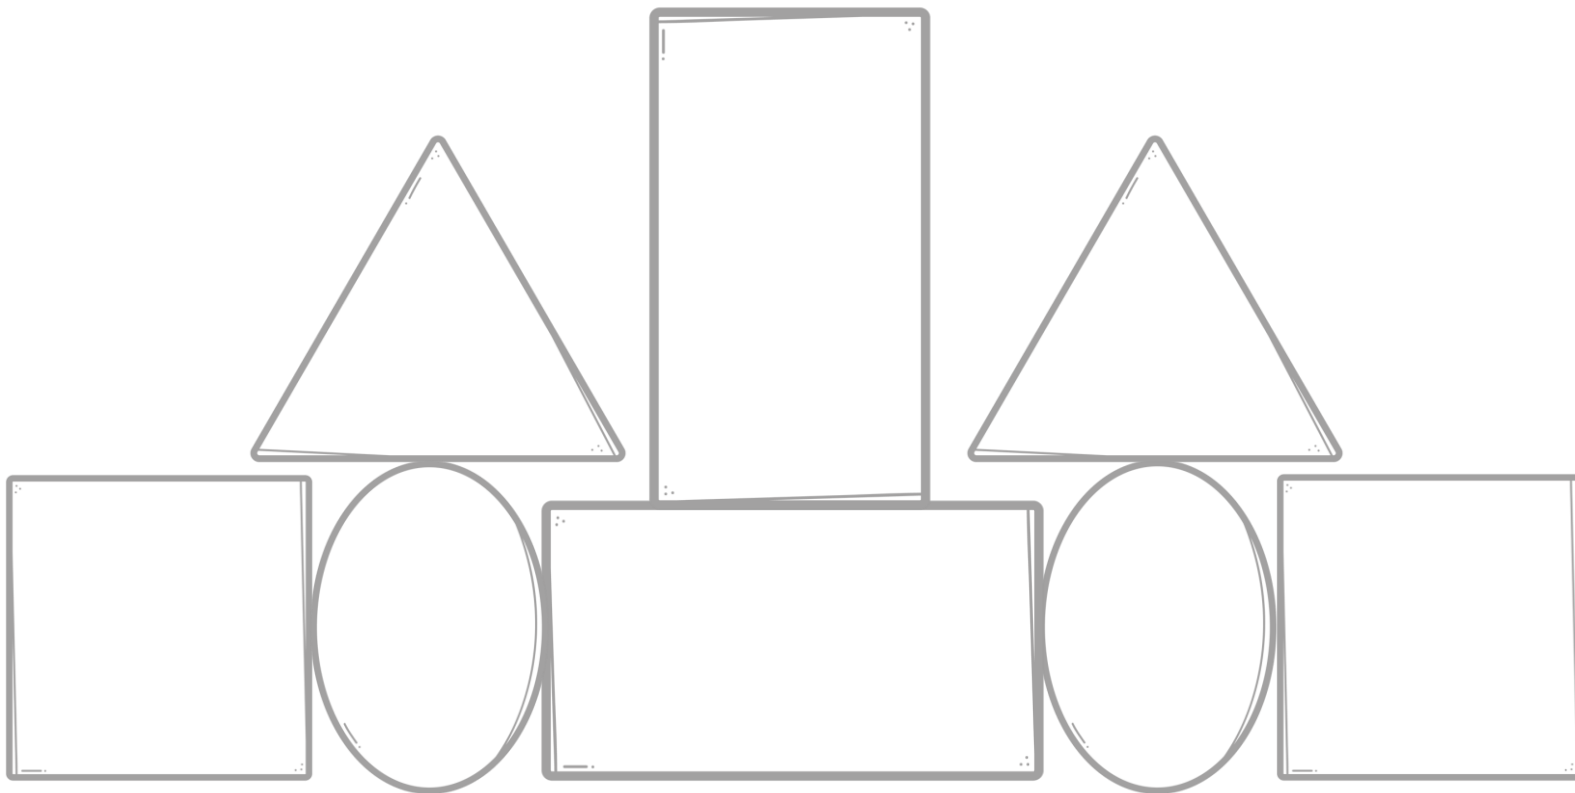

Encuentra y encierra 3 diferencias en las formas de círculos y 4 diferencias en las formas de cuadrado.

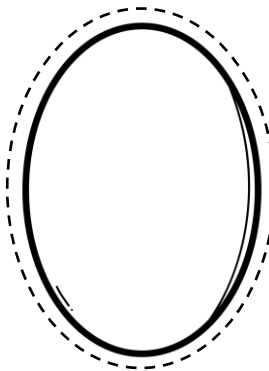

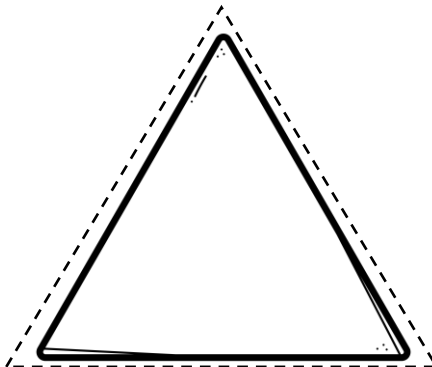

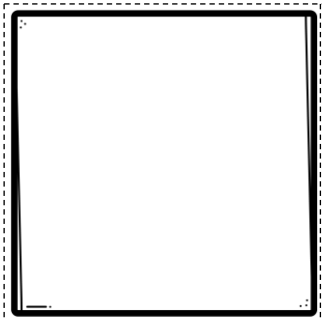

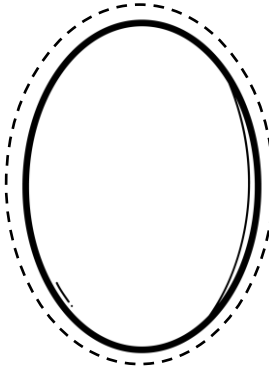

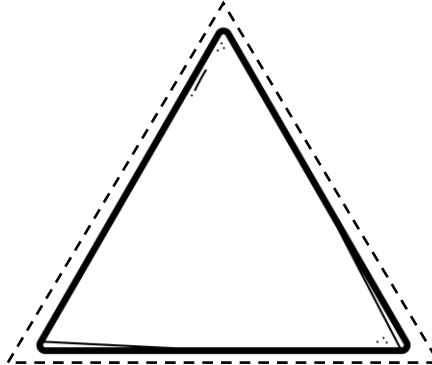

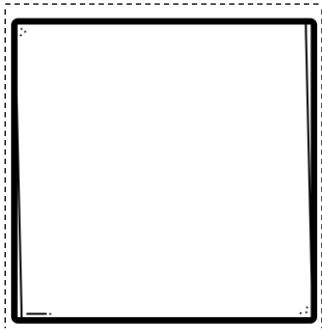

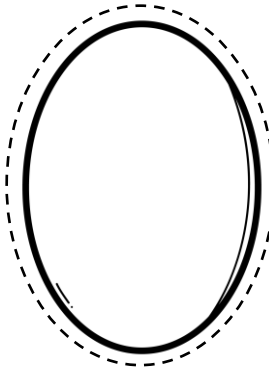

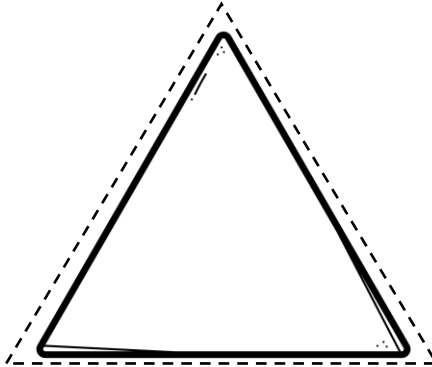

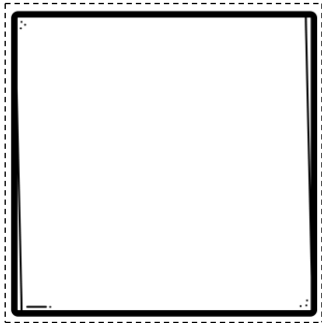

Recorta las figuras geométricas y pégalas en su lugar.

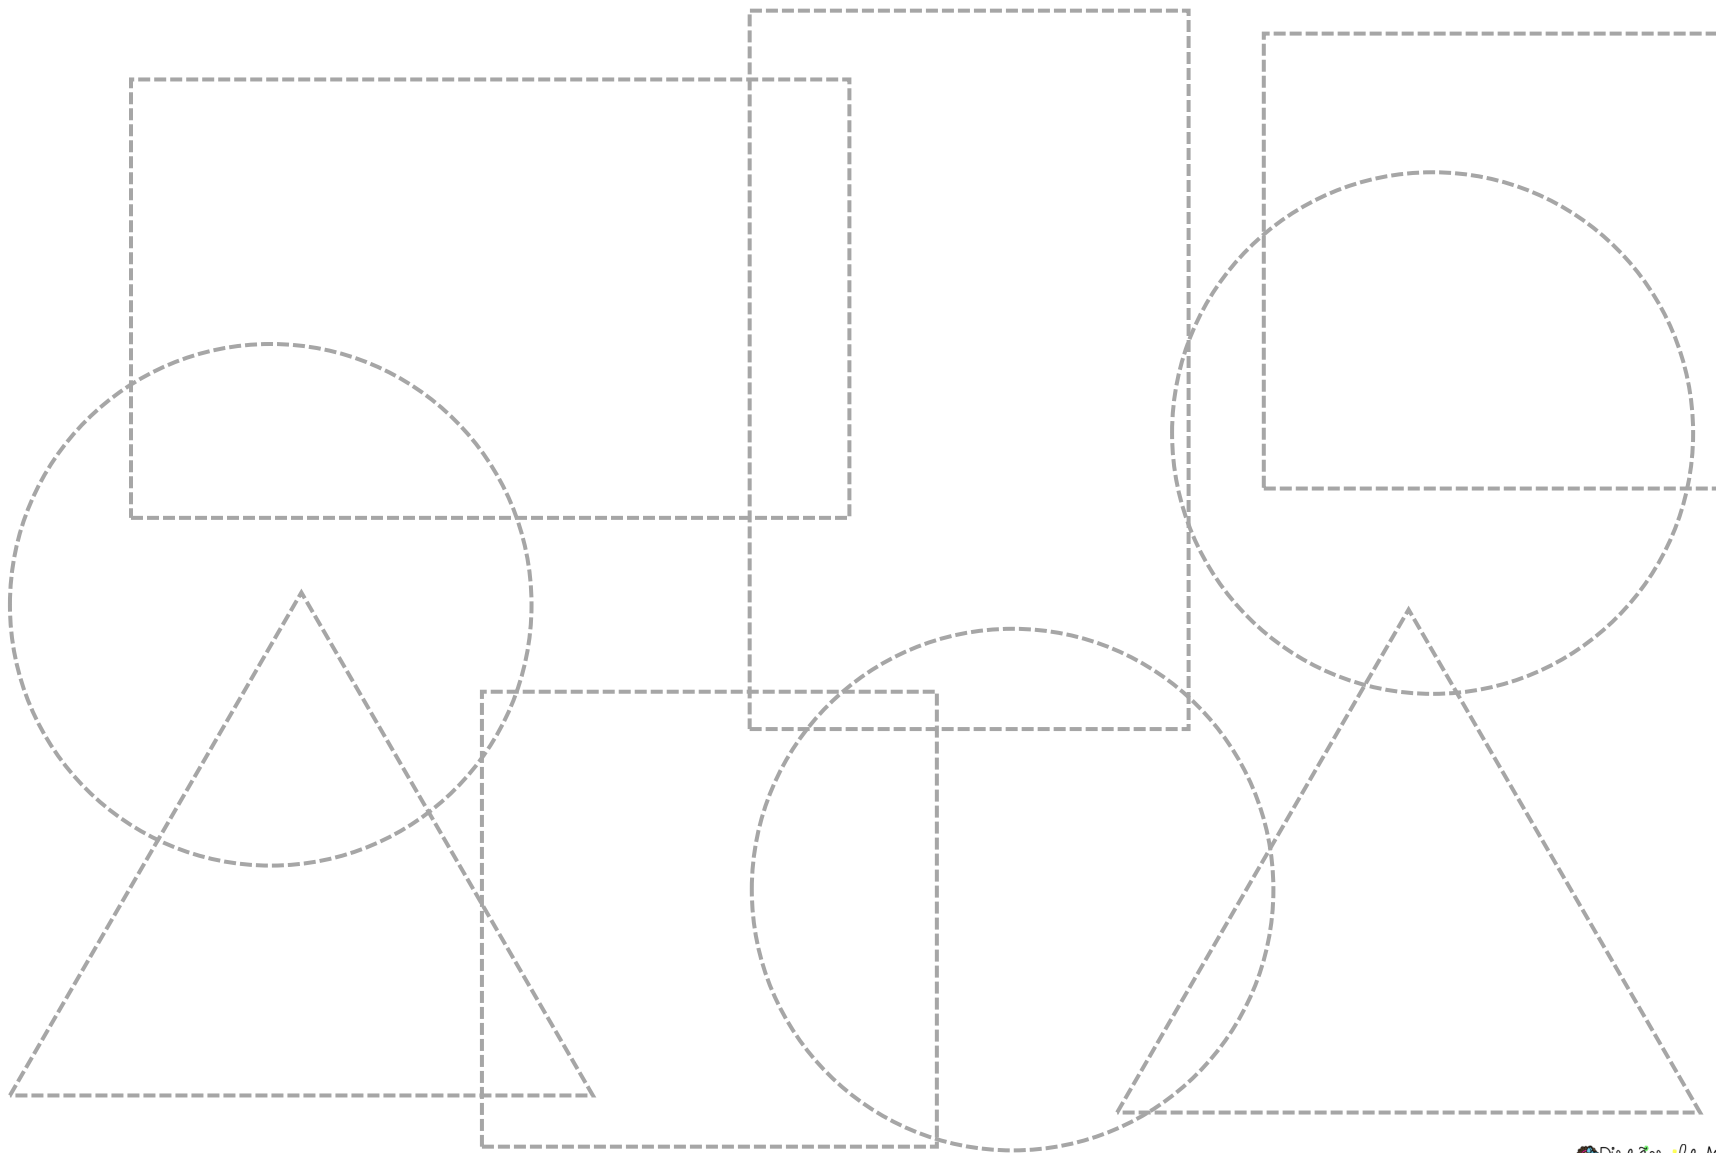

Recorta las figuras geométricas y arma la siguiente forma:

Colorea y recorta.

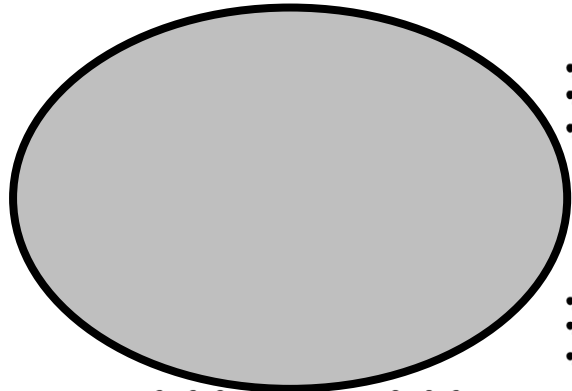

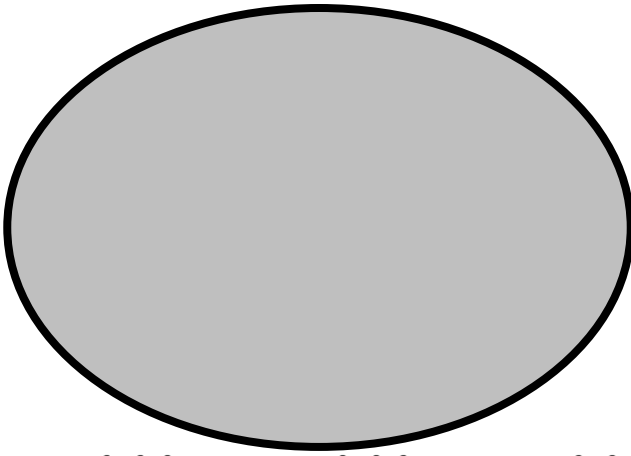

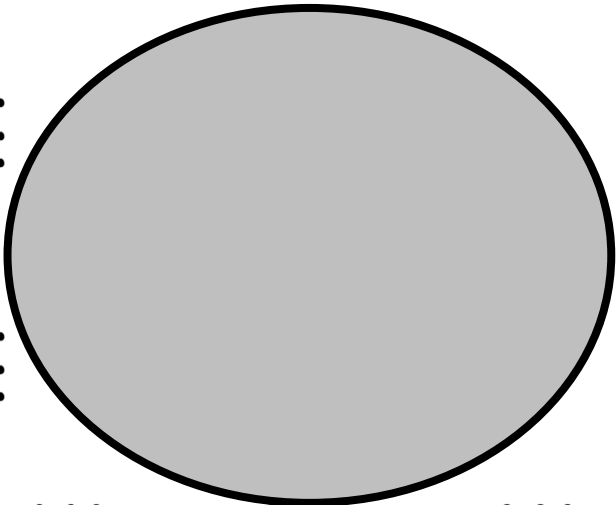

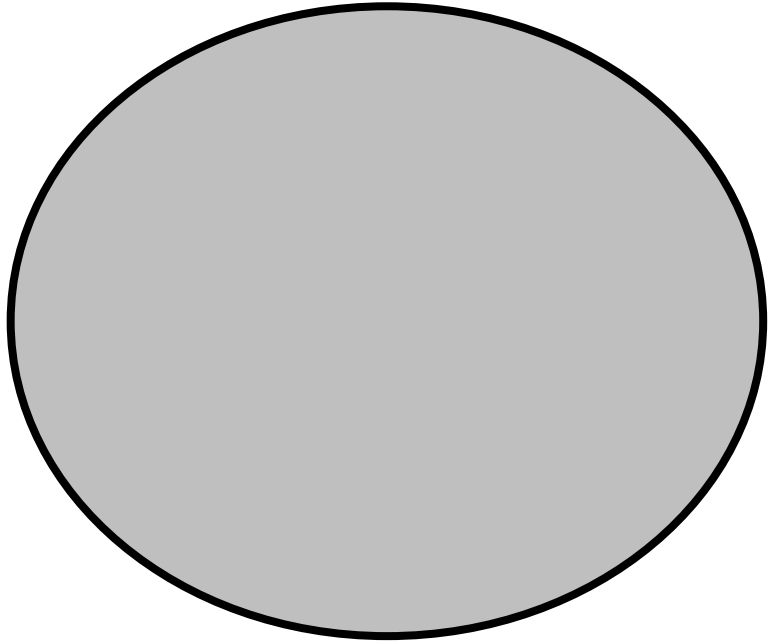

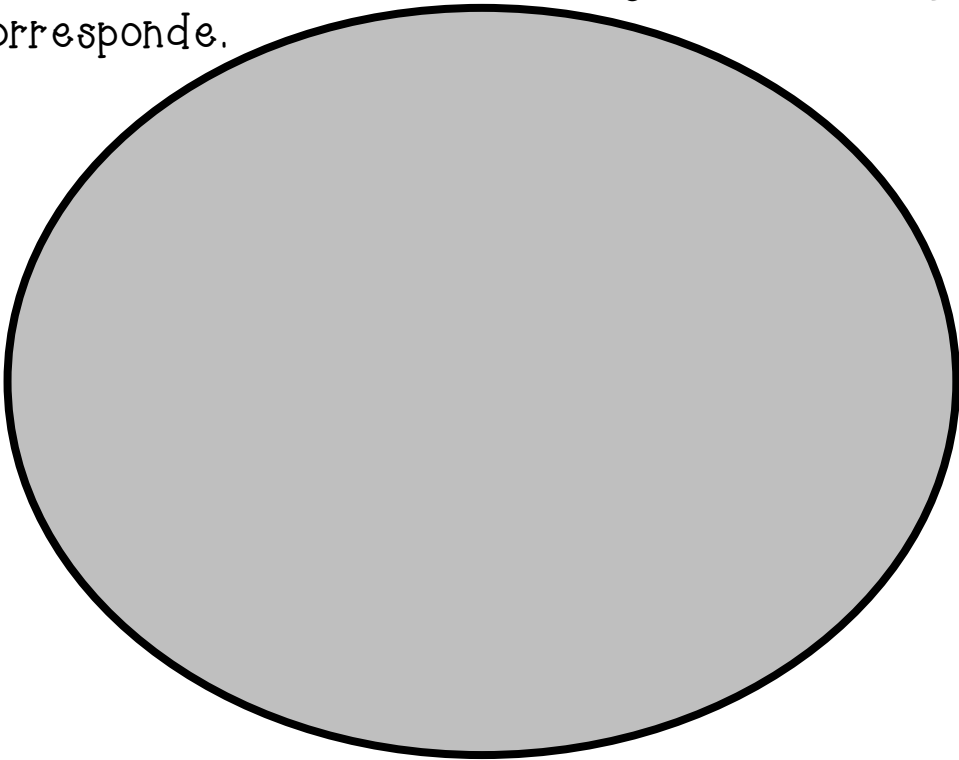

Remarca las líneas los círculos de amarillo, los cuadrados de rojo, los triángulos de verde y de naranja los rectángulos.

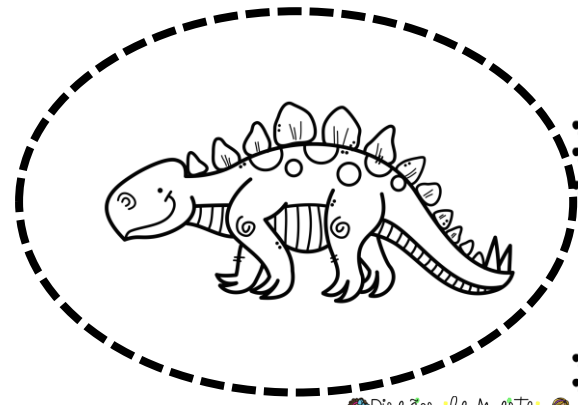

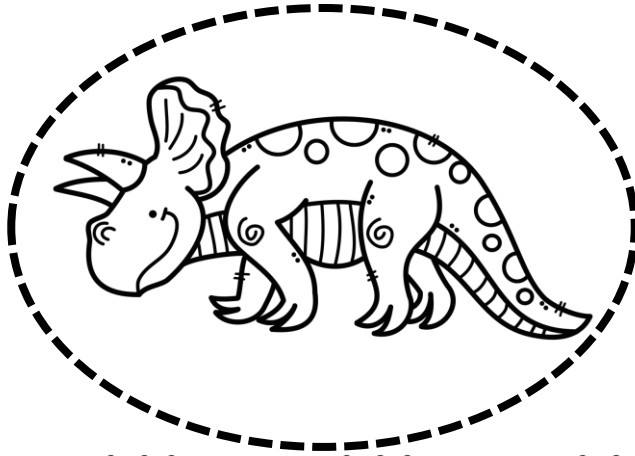

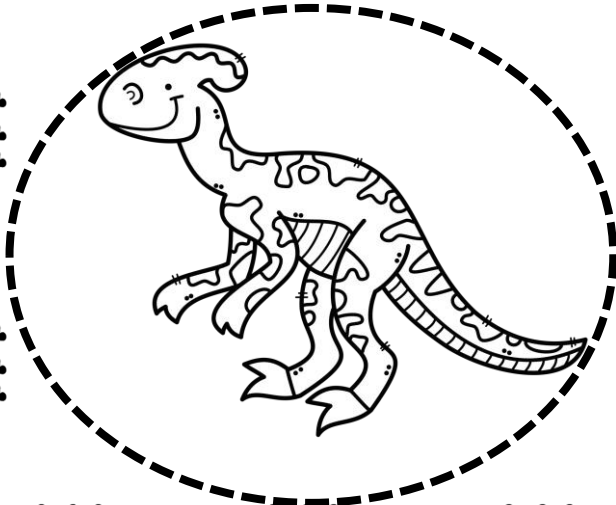

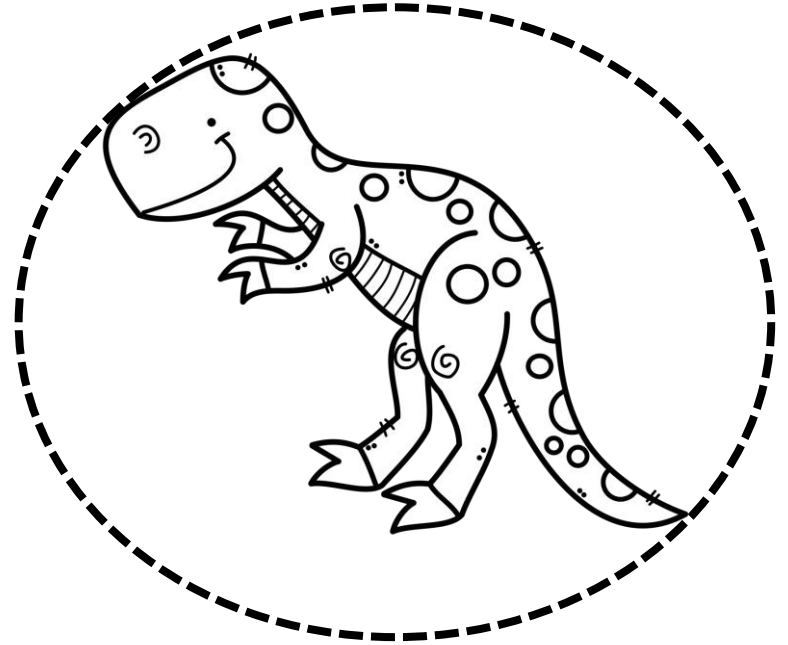

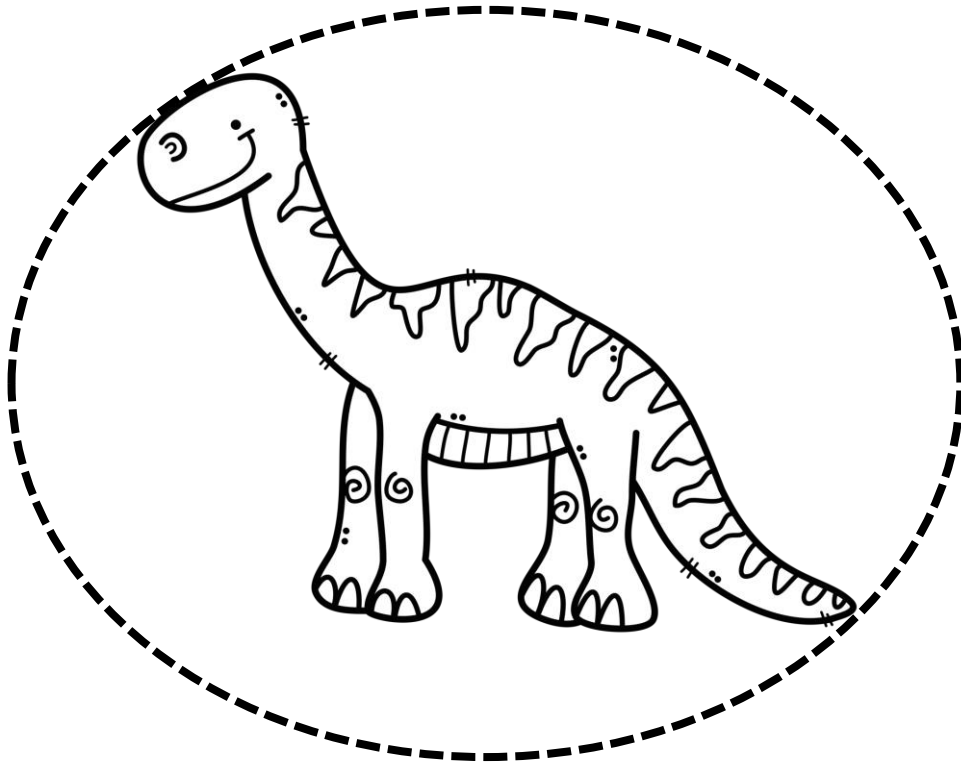

Medición

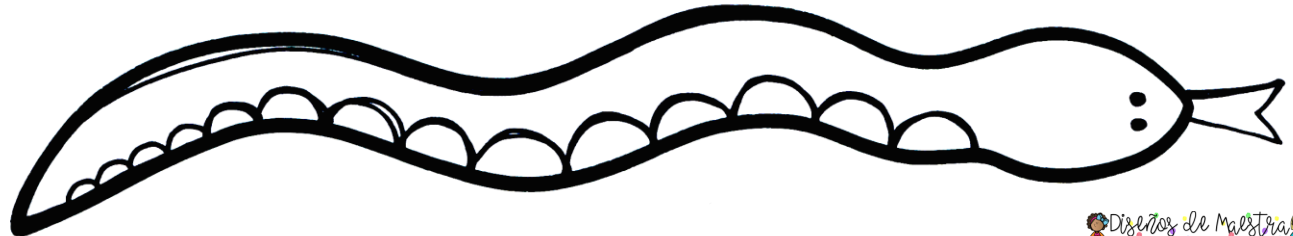

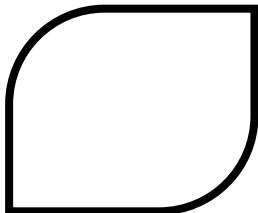

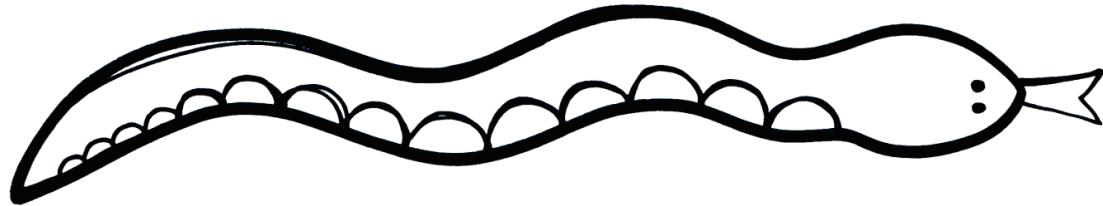

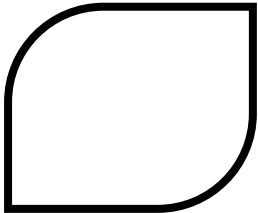

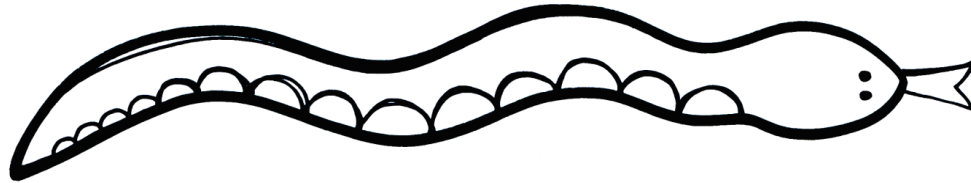

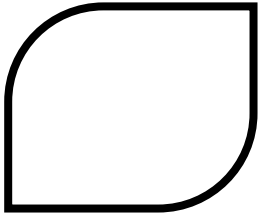

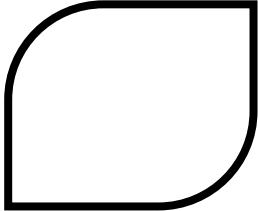

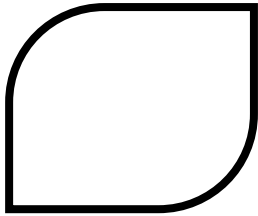

Ordena los dinosaurios del más grande al más pequeño y pégalos donde corresponde.

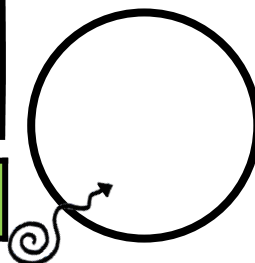

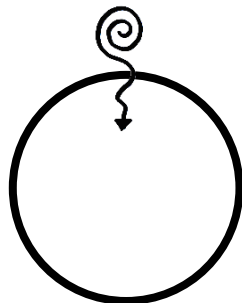

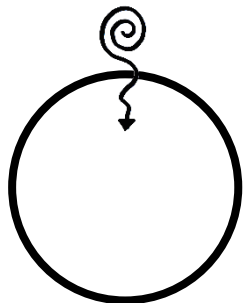

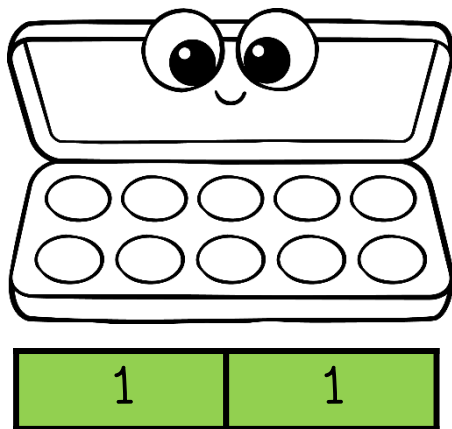

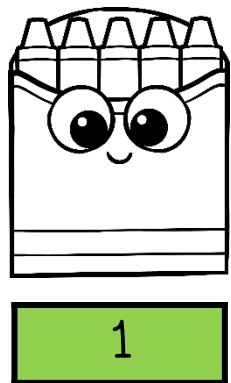

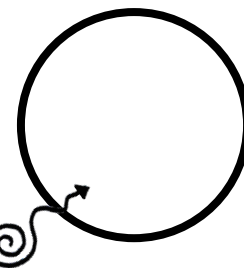

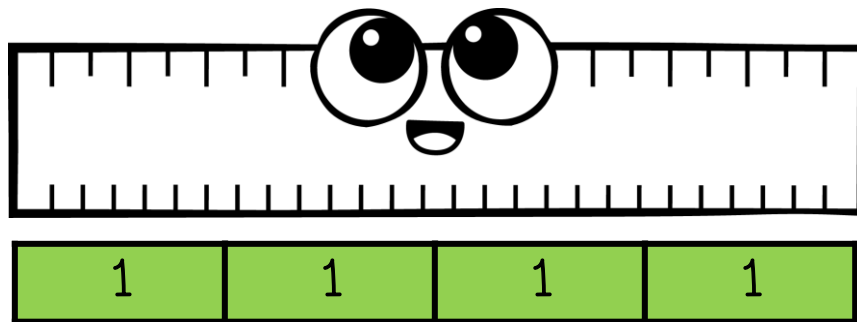

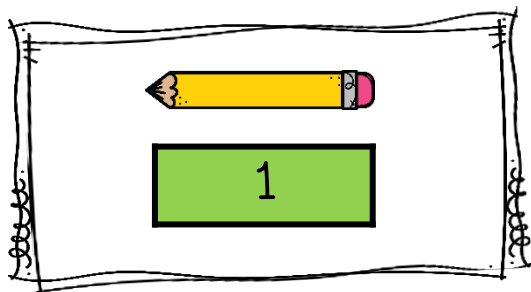

Colorea y recorta.

Escribe los números en orden de la serpiente más corta a la más larga.

Identifica cuántos lápices mide cada objeto. Regístralo en los círculos.

Observa las secuencias en las imágenes, ordénalas y pégalas.

Colorea y recorta.

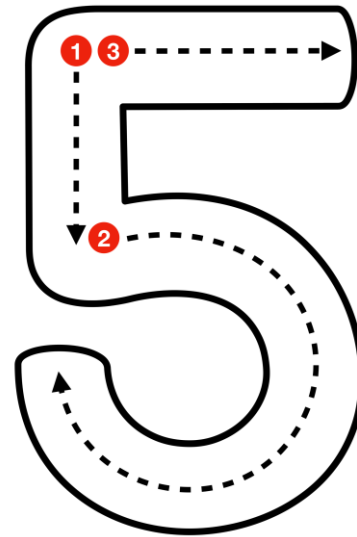

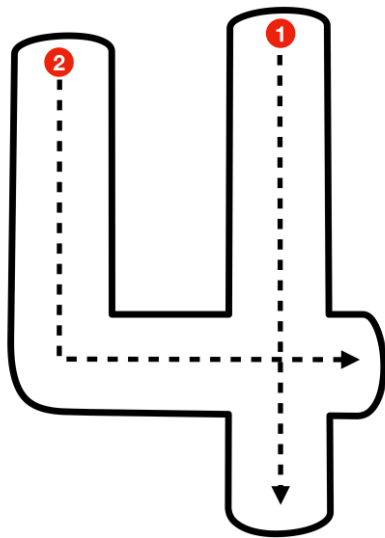

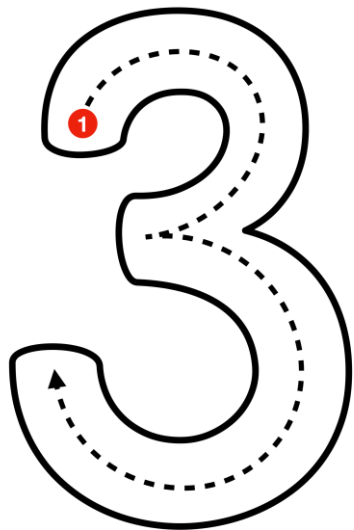

Números

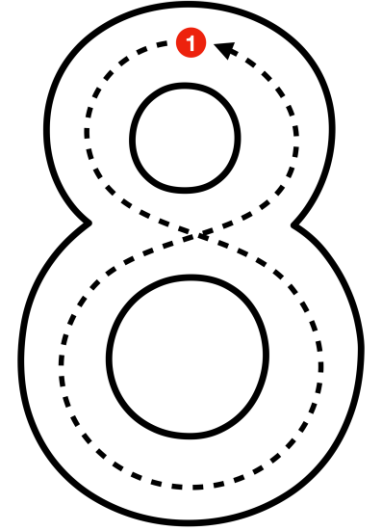

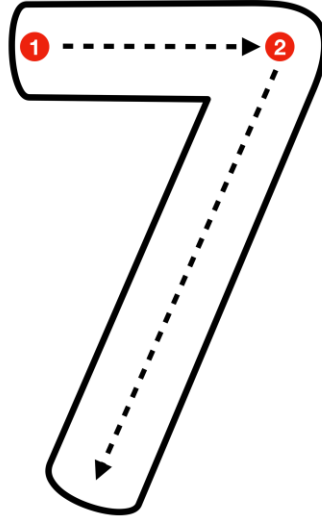

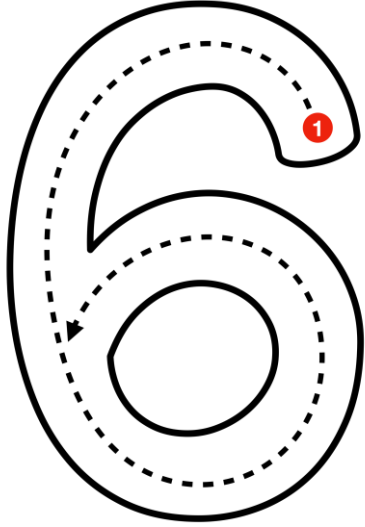

Remarca las líneas de los números, cuenta los corazones de cada par de sandalias y une el número que corresponda con la cantidad de corazones.

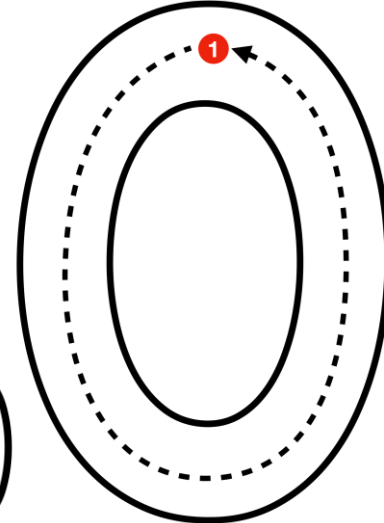

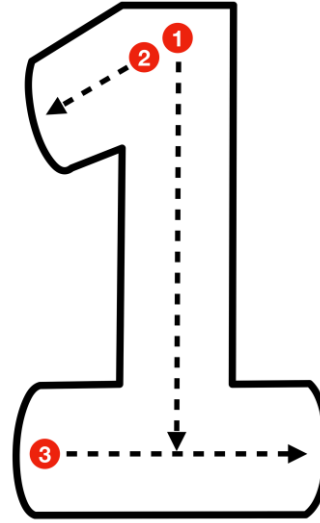

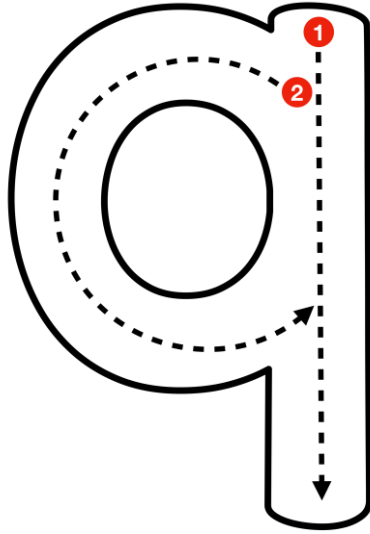

Remarca las líneas de los números, cuenta los corazones de cada par de sandalias y une el número que corresponda con la cantidad de corazones.

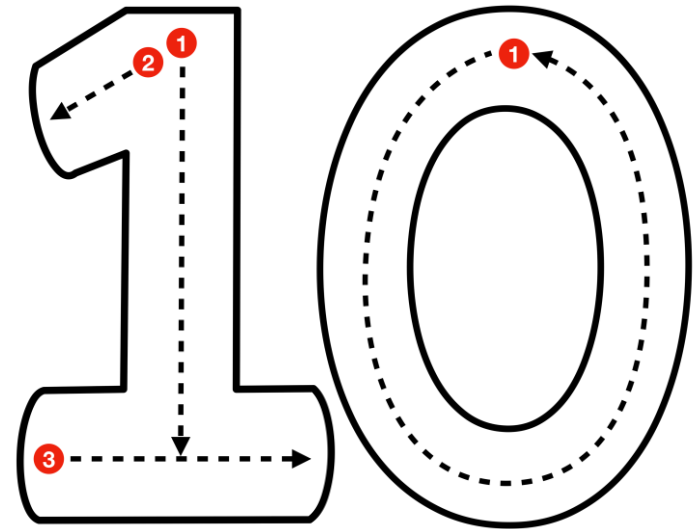

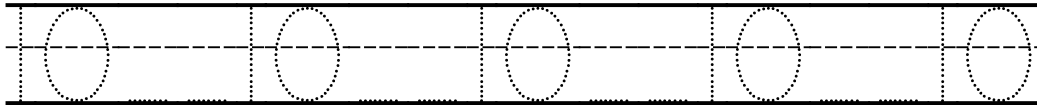

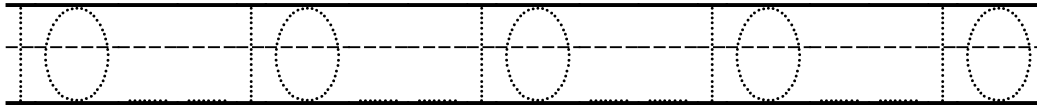

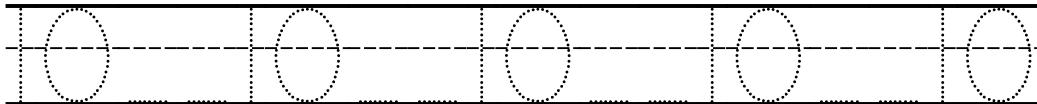

Remarca las líneas de los números, cuenta los corazones de cada par de sandalias y une el número que corresponda con la cantidad de corazones.

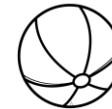

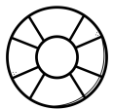

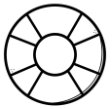

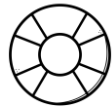

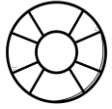

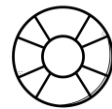

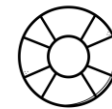

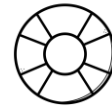

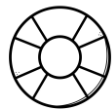

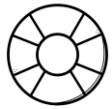

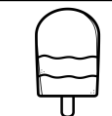

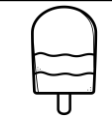

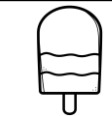

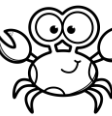

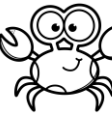

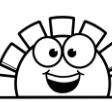

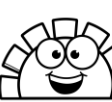

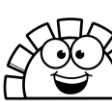

Remarca las líneas de los números, cuenta los corazones de cada par de sandalias y une el número que corresponda con la cantidad de corazones.

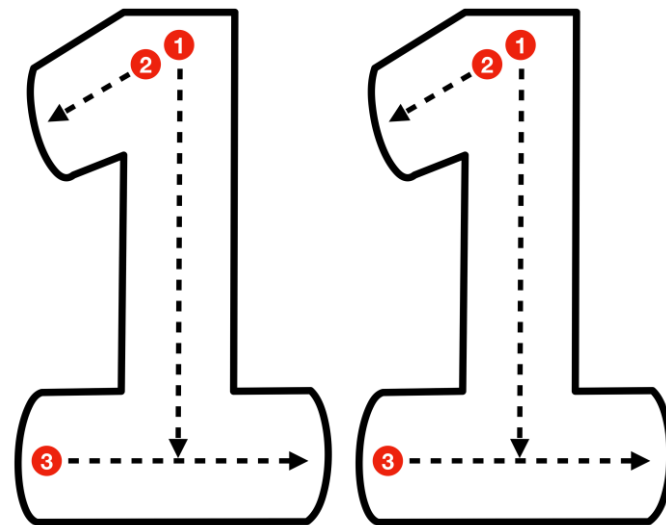

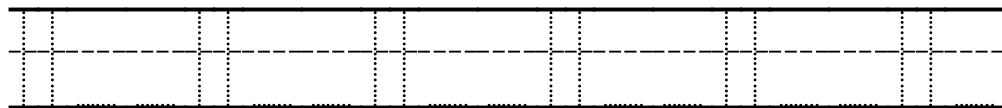

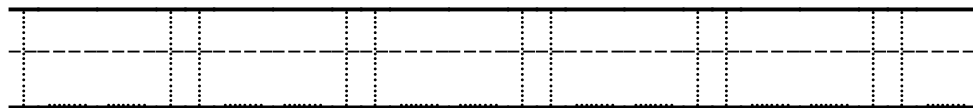

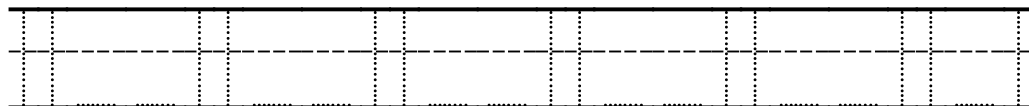

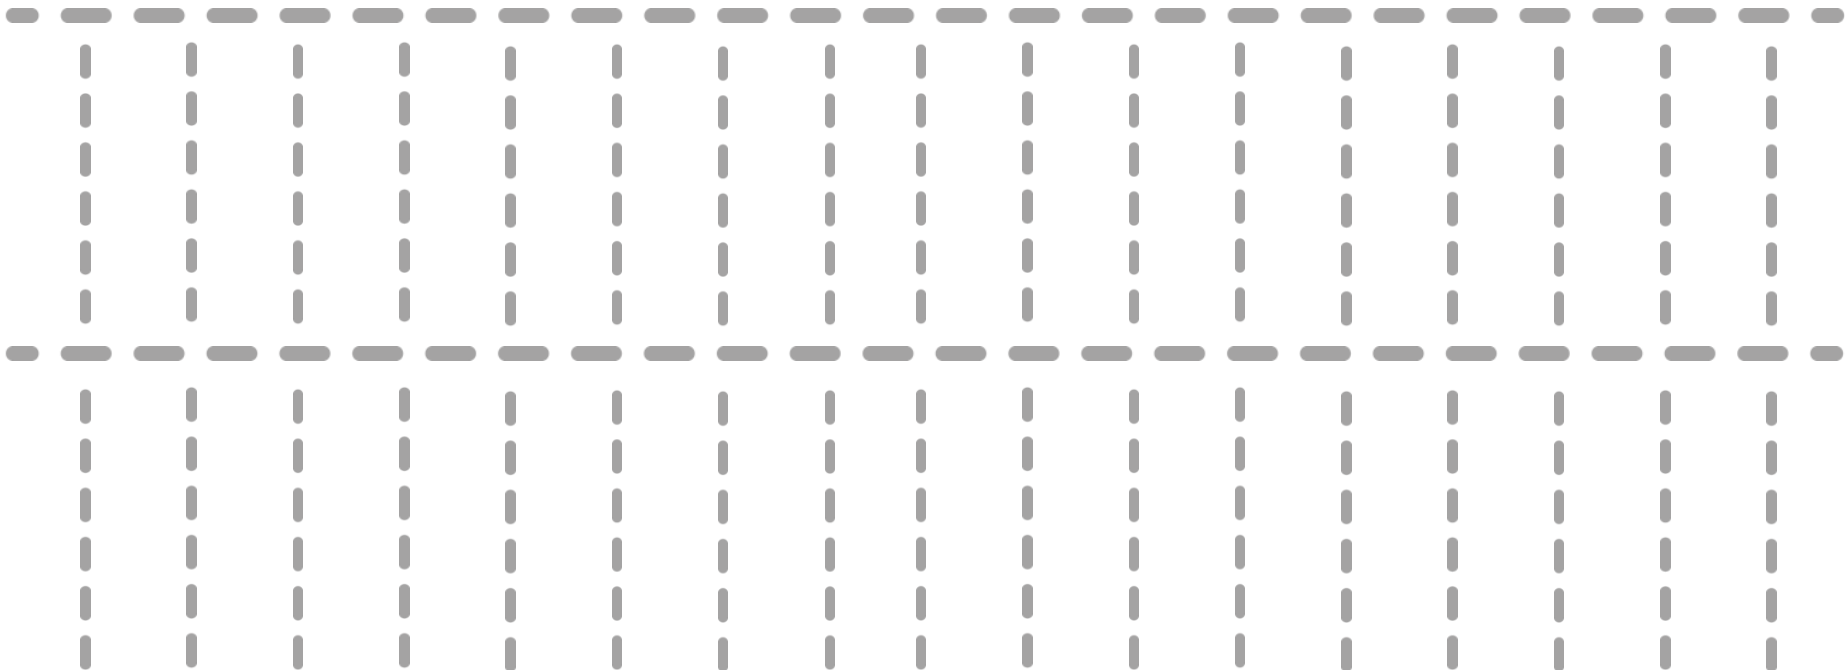

Remarca todas las líneas. NÚMERO DIEZ

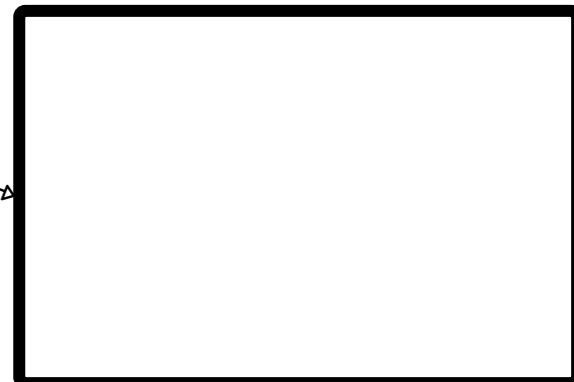

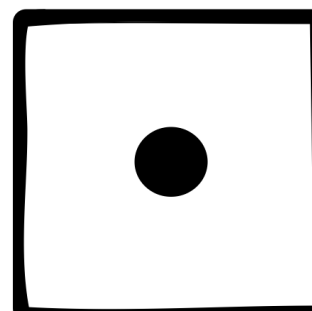

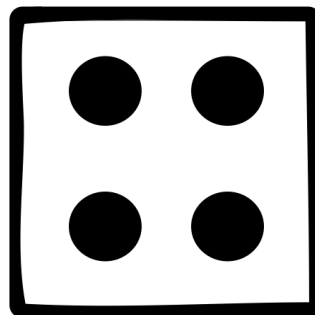

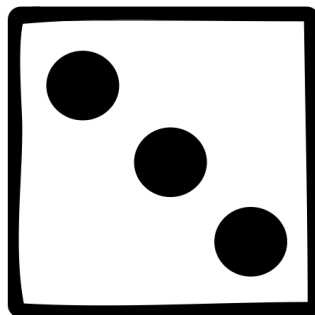

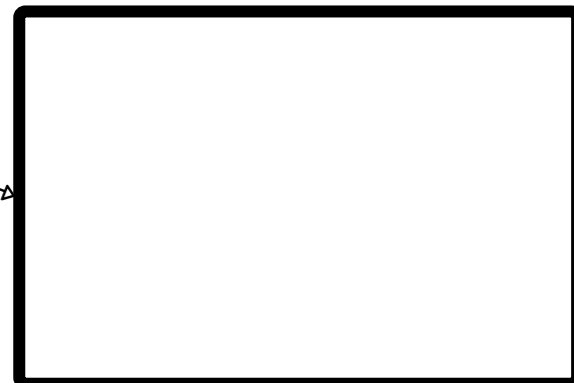

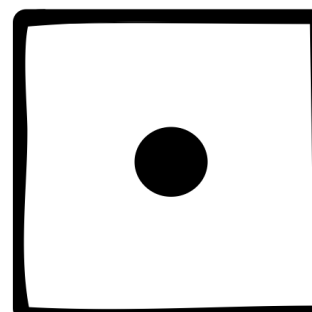

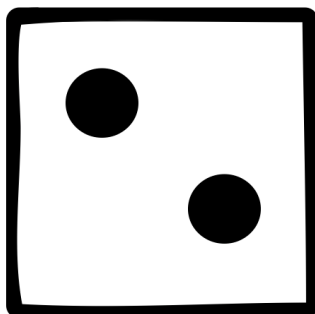

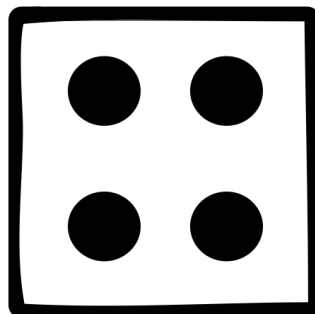

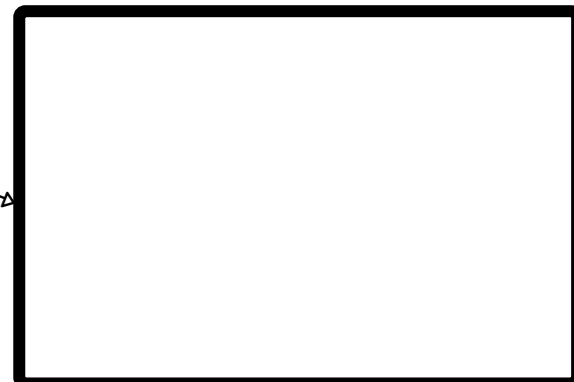

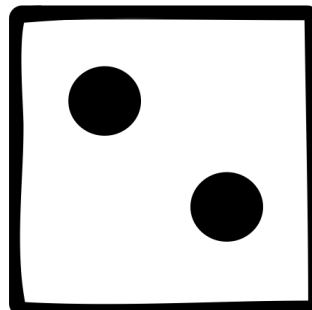

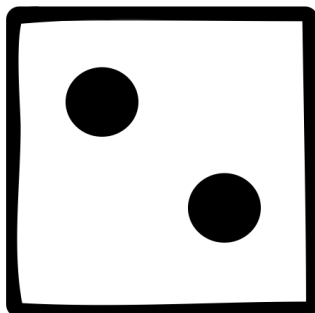

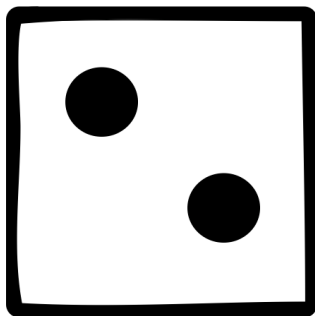

Colorea la cantidad que se indica.

1										
2										
3										
4										
5										
6										
7										
8										
9										
10										

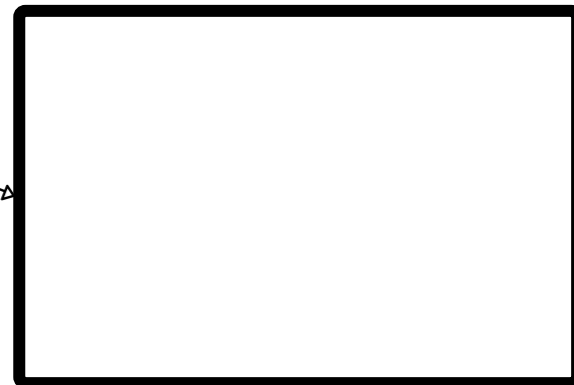

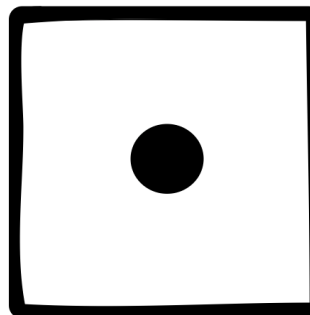

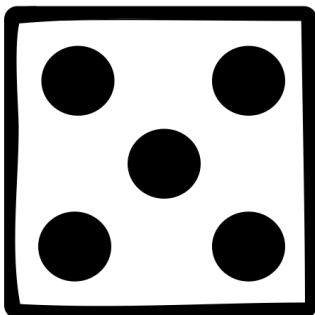

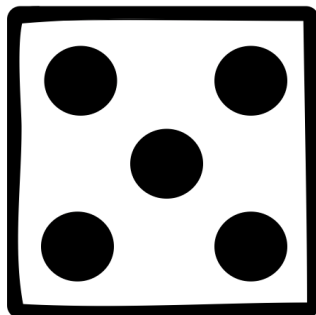

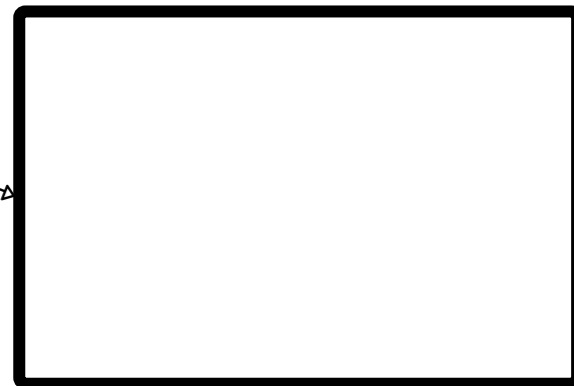

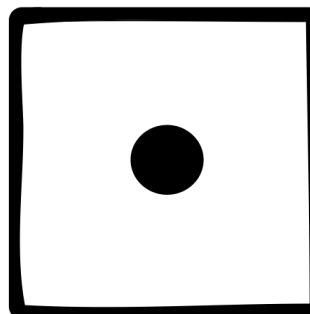

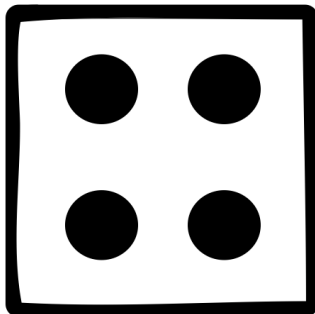

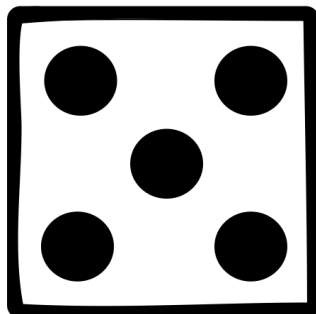

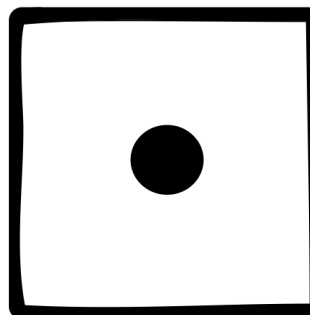

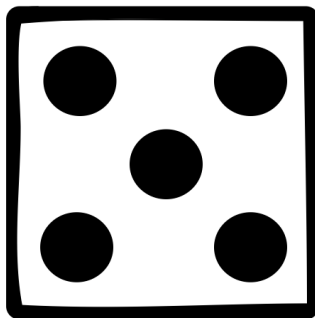

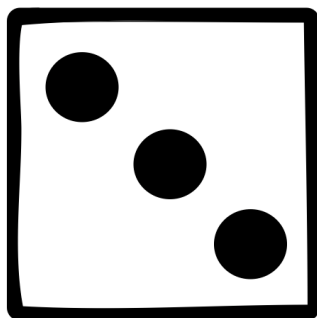

Remarca todas las líneas. NÚMERO ONCE

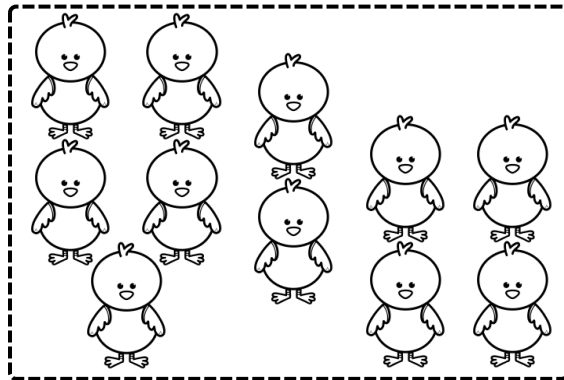

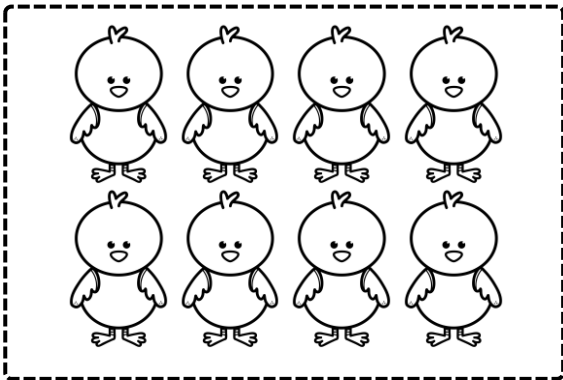

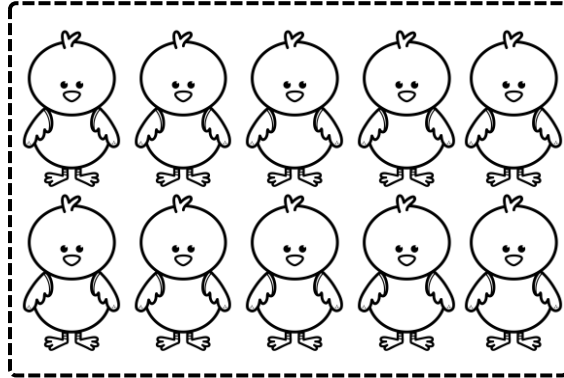

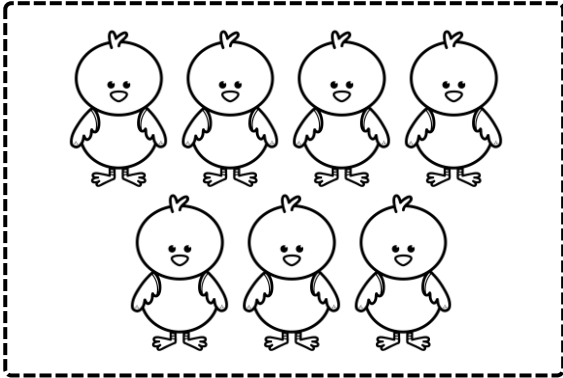

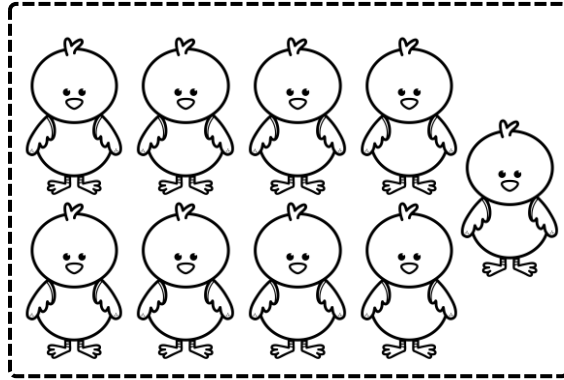

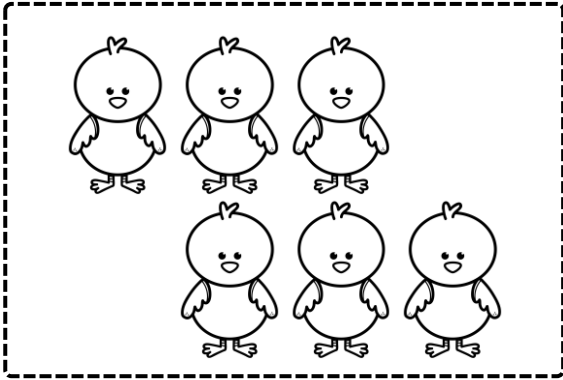

Cuenta los puntos de los dados, recorta la cantidad y pega donde corresponde.

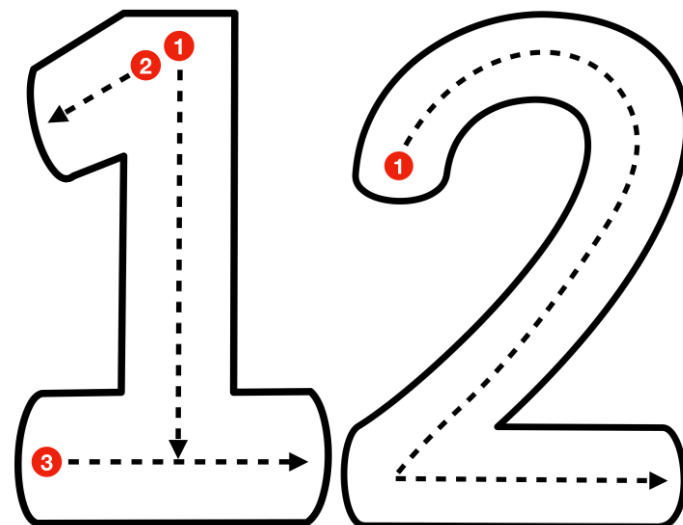

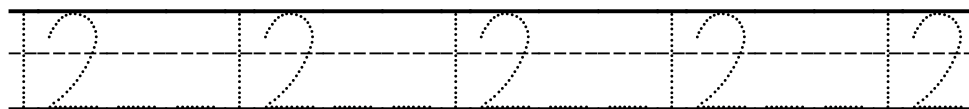

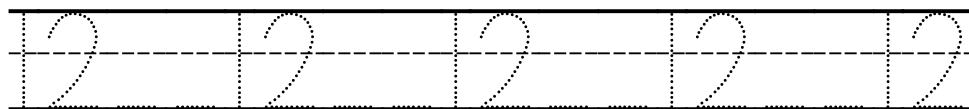

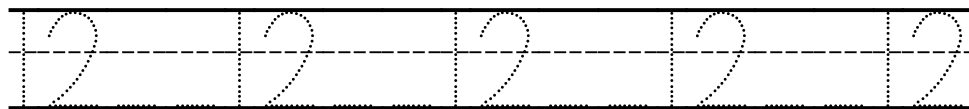

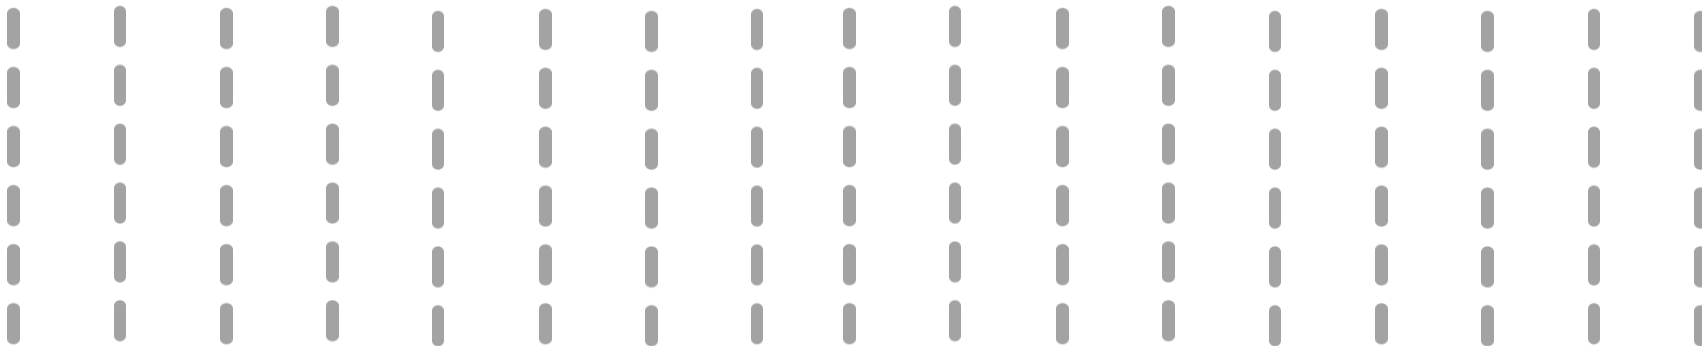

Cuenta los puntos de los dados, recorta la cantidad y pega donde corresponde.

Colorea y recorta.

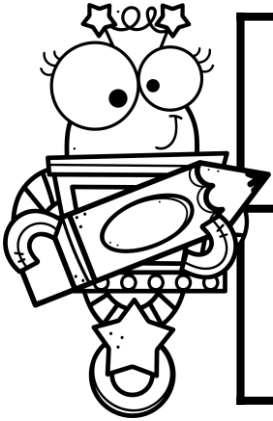

Remarca todas las líneas. NÚMERO DOCE

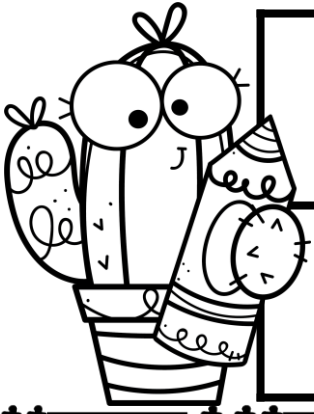

Completa las series.

1				5	
	8		10		

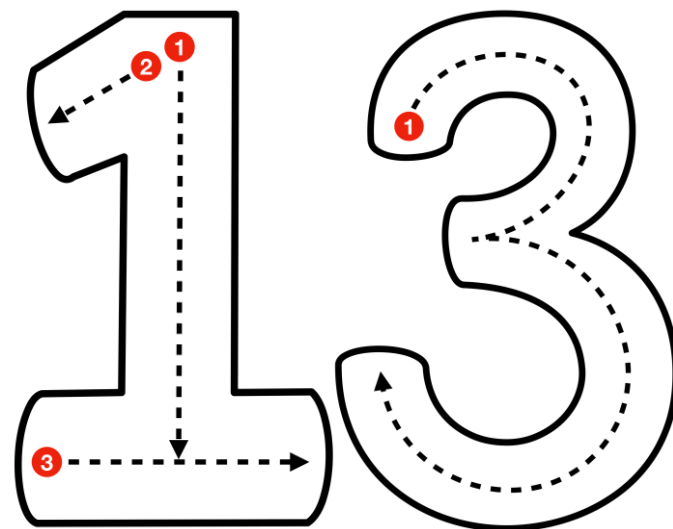

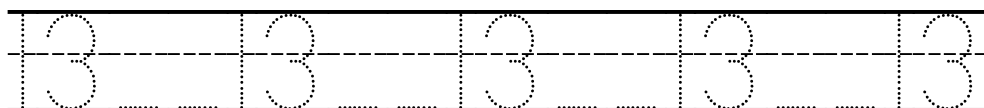

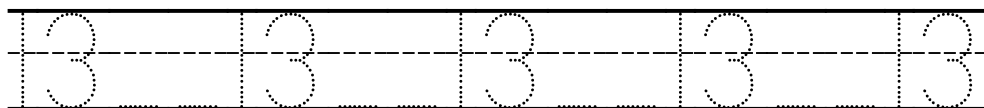

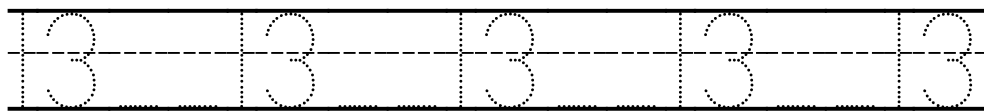

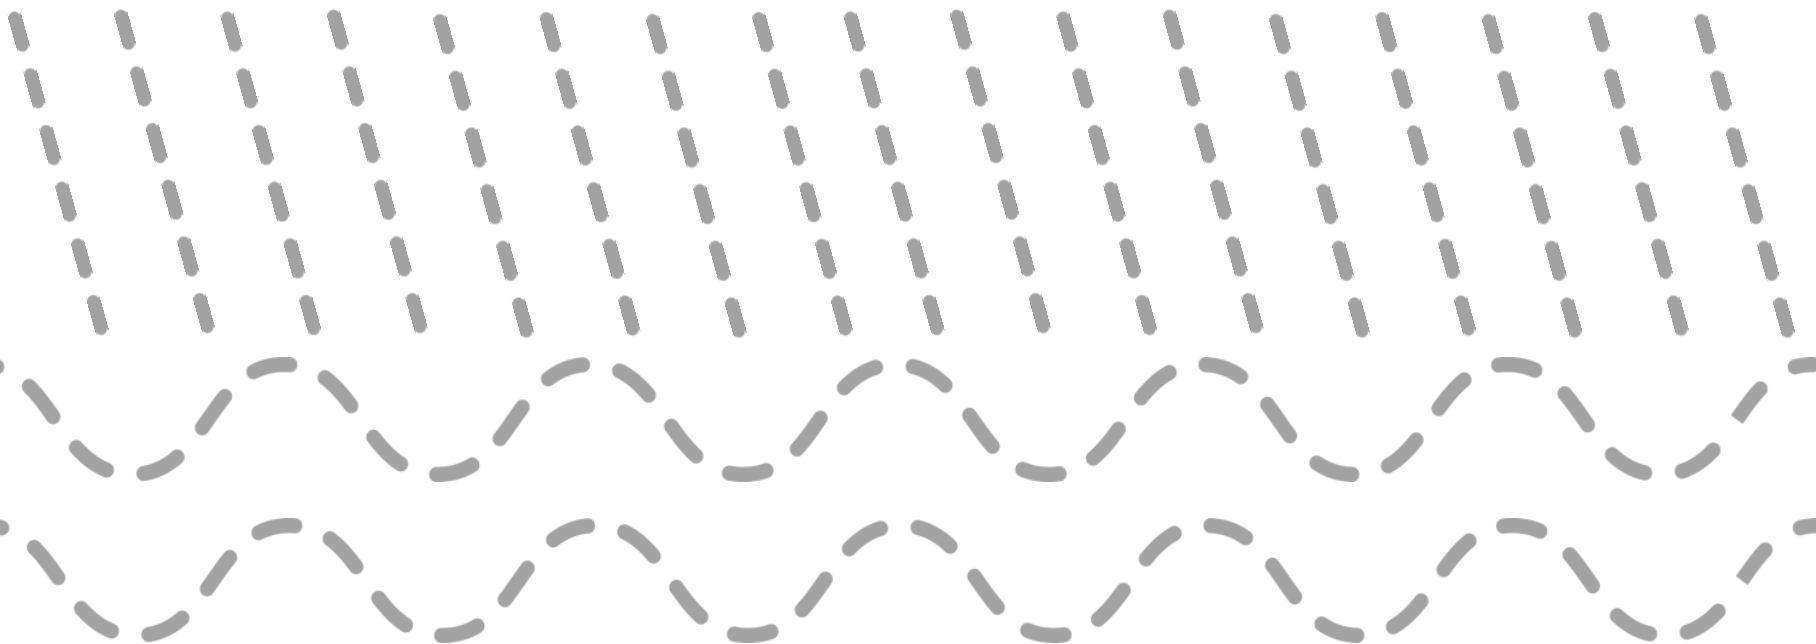

1		3			
				11	

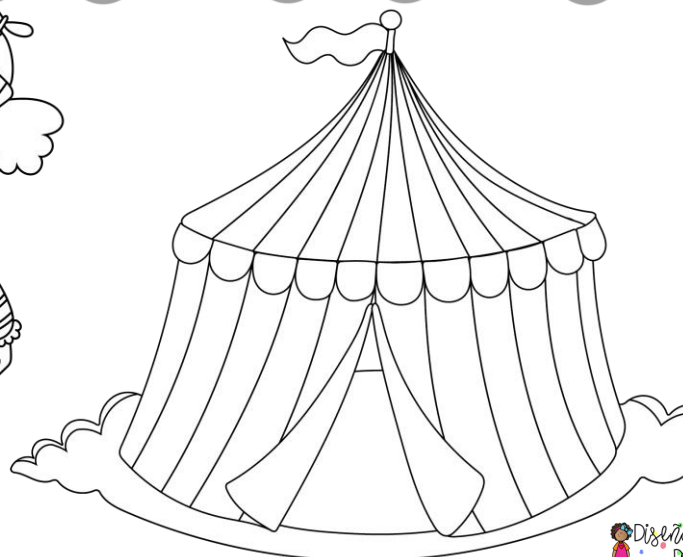

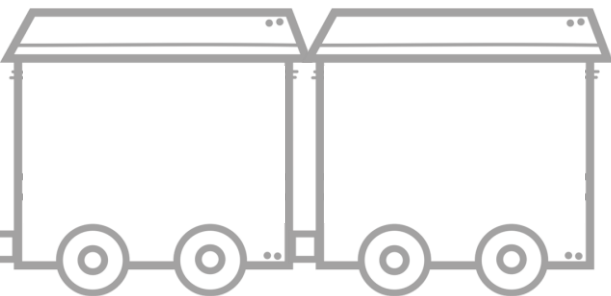

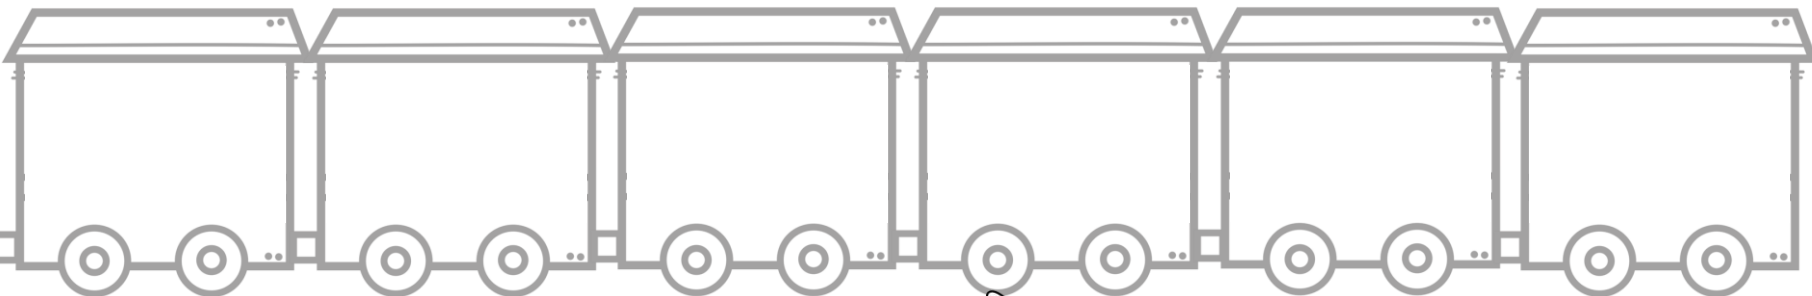

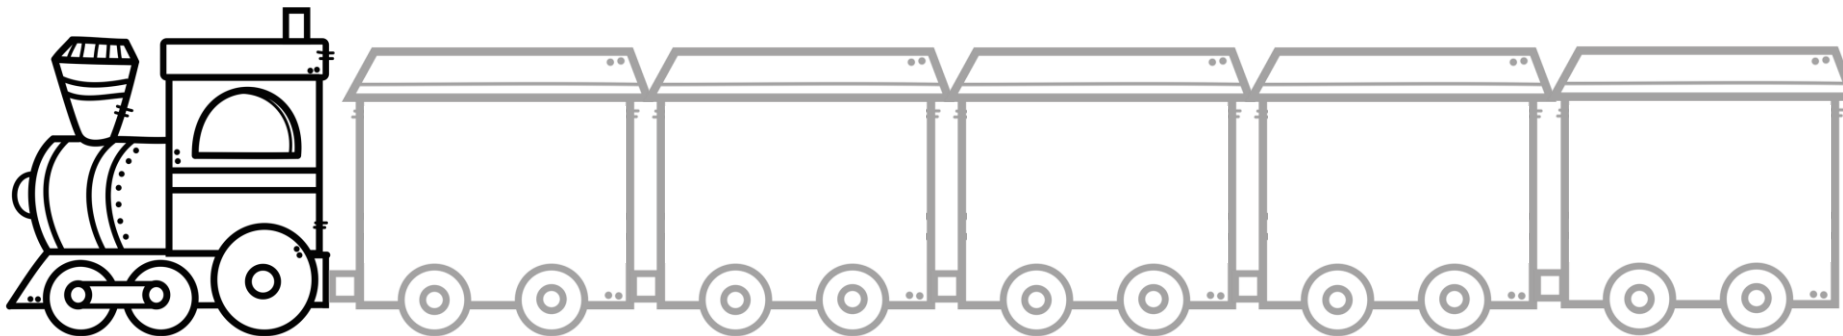

1					
					12

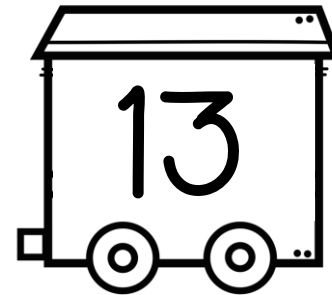

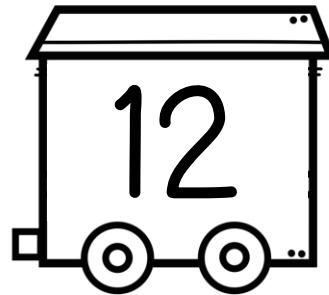

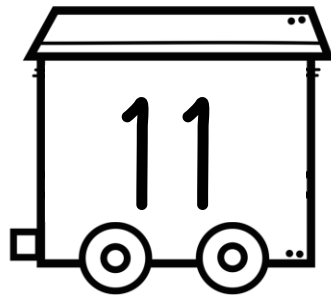

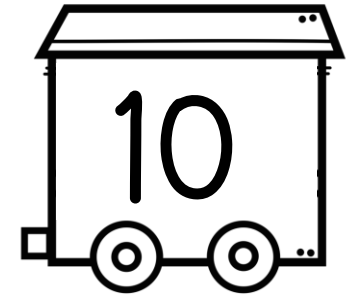

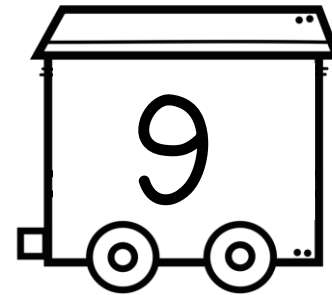

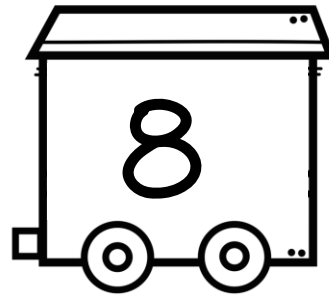

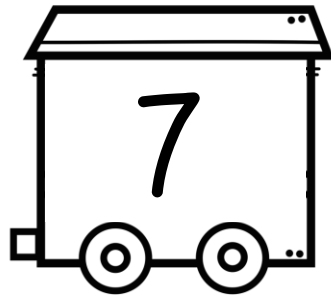

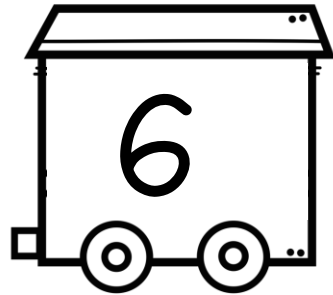

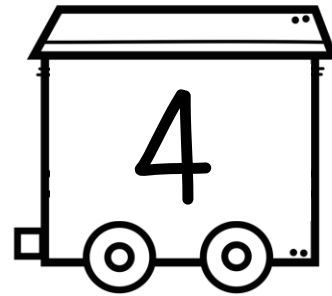

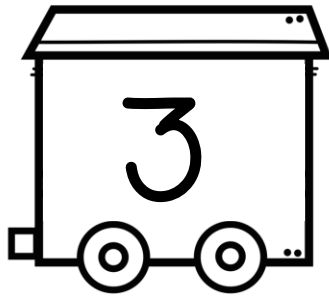

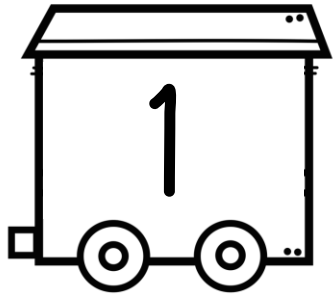

Remarca todas las líneas. NÚMERO TRECE

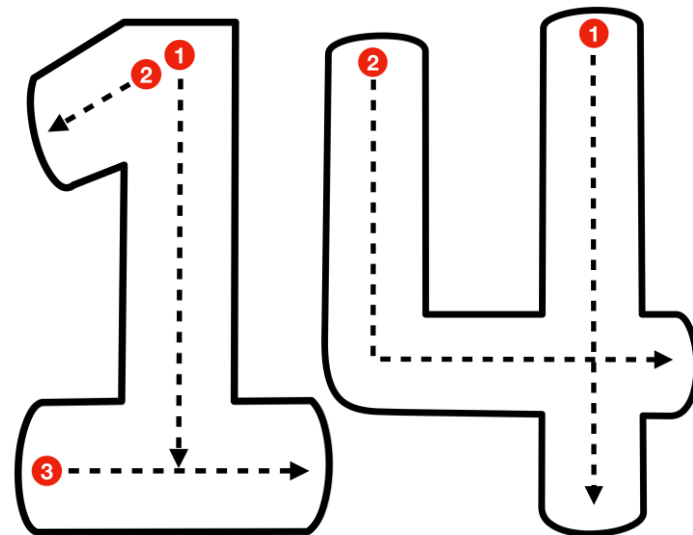

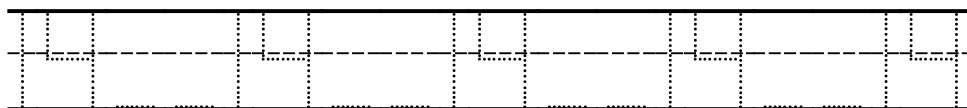

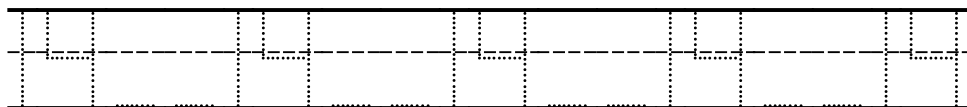

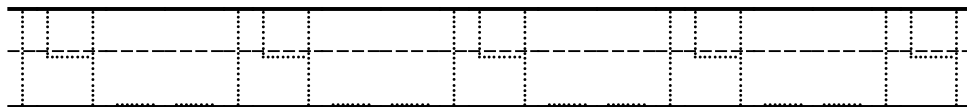

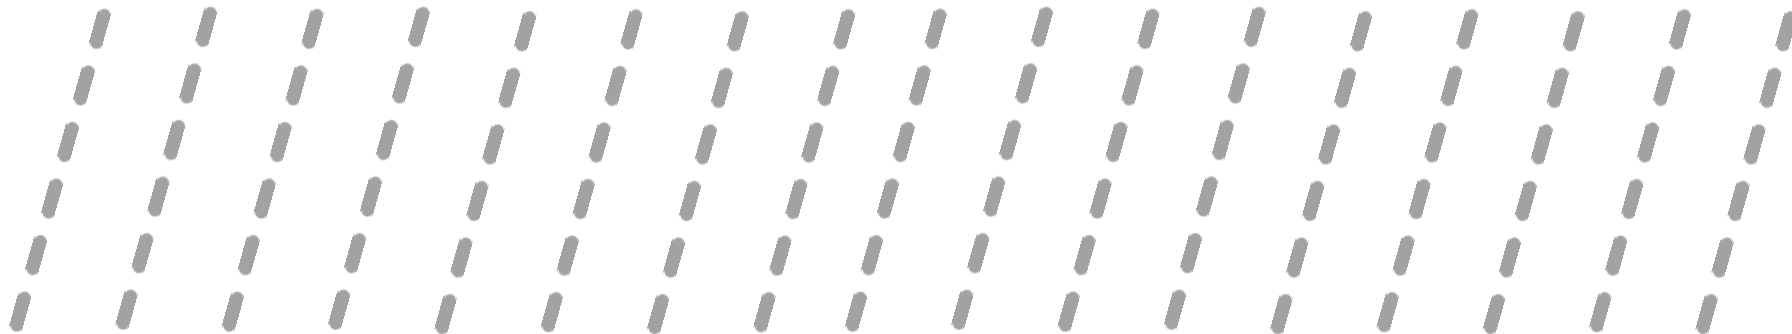

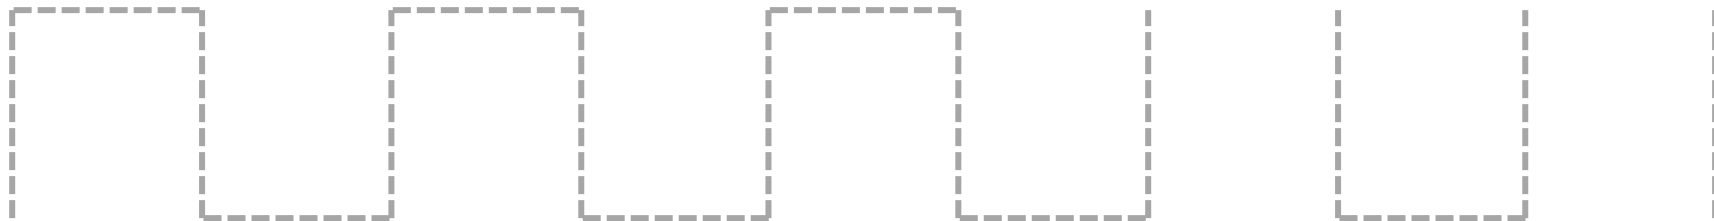

Recorta los vagones del 1 al 13 y pégalos en el tren, siguiendo la serie.

Colorea y recorta.

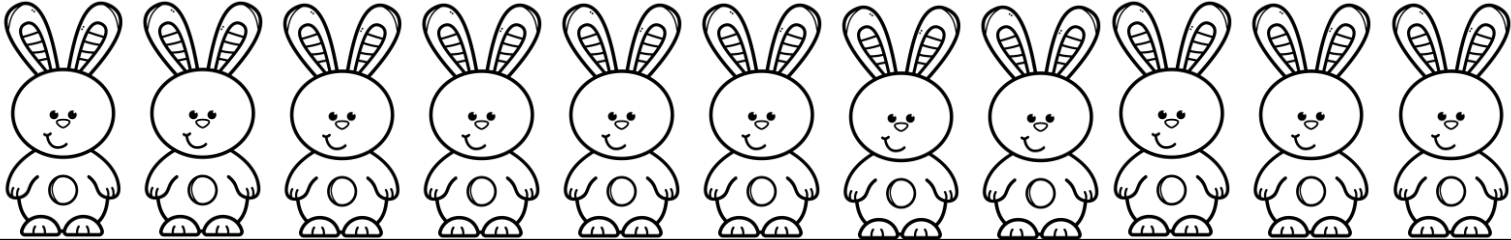

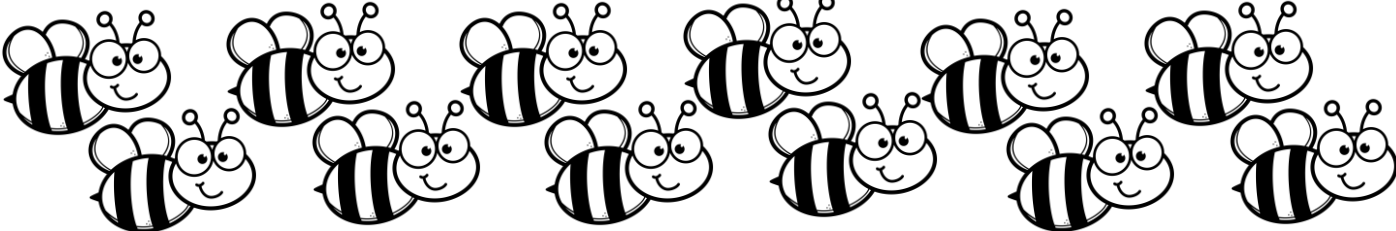

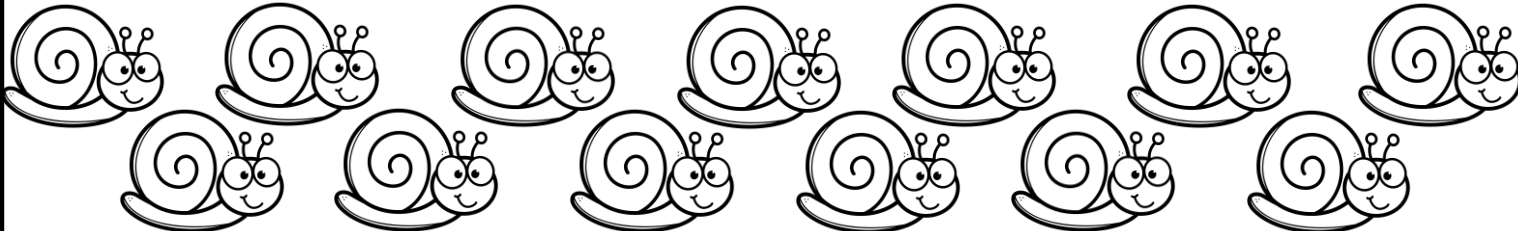

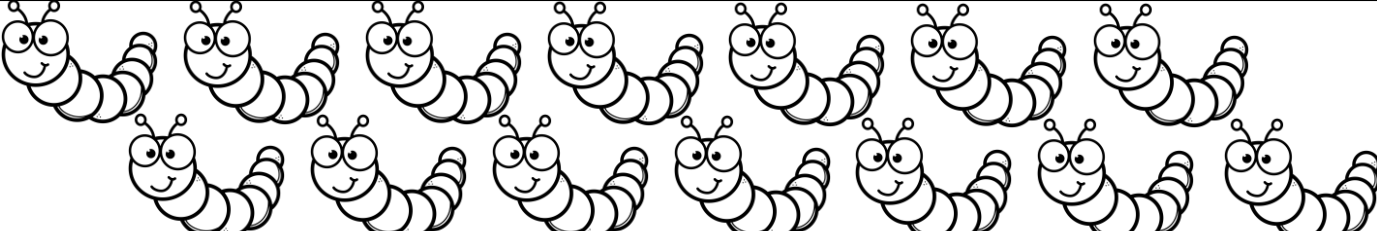

Remarca todas las líneas. NÚMERO CATORCE

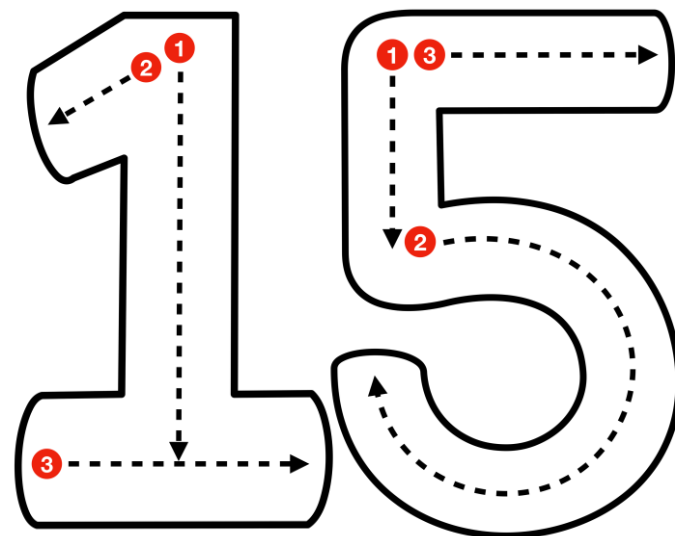

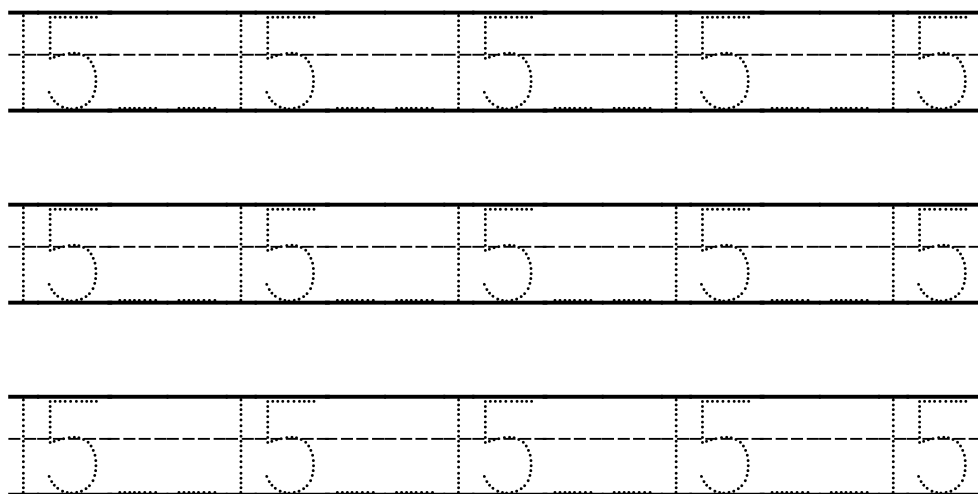

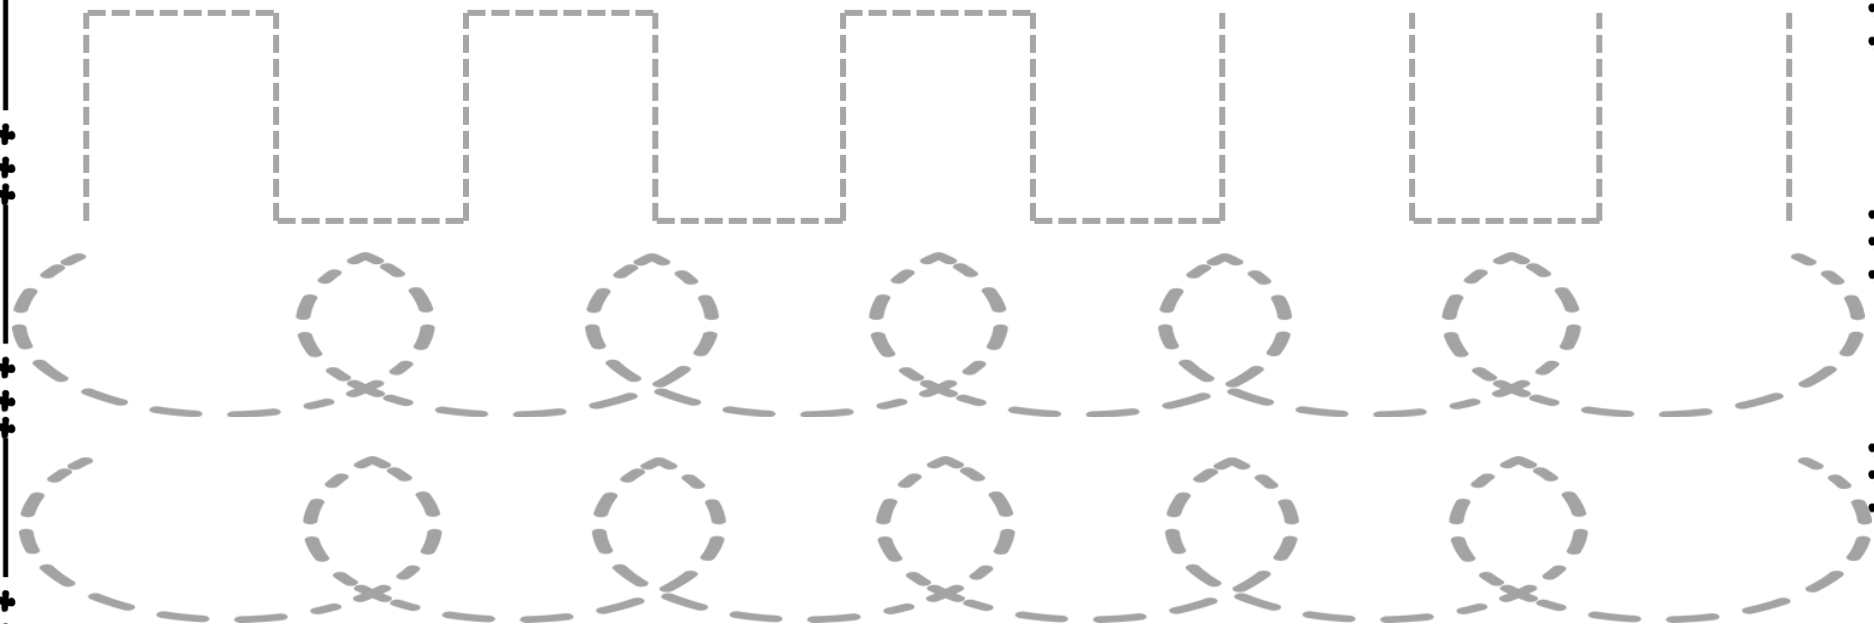

Cuenta y escribe los números que corresponden, apóyate de la recta numérica.

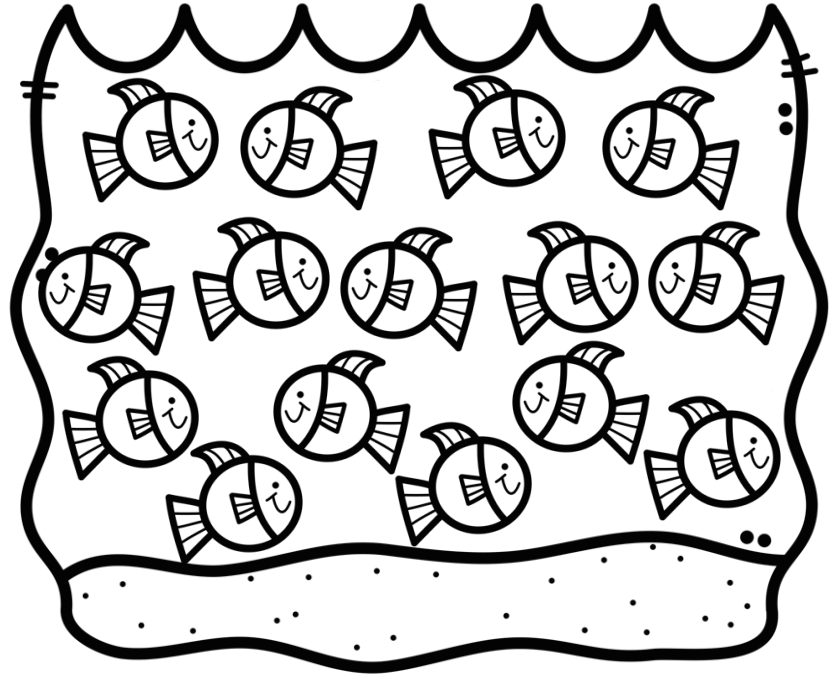

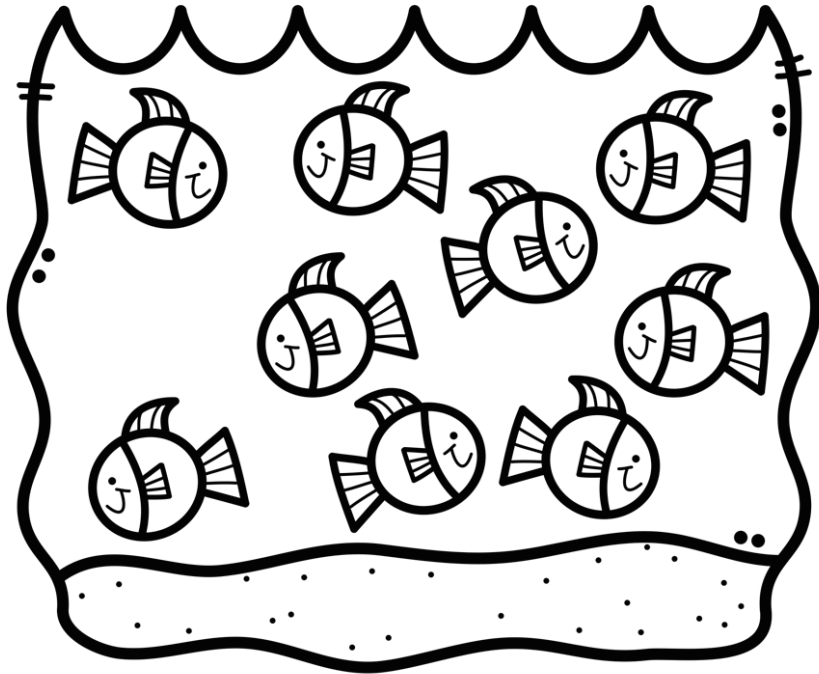

1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	----	----	----	----	----

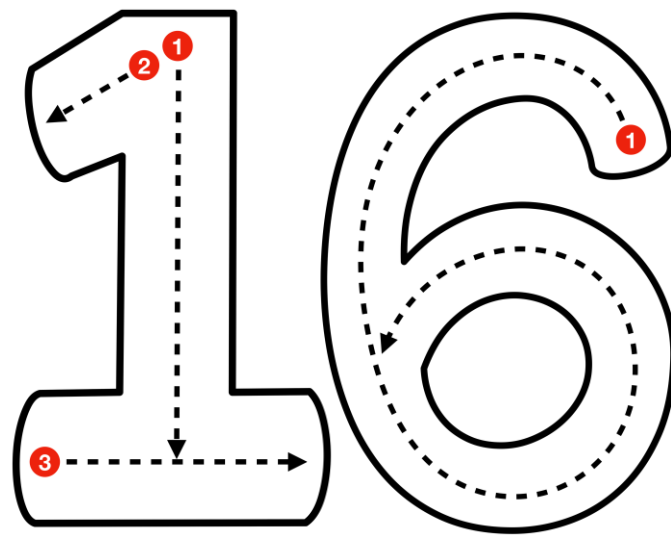

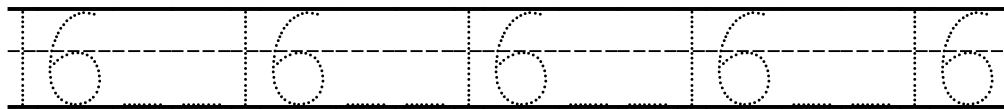

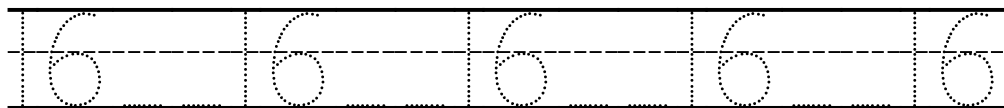

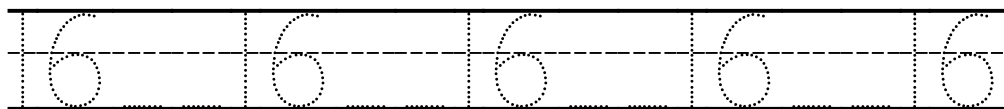

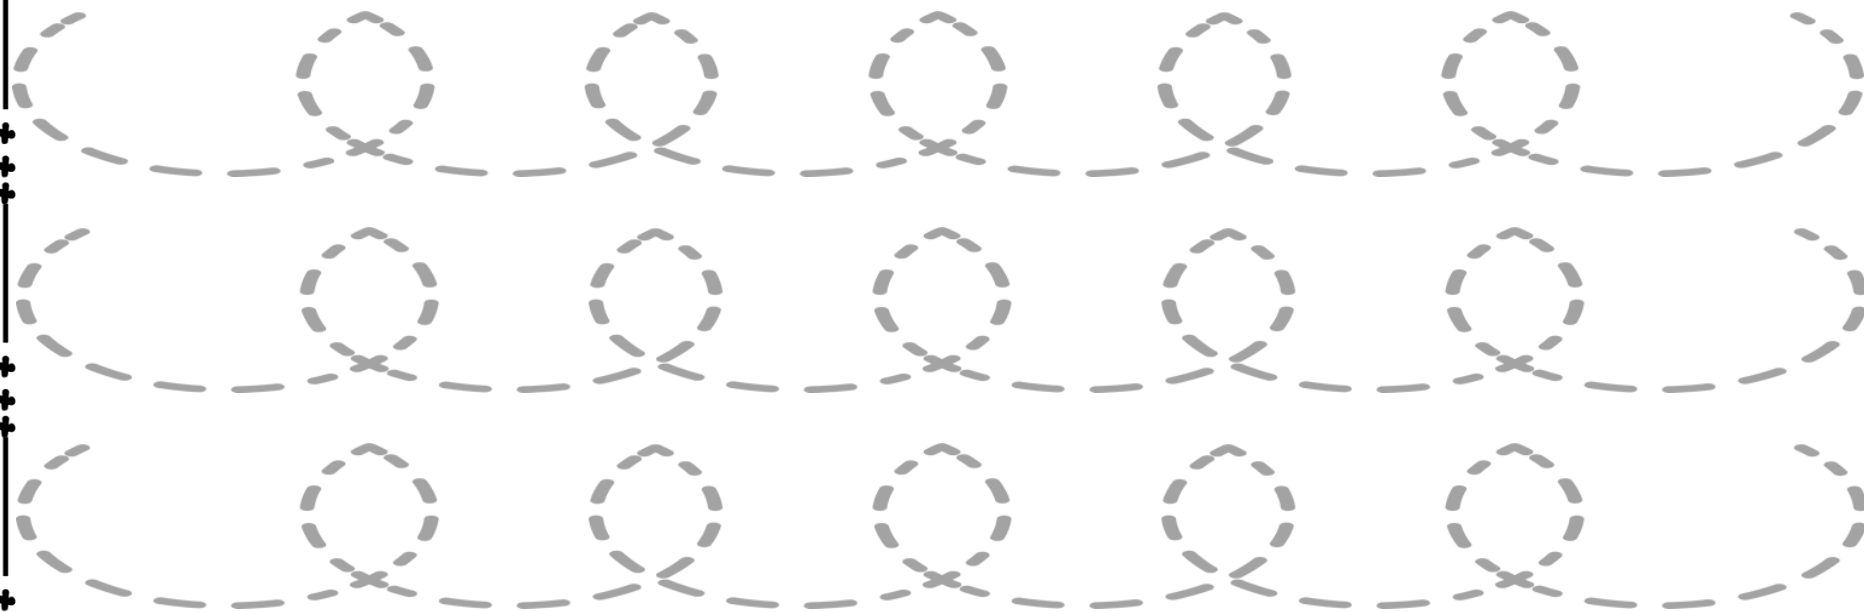

Remarca todas las líneas. NÚMERO QUINCE

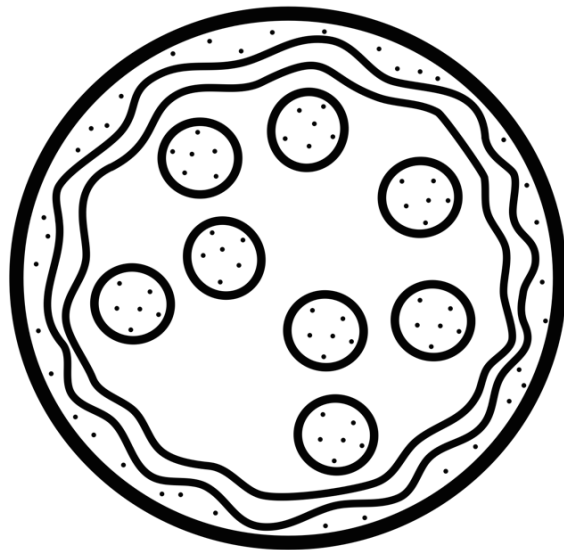

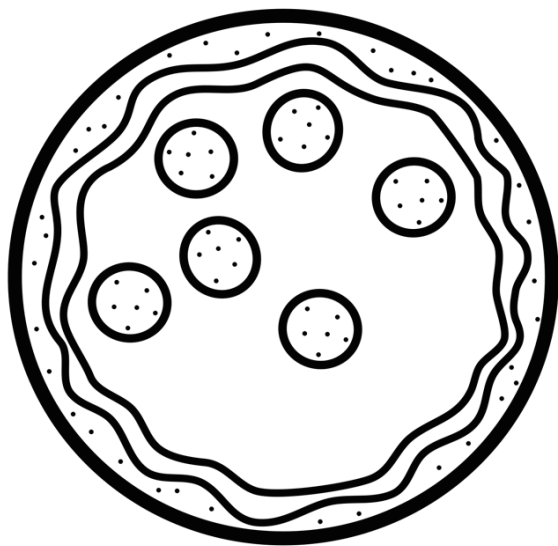

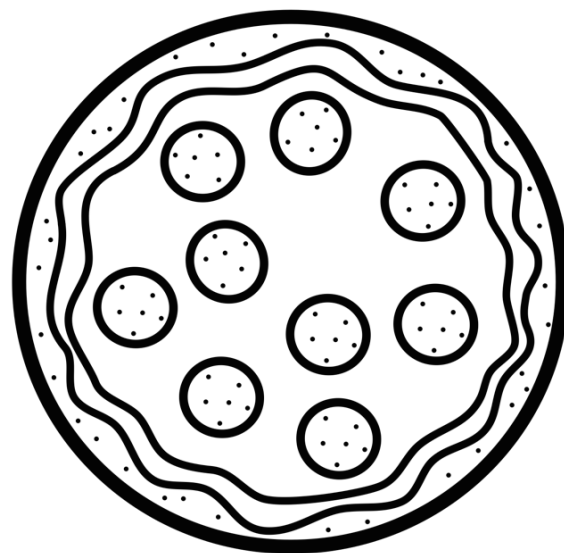

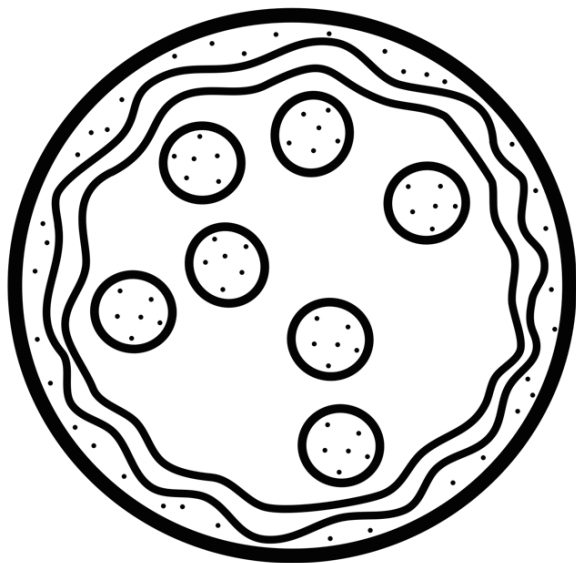

Colorea donde haya 15 peces.

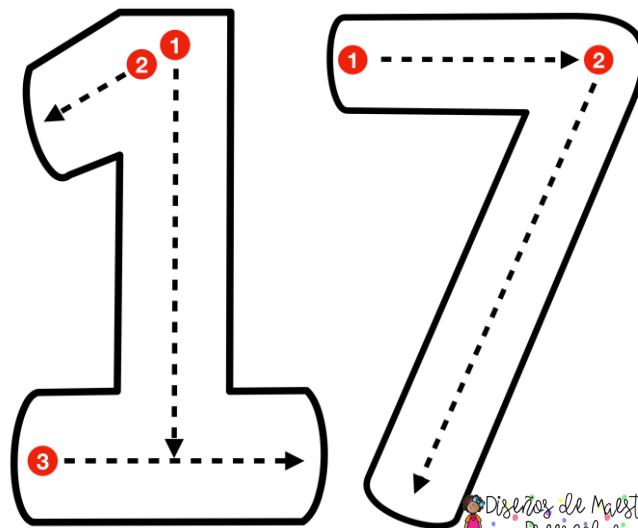

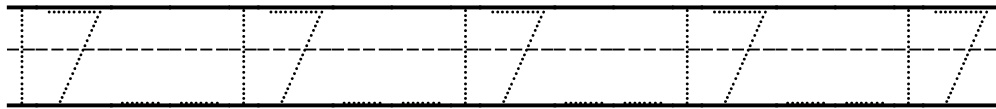

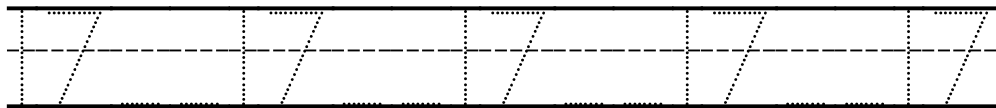

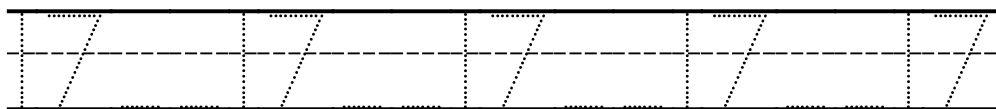

Remarca todas las líneas. NÚMERO DIESEISÉIS

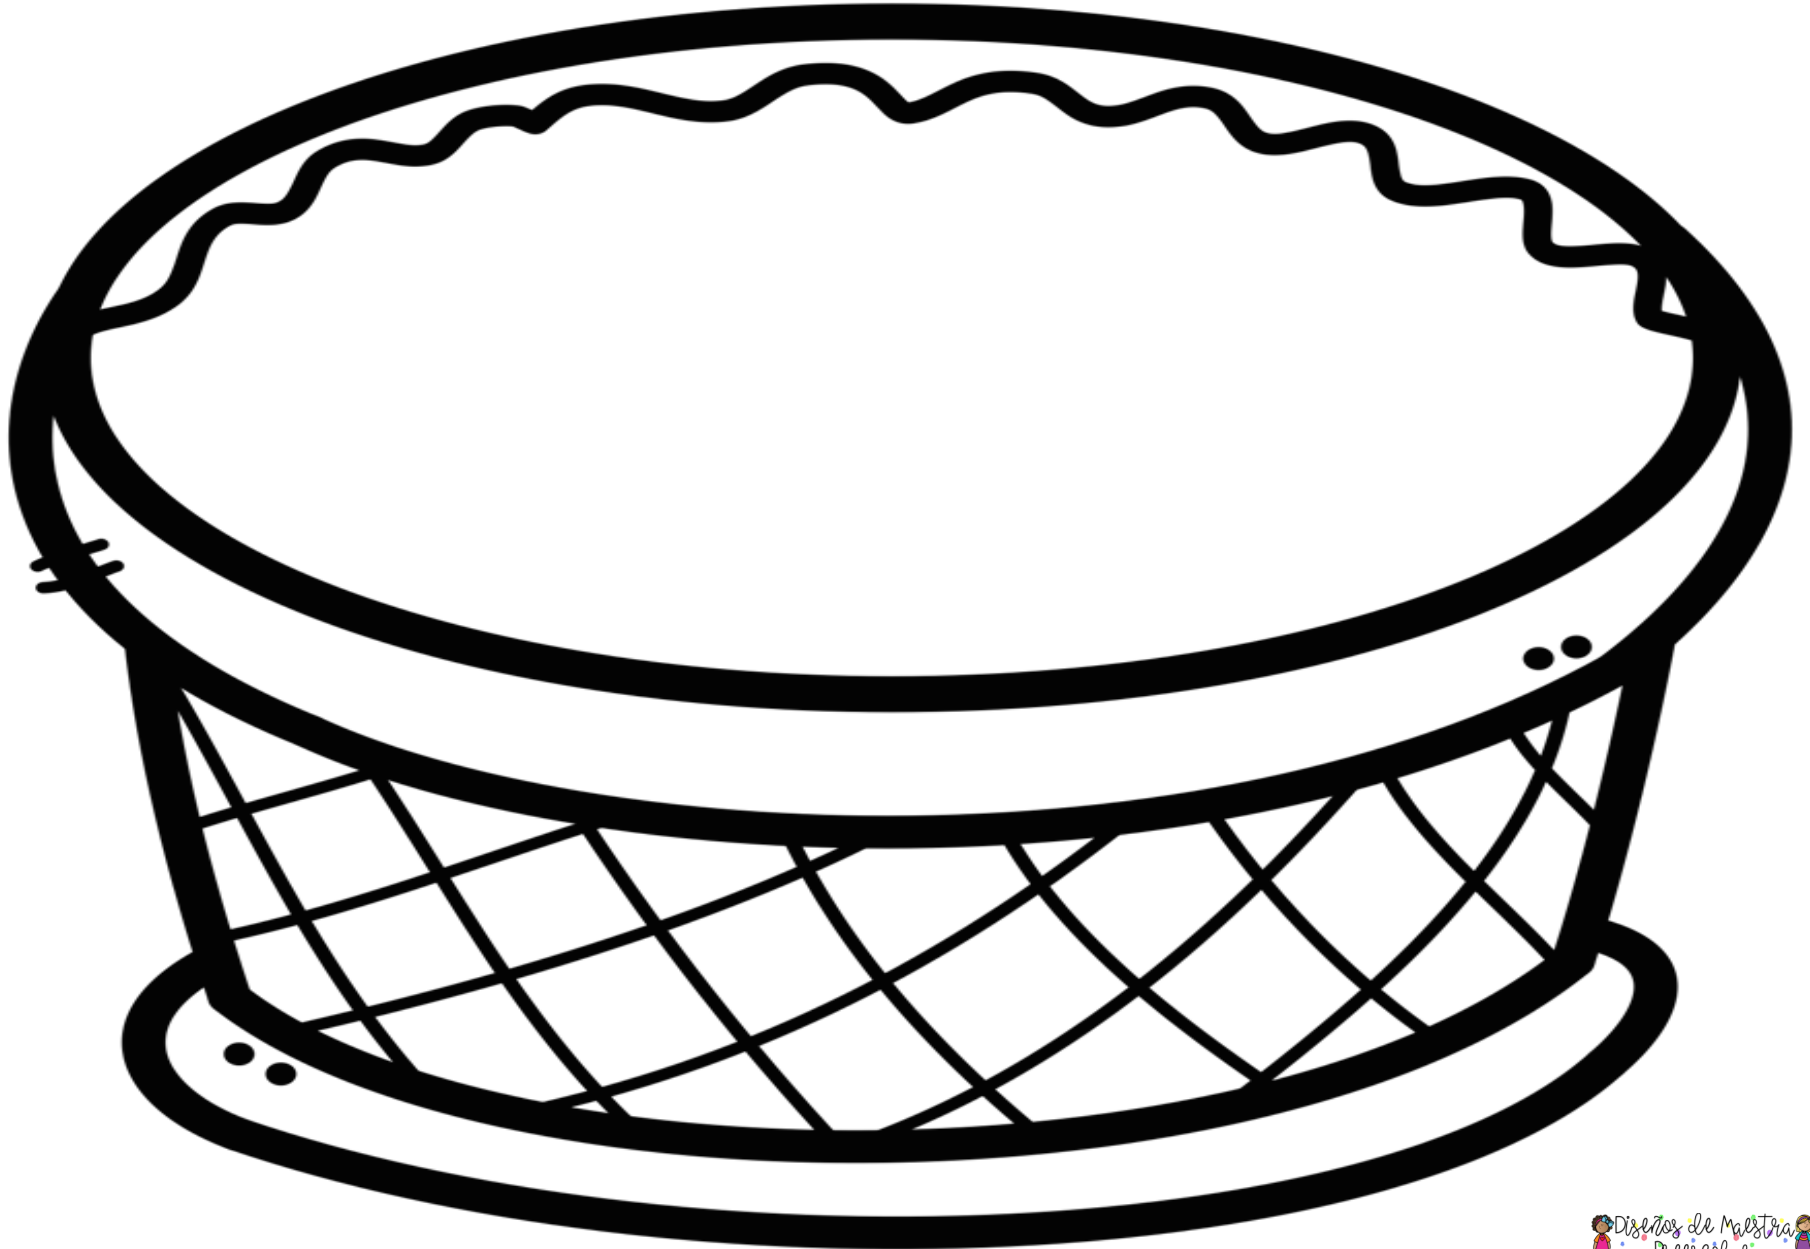

Une las pizzas que sumando los pepperonis den como resultado 15.

Remarca todas las líneas. NÚMERO DIESEISIETE

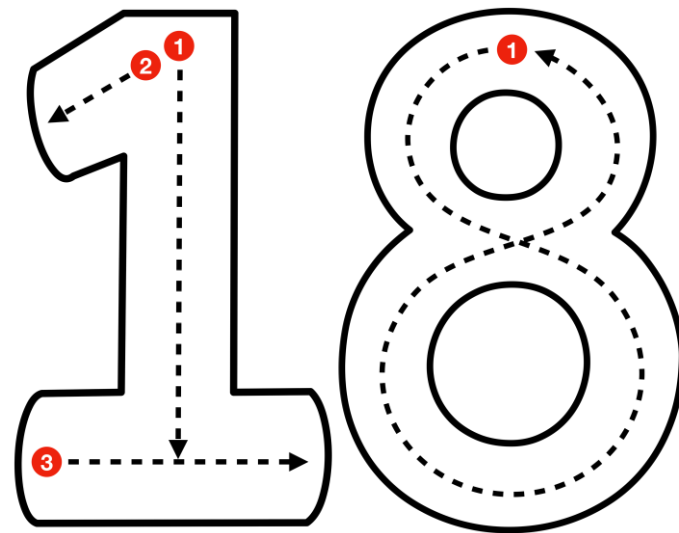

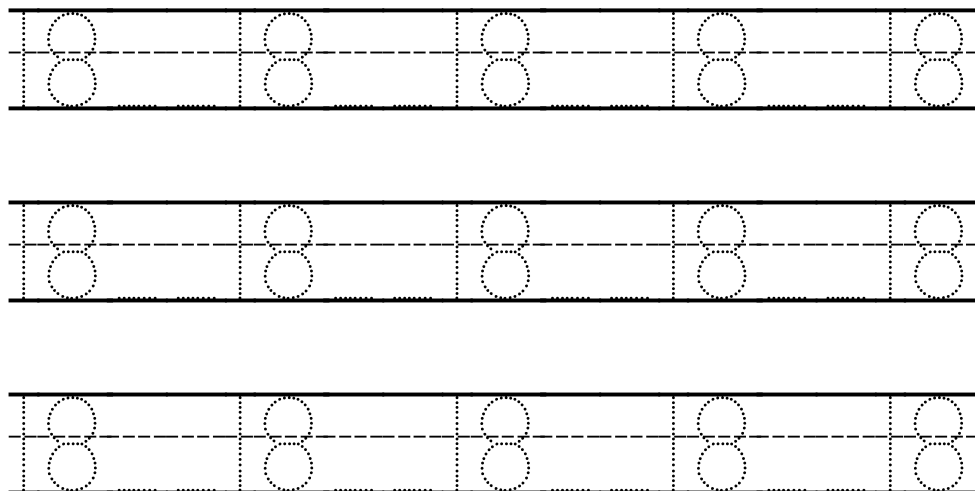

Cuenta 17 huevos y pégalos en la canasta.

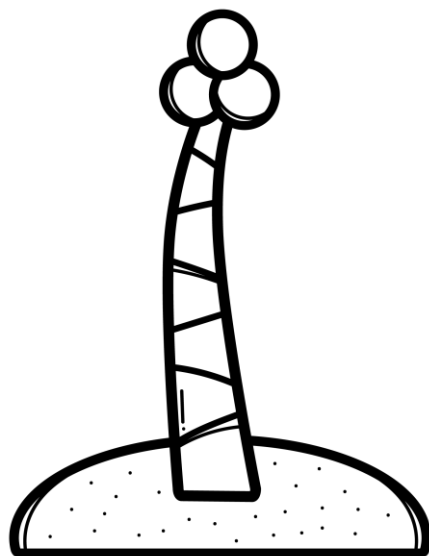

Colored y recorda.

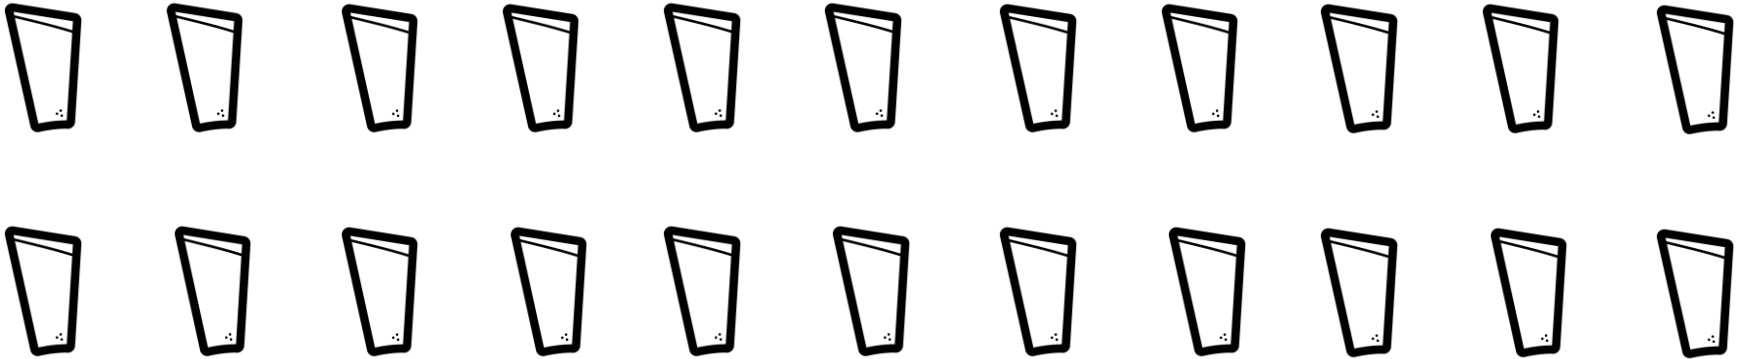

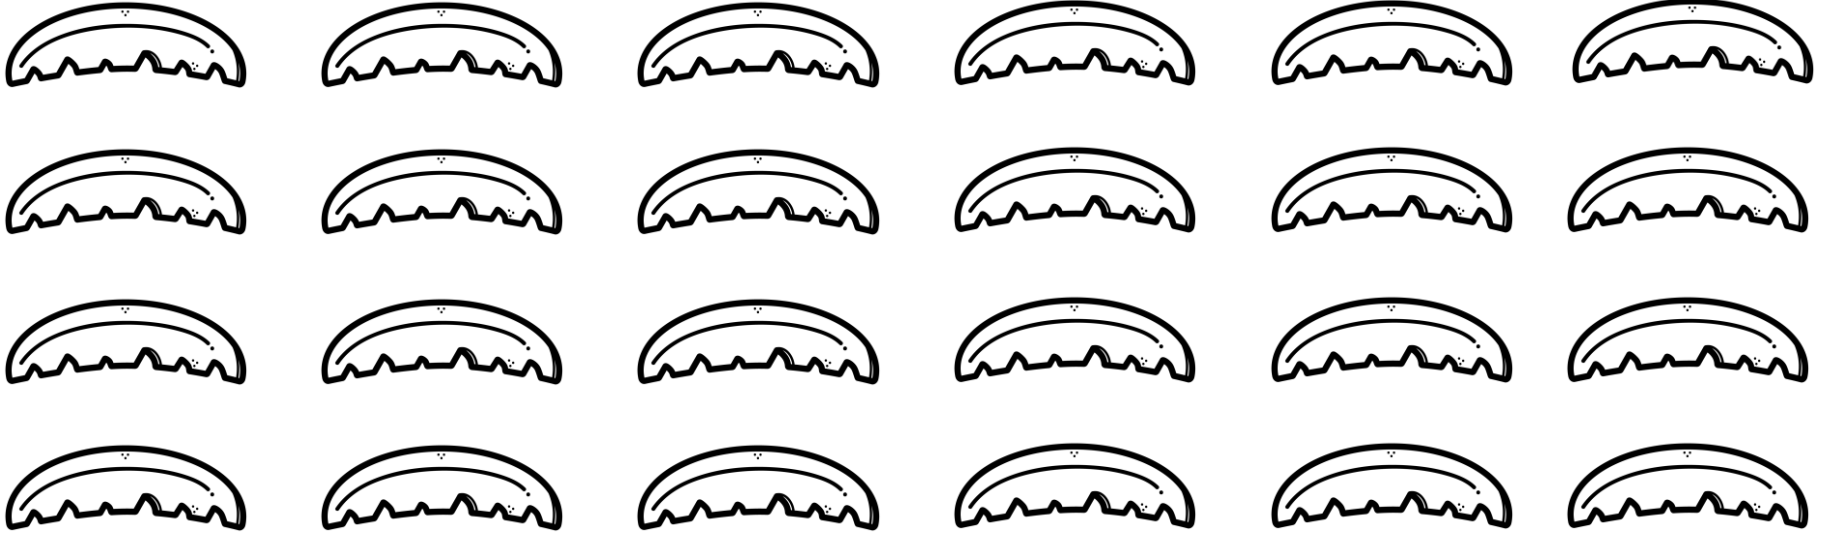

Remarca todas las líneas. NÚMERO DIESGIOCHO

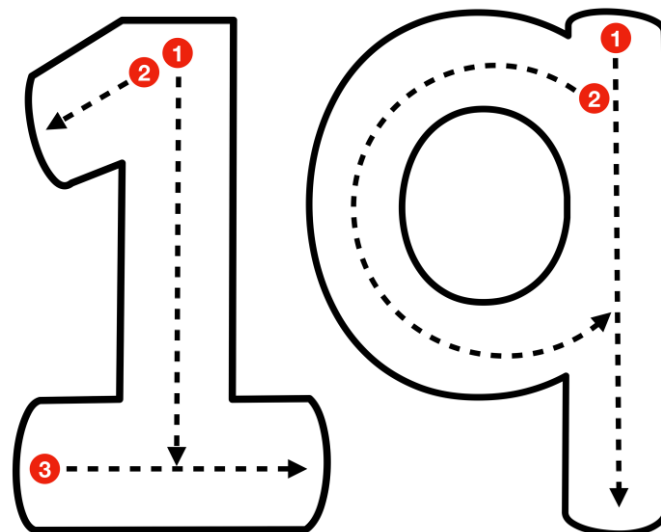

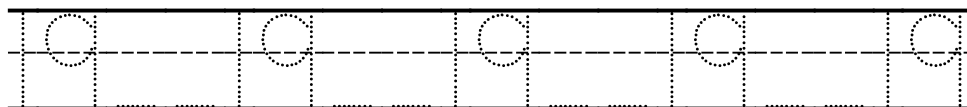

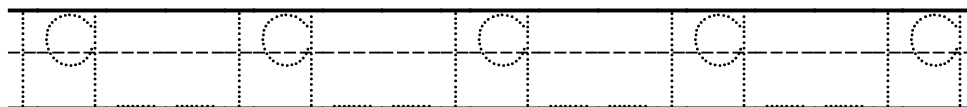

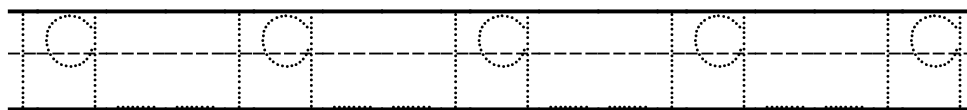

Pega 18 rayos en el Sol y 18 ramas en la palmera.

Colorea y recorta.

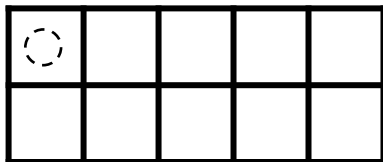

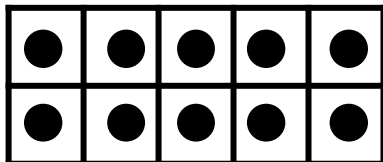

Remarca todas las líneas. NÚMERO DIESCINUEVE

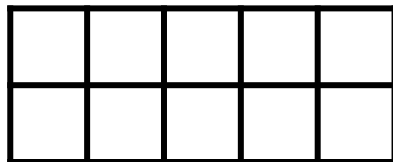

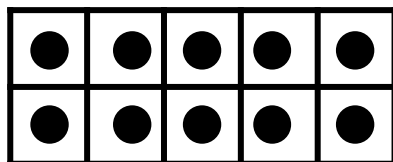

Completa las casillas para formar el número.

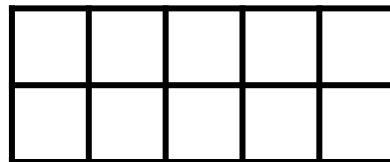

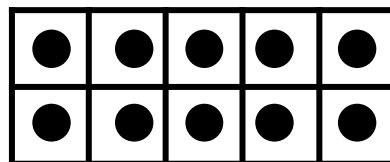

12

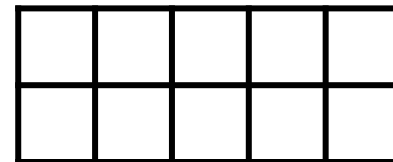

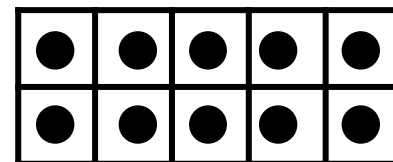

13

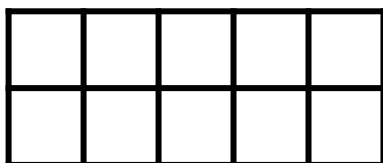

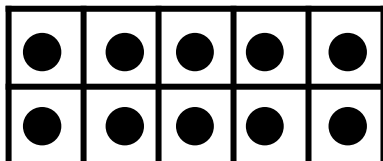

14

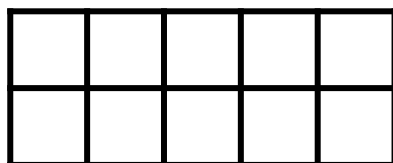

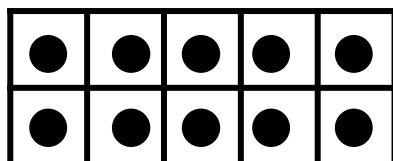

15

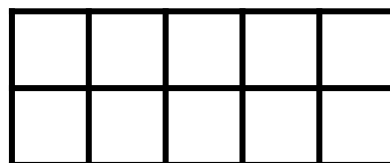

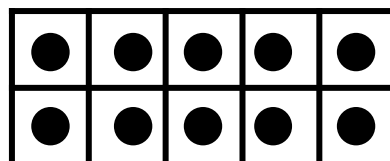

16

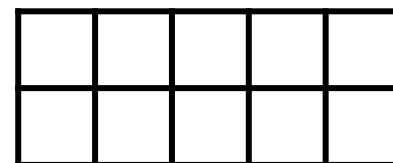

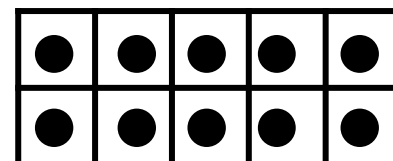

17

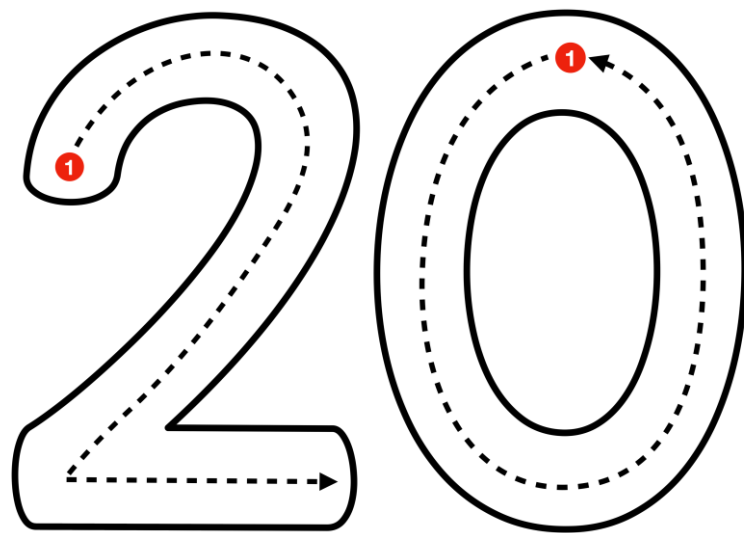

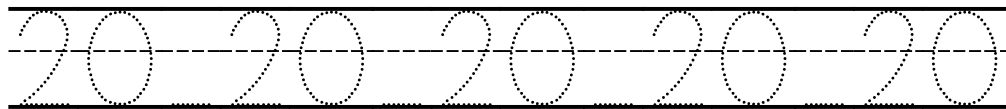

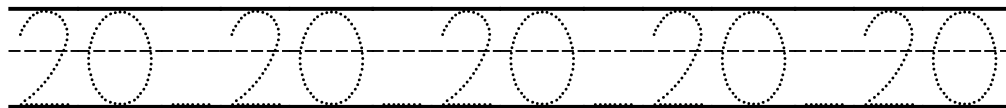

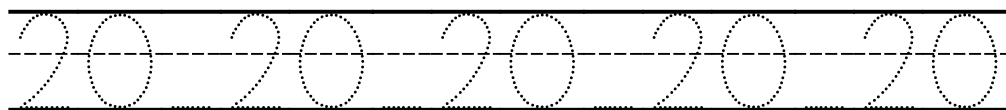

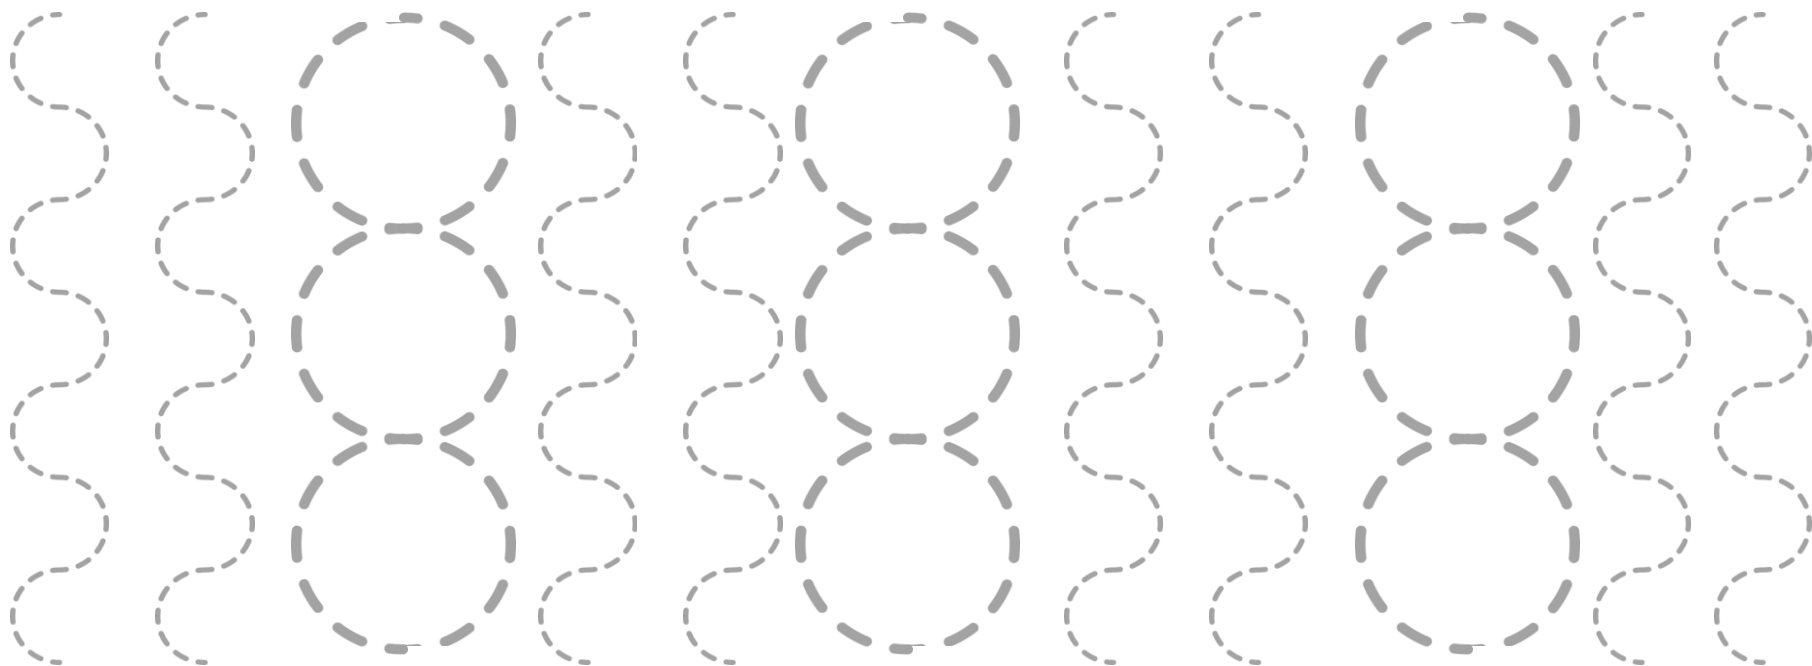

18

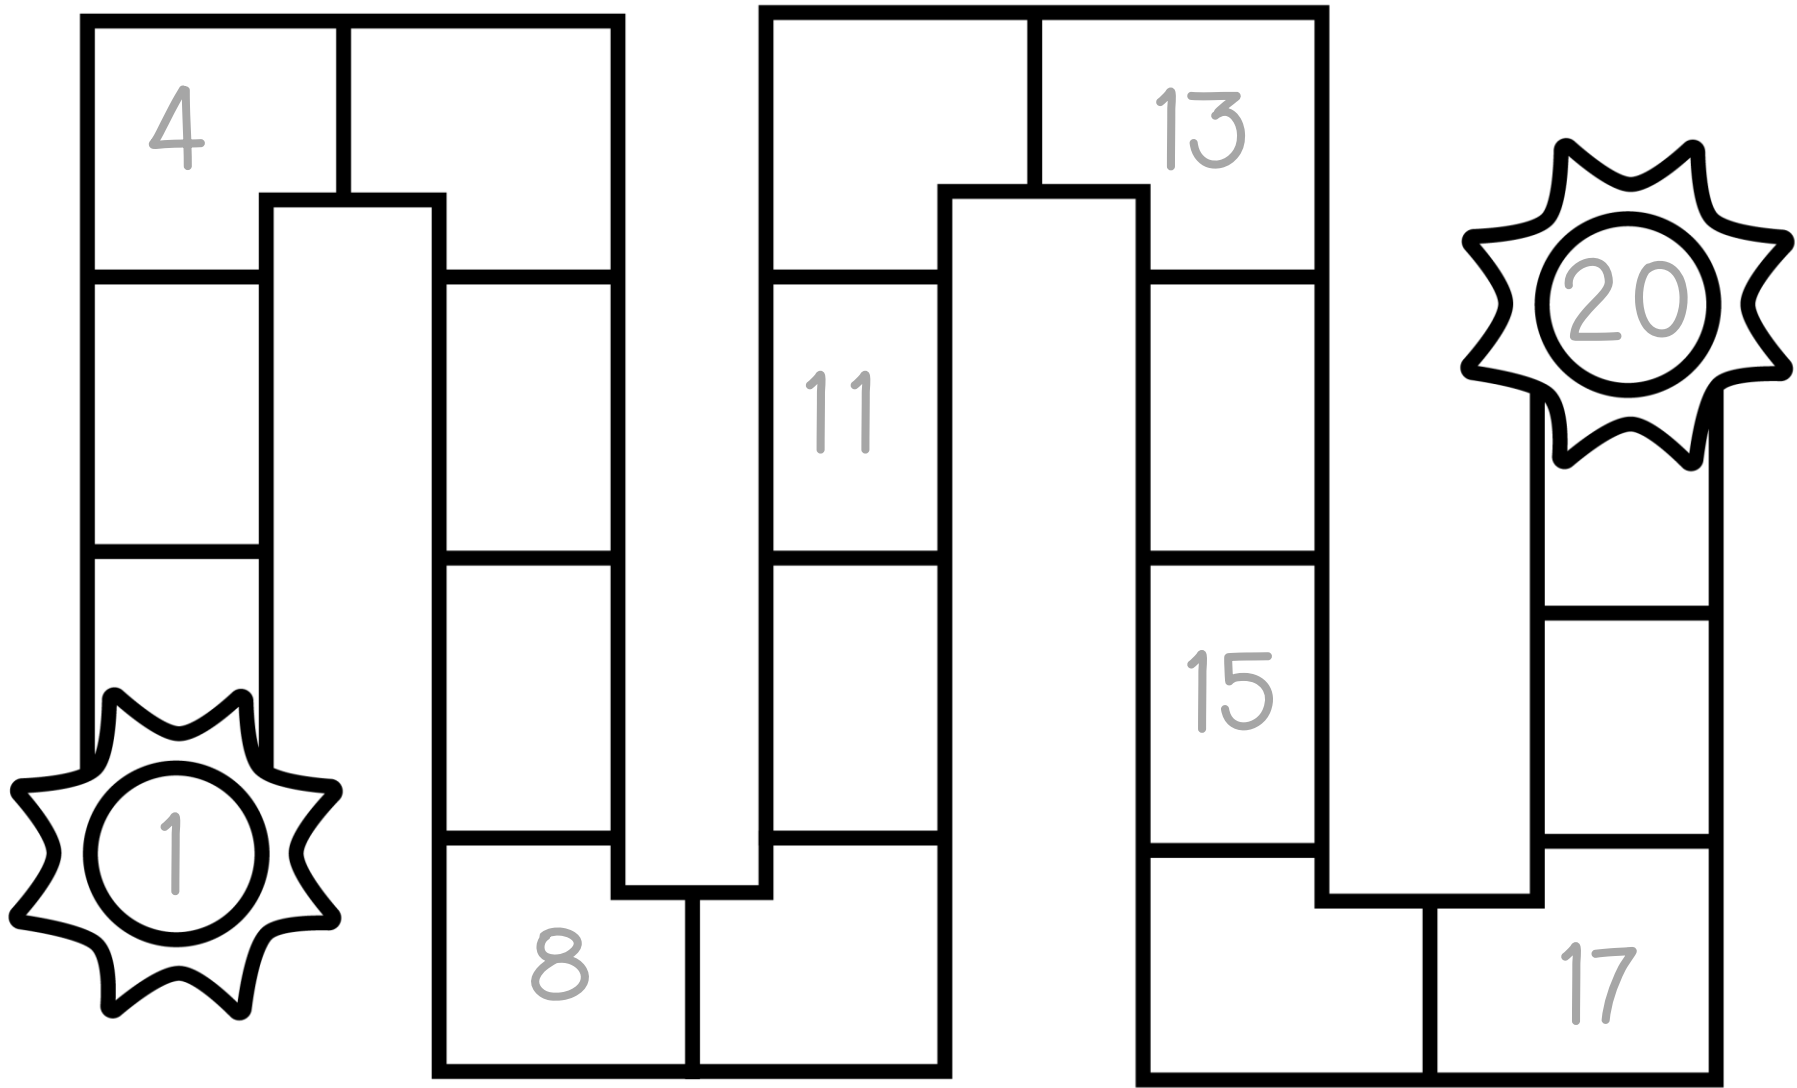

19

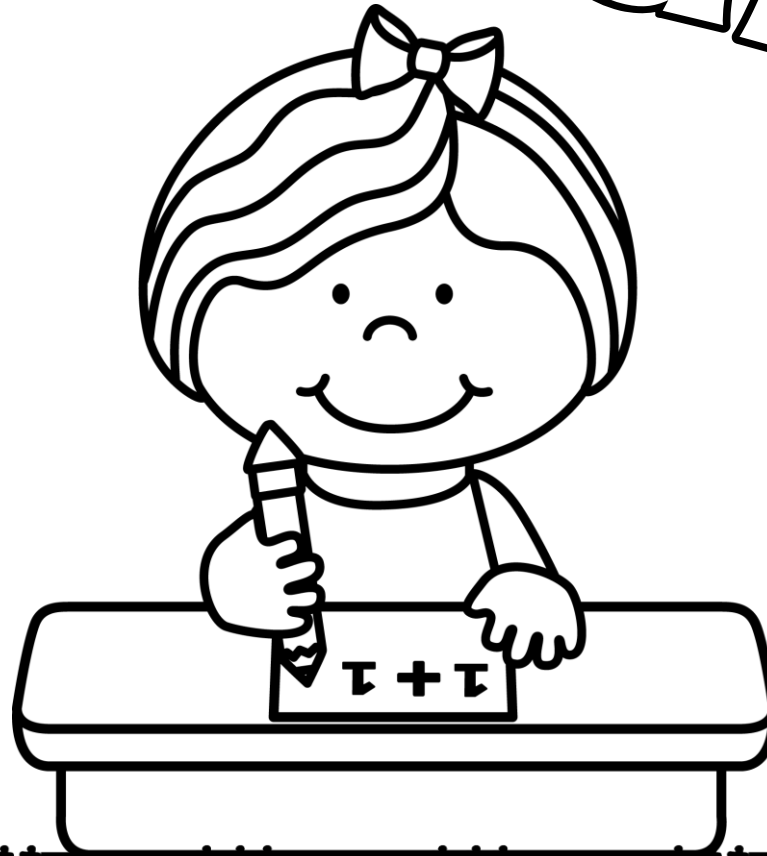

Remarca todas las líneas. NÚMERO VEINTE

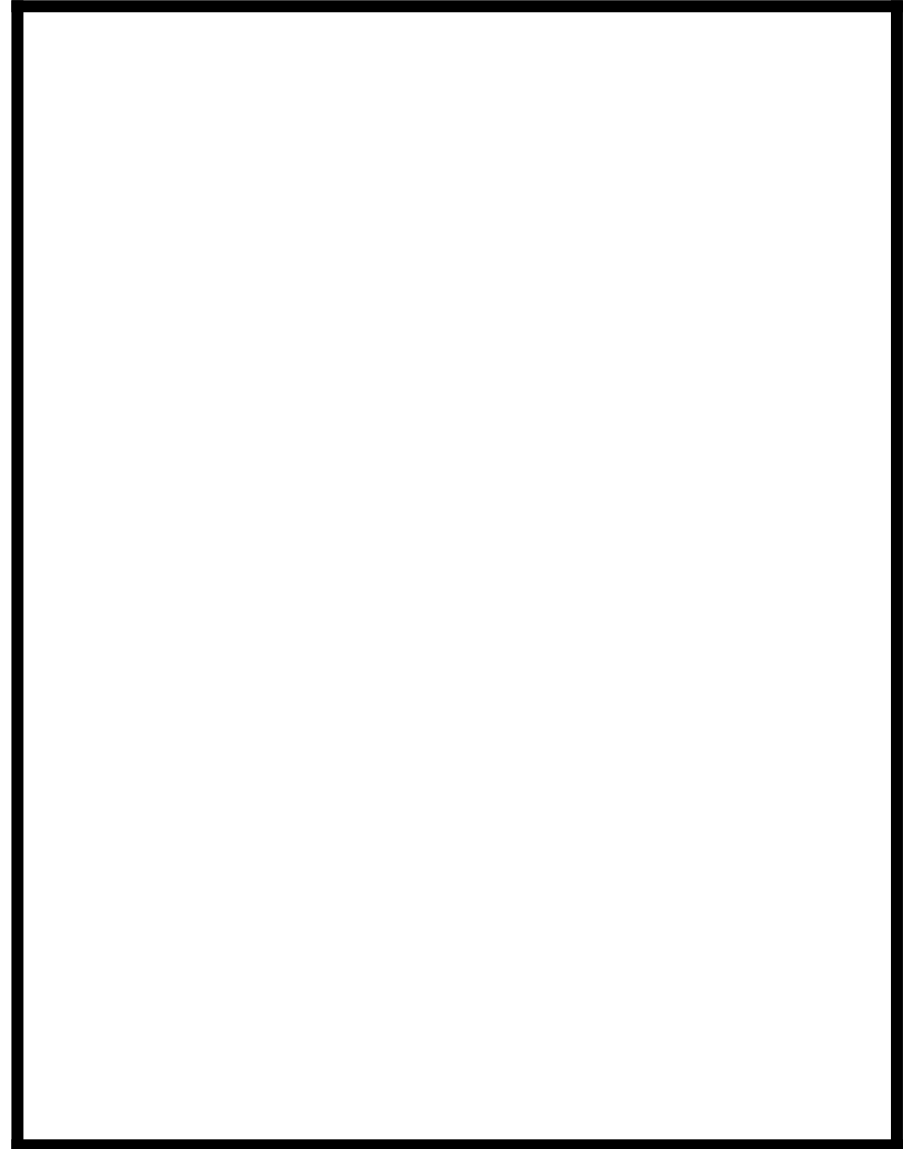

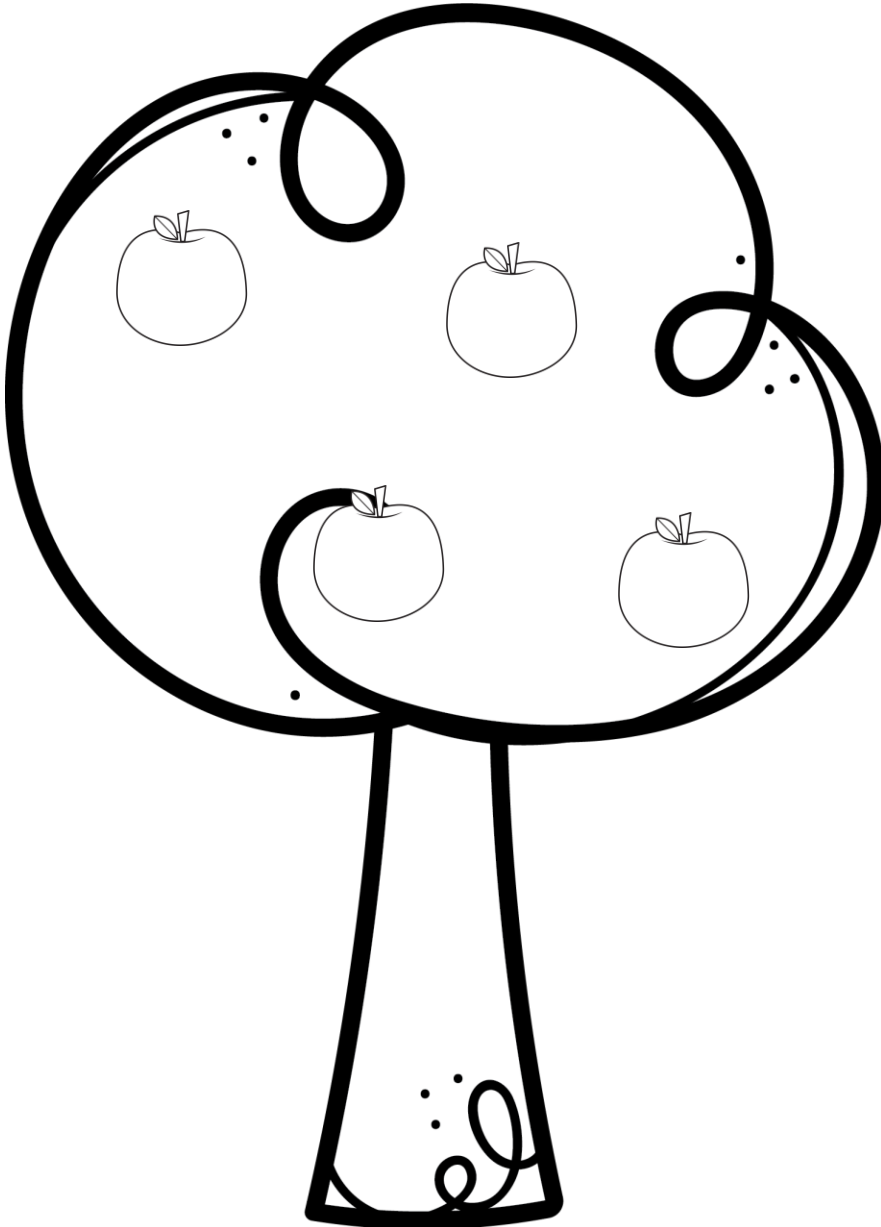

Completa la secuencia.

Agregar y Quitar

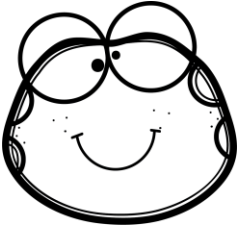

Cuenta las manzanas del árbol y dibuja en el recuadro las que se necesitan para completar 10.

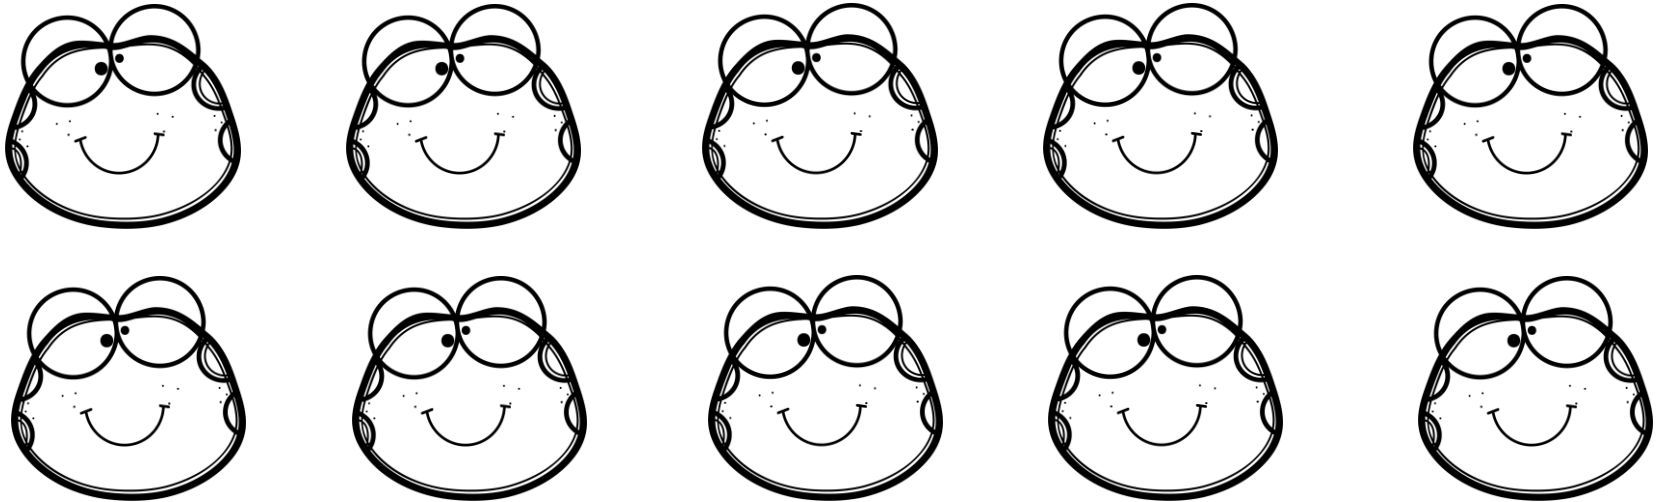

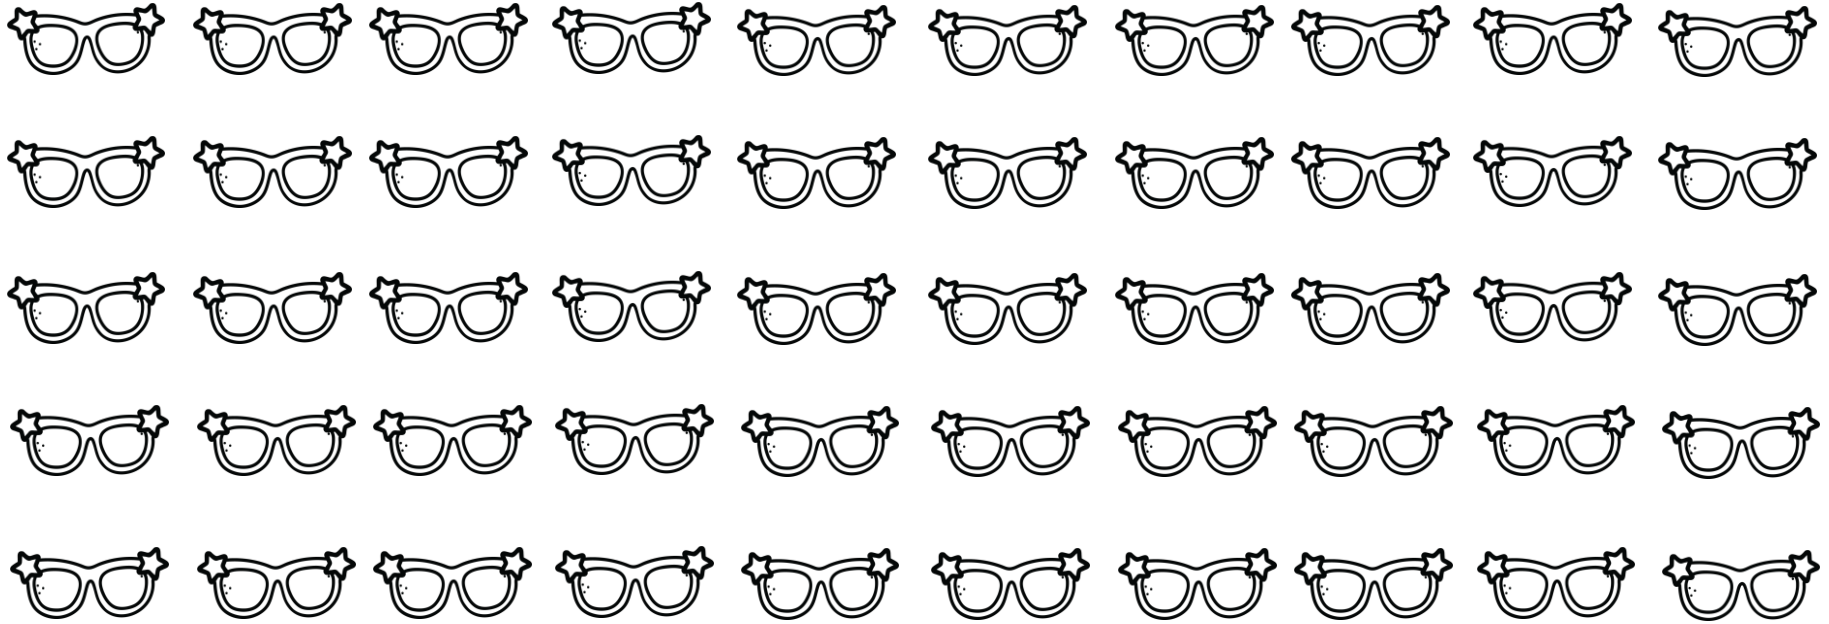

Pega los lentes que se necesiten para completar la serie a 10.

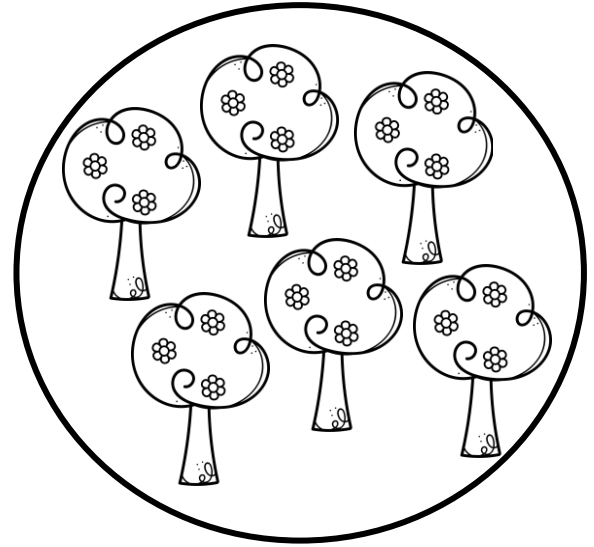

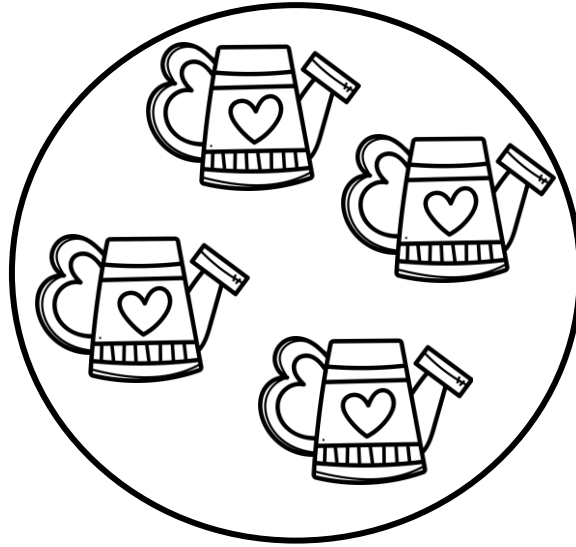

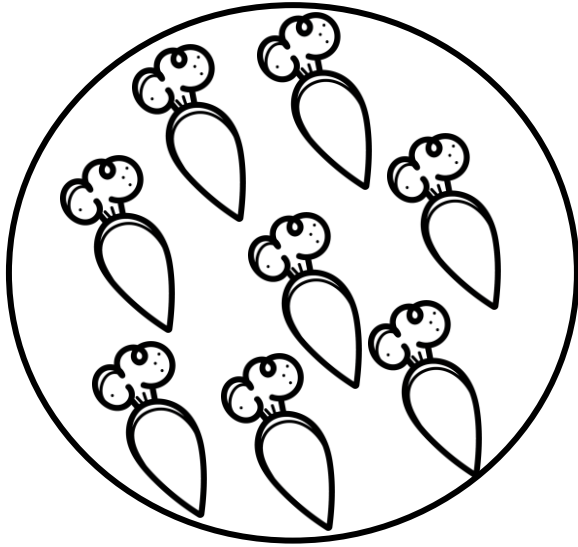

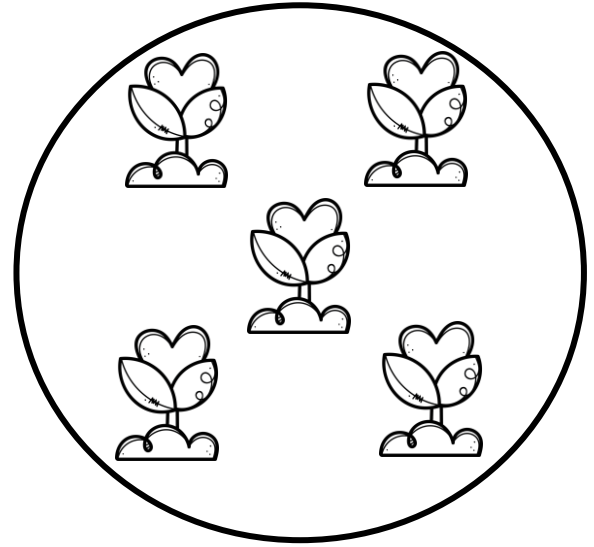

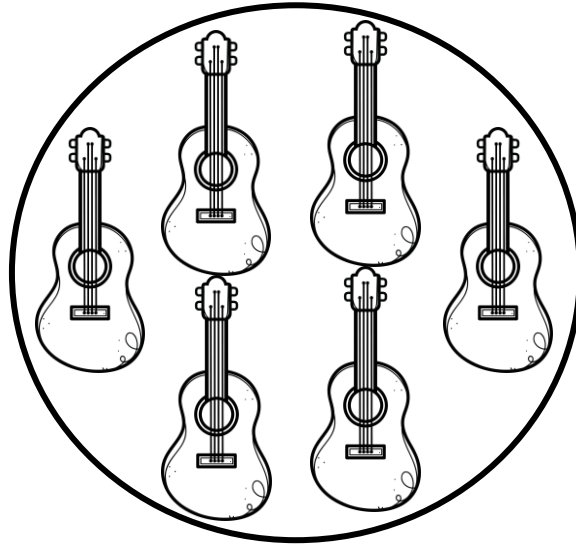

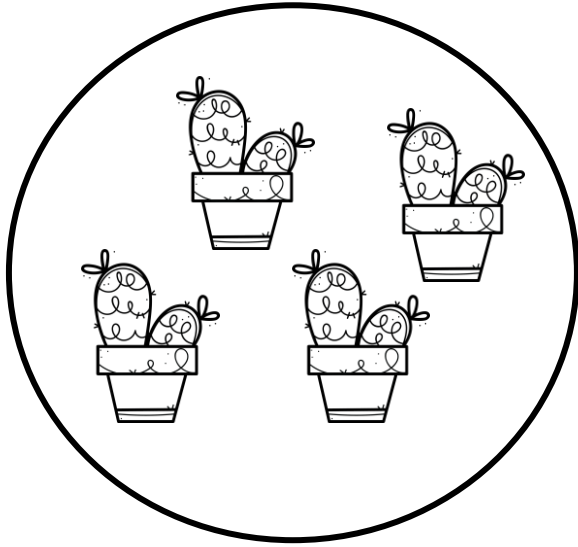

Pega las ranitas que se necesiten para que en total sean 10.

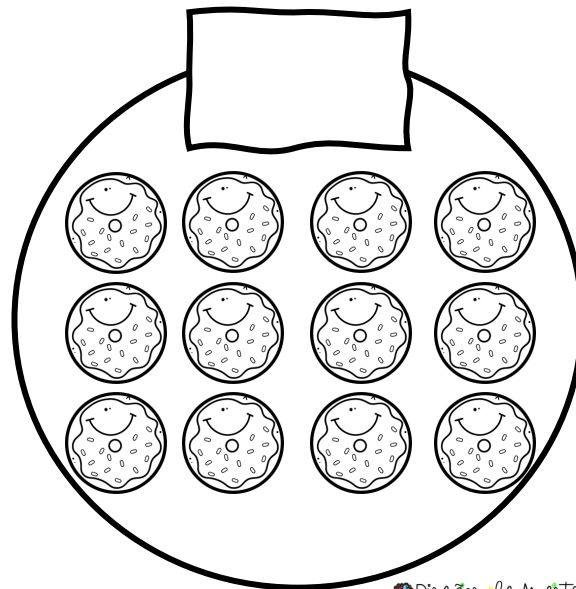

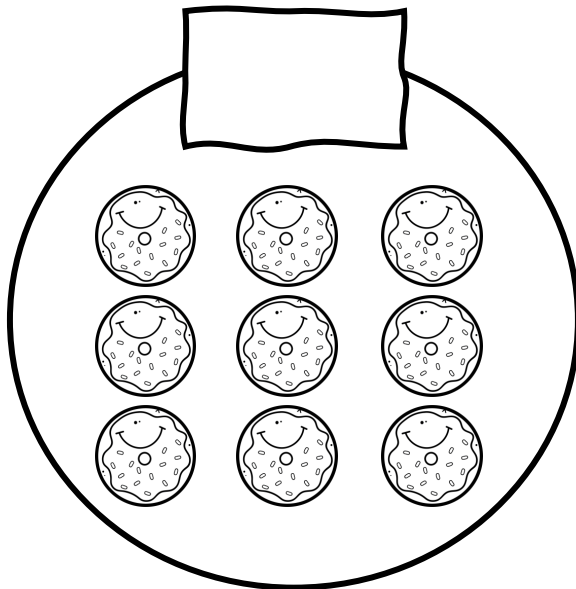

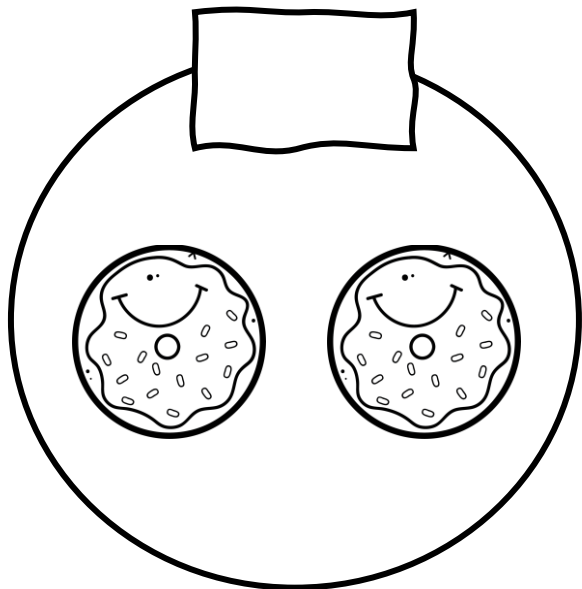

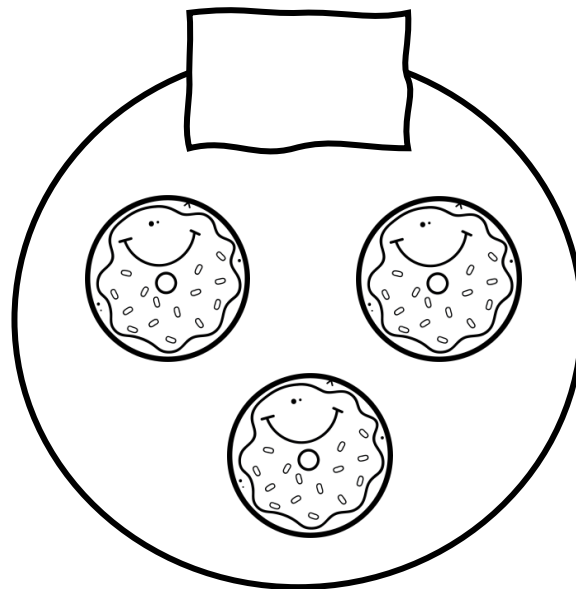

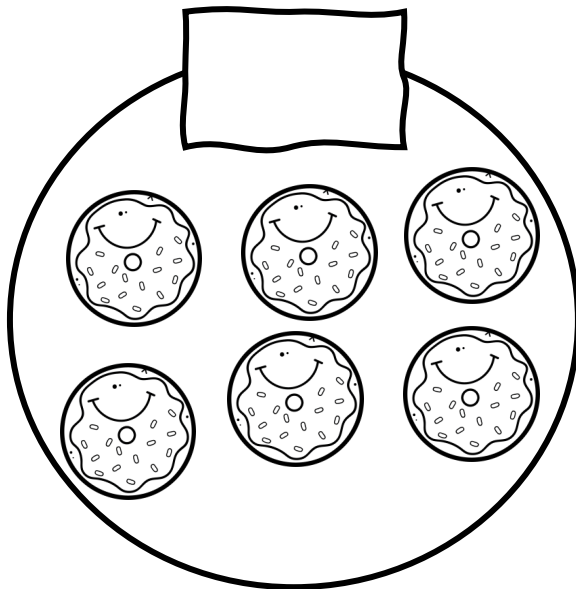

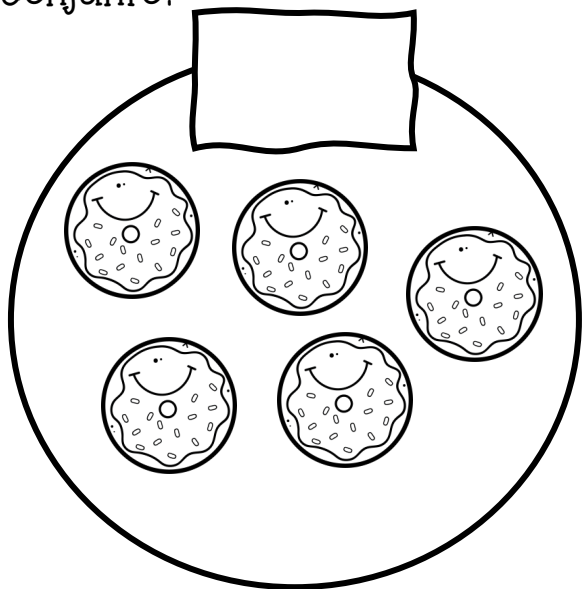

Colorea y recorta.

Tacha los elementos que se necesitan para que en cada conjunto haya tres elementos.

Escribe en el recuadro la cantidad de elementos que quedan al quitar dos en cada conjunto.

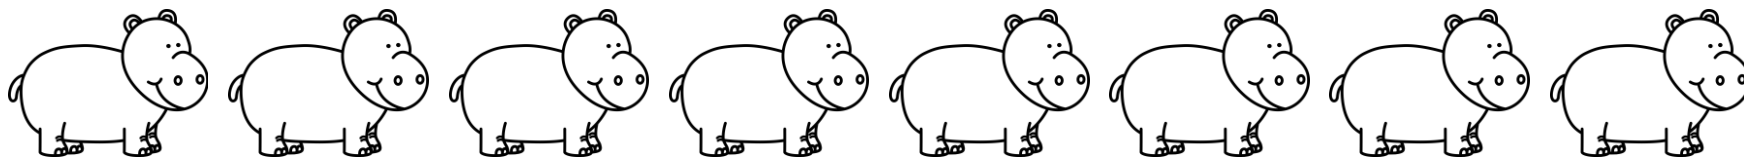

problemas matemáticos

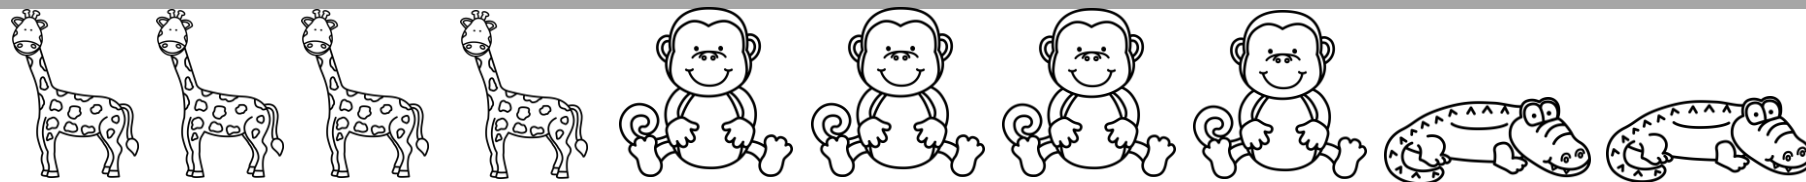

Resuelve los siguientes problemas y colorea la cantidad de cada resultado.

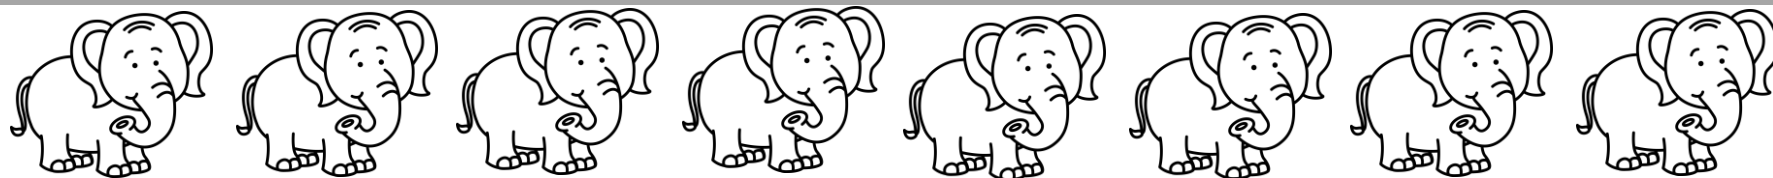

1. En el zoológico hay dos hipopótamos en el estanque, otros tres están comiendo y hay uno durmiendo bajo un árbol, ¿cuántos hipopótamos hay en el zoológico?

2. Hay tres jirafas comiendo hojas, tres monos jugando en los árboles y un cocodrilo en el estanque, ¿cuántos animales hay en el zoológico?

3. En el zoológico había cuatro elefantes y llegaron dos más, ¿cuántos elefantes hay en total en el zoológico?

4. En la jaula "A" hay ocho cebras y cambiaron a cuatro cebras a la jaula "B", ¿cuántas cebras quedaron en la jaula A?

Dibuja el resultado de cada problema.

1. Hoy paseando por el parque me encontré con tres perros salchicha, dos chihuahuas y tres dálmatas, ¿con cuántos perros en total me encontré?

2. En la tienda de animales hay tres ratones, tres pericos y dos tortugas, ¿cuántos animales hay en la tienda?

3. En la casa de mi tía hay dos gatos negros, tres gatos cafés y un gato gris, ¿cuántos gatos hay en total?

4. Tenía cinco dulces, le compartí uno a mi hermana y dos a mi mamá, ¿cuántos dulces me quedaron?

Observa la lámina "El cumpleaños" y responde las siguientes preguntas.

Realiza dibujos para saber el resultado.

1. En la mesa del pastel hay cinco gorritos de fiesta a la izquierda del pastel, cinco a la derecha y el niño cumpleañosero tiene uno puesto, ¿cuántos gorritos de fiesta hay en total?

2. En la mesa de regalos hay ocho regalos y están a punto de darle al niño cumpleañosero dos más, ¿cuántos regalos son en total?

3. Si el niño cumpleañosero ya tenía diez regalos y llegaron otros dos invitados, cada quien con regalo, ¿cuántos regalos tiene ahora?

4. Si hay 10 zapatos a un lado del brincolín, ¿cuántos niños hay brincando en él?

El cumpleaños
